

1
00:00:07,909 --> 00:00:05,110
now sitting at 4 meters away we are

2
00:00:09,350 --> 00:00:07,919
awaiting confirmation for birthing

3
00:00:40,790 --> 00:00:09,360
and we'll be giving you status updates

4
00:00:45,750 --> 00:00:43,430
robotics officers slowly but surely

5
00:00:47,670 --> 00:00:45,760
using the space station's robotic arm

6
00:00:49,910 --> 00:00:47,680
the canadarm2

7
00:00:52,150 --> 00:00:49,920
to maneuver the dragon spacex cargo

8
00:00:54,549 --> 00:00:52,160
vehicle closer and closer to the common

9
00:00:56,310 --> 00:00:54,559
birthing mechanism of harmony on the

10
00:00:59,750 --> 00:00:56,320
nader port

11
00:01:01,990 --> 00:00:59,760
maybe a status to see how best to use uh

12
00:01:03,830 --> 00:01:02,000
my afternoon time i have the optional

13
00:01:06,390 --> 00:01:03,840

exercise period and i have the two tooth

14

00:01:09,830 --> 00:01:06,400

period t2 period

15

00:01:11,670 --> 00:01:09,840

if we think we might be ahead on cbm and

16

00:01:12,950 --> 00:01:11,680

still have that big gap

17

00:01:16,230 --> 00:01:12,960

for the

18

00:01:17,910 --> 00:01:16,240

optional exercise i'll knock out t2 then

19

00:01:19,910 --> 00:01:17,920

to give us a little more flexibility

20

00:01:54,069 --> 00:01:19,920

later in the day otherwise i'll just

21

00:01:59,910 --> 00:01:57,270

the station now 252 statute miles

22

00:02:01,429 --> 00:01:59,920

over the north pacific ocean entering an

23

00:02:03,830 --> 00:02:01,439

orbital sunrise

24

00:02:19,589 --> 00:02:03,840

the uh cargo vehicle land station now

25

00:02:19,599 --> 00:03:12,869

you

26

00:03:17,910 --> 00:03:16,070

and confirmed birthing of the spacex

27

00:03:22,309 --> 00:03:17,920

dragon cargo vehicle on commercial

28

00:03:25,030 --> 00:03:22,319

resupply mission 9 903 a.m central time

29

00:03:31,270 --> 00:03:25,040

just over the border of california and

30

00:03:36,949 --> 00:03:33,430

completed second stage capture will wrap

31

00:03:38,309 --> 00:03:36,959

up the birthing of spacex uh

32

00:03:40,949 --> 00:03:38,319

dragon cargo vehicle to the

33

00:03:42,710 --> 00:03:40,959

international space station

34

00:03:45,750 --> 00:03:42,720

a great mission flawless all the way
