

1  
00:00:07,940 --> 00:00:02,869  
station Houston on 24 talk are you ready

2  
00:00:12,830 --> 00:00:07,950  
for the event he was on station onto I'm

3  
00:00:15,320 --> 00:00:12,840  
ready for the event japanese aerospace

4  
00:00:17,300 --> 00:00:15,330  
exploration agency this is Mission

5  
00:00:28,550 --> 00:00:17,310  
Control Houston please call the station

6  
00:00:31,790 --> 00:00:28,560  
for a voice check station this is mr.

7  
00:00:39,380 --> 00:00:31,800  
como se lo hara in total 0 dis pajamas

8  
00:00:42,139 --> 00:00:39,390  
kawasaki how do you hear me she know

9  
00:00:44,479 --> 00:00:42,149  
Harrison hey Tokyo nobunagun bangla

10  
00:00:49,760 --> 00:00:44,489  
Coachella Cox a 2 station this yokel

11  
00:00:52,670 --> 00:00:49,770  
chumas she know Harrison everyone into

12  
00:00:56,450 --> 00:00:52,680  
the Rockies stadium this is ISS I can

13  
00:00:59,540 --> 00:00:56,460

hear you very well oh nice and good

14

00:01:02,000 --> 00:00:59,550

evening I'm a good mayor of kawasaki

15

00:01:03,680 --> 00:01:02,010

city very nice to talk to you first of

16

00:01:05,780 --> 00:01:03,690

all we are very glad to see the soyuz

17

00:01:10,940 --> 00:01:05,790

spacecraft successfully launched and

18

00:01:13,520 --> 00:01:10,950

docked with ISS judoka what your stay in

19

00:01:16,039 --> 00:01:13,530

space has just begun and you have a lot

20

00:01:18,649 --> 00:01:16,049

to do but i'm sure your long time

21

00:01:21,200 --> 00:01:18,659

training will pay off good luck with

22

00:01:23,359 --> 00:01:21,210

your mission here into the rocky stadium

23

00:01:26,120 --> 00:01:23,369

which is a home stadium of kawasaki

24

00:01:28,609 --> 00:01:26,130

frontale a a professional soccer team in

25

00:01:30,560 --> 00:01:28,619

j1 league in Japan we are joined by many

26

00:01:33,350 --> 00:01:30,570

kids with their parents from cali

27

00:01:36,050 --> 00:01:33,360

supporters and students from your alma

28

00:01:37,910 --> 00:01:36,060

mater a psycho gakuen junior high school

29

00:01:40,010 --> 00:01:37,920

and they have been waiting for this

30

00:01:44,270 --> 00:01:40,020

moment so please give us your message

31

00:01:46,760 --> 00:01:44,280

from ISS high grass on domo arias a

32

00:01:49,819 --> 00:01:46,770

master has made mistakes education alone

33

00:01:52,700 --> 00:01:49,829

is Tomas Tomas heyo caucus and what it

34

00:01:54,380 --> 00:01:52,710

is man Thank You mayor Fukuda nice to

35

00:01:59,060 --> 00:01:54,390

talk to you for the first time I'm the

36

00:02:01,219 --> 00:01:59,070

only she jacks astronaut well soyuz

37

00:02:03,920 --> 00:02:01,229

spacecraft was successfully launched and

38

00:02:07,160 --> 00:02:03,930

i was stocked with is s1 months have

39

00:02:12,020 --> 00:02:07,170

passed since them since talking and i

40

00:02:12,830 --> 00:02:12,030

got used to my life on ISS my work has

41

00:02:16,509 --> 00:02:12,840

been making

42

00:02:19,369 --> 00:02:16,519

progress very well right after

43

00:02:22,250 --> 00:02:19,379

graduating from school my I stayed in a

44

00:02:24,920 --> 00:02:22,260

dormitory in Kawasaki i lived in

45

00:02:28,009 --> 00:02:24,930

Kawasaki city for two and a half years

46

00:02:31,550 --> 00:02:28,019

so I was a Kawasaki citizen back then

47

00:02:34,520 --> 00:02:31,560

and very glad to talk to the soccer fans

48

00:02:37,070 --> 00:02:34,530

kawasaki citizens and my students from

49

00:02:43,699 --> 00:02:37,080

my alma mater and i was looking forward

50

00:02:46,759 --> 00:02:43,709

to this event what is that oniisan im

51  
00:02:49,550 --> 00:02:46,769  
sue me a Kimura I'm going to serve as an

52  
00:02:51,800 --> 00:02:49,560  
MC from now on now let's get started the

53  
00:02:54,130 --> 00:02:51,810  
Q&A session children will ask you to

54  
00:02:58,309 --> 00:02:54,140  
your questions by themselves for

55  
00:03:01,250 --> 00:02:58,319  
students from the elementary school I'm

56  
00:03:03,500 --> 00:03:01,260  
how to toe Oh jakey when you sleep in

57  
00:03:05,990 --> 00:03:03,510  
zero gravity what kind of body position

58  
00:03:11,180 --> 00:03:06,000  
do you take and when you dream in space

59  
00:03:14,089 --> 00:03:11,190  
are you weightless in your dream hi it's

60  
00:03:16,729 --> 00:03:14,099  
mando marriott ademas de todas nakano

61  
00:03:18,860 --> 00:03:16,739  
Musyoka so toyotas just in okara quinoa

62  
00:03:22,910 --> 00:03:18,870  
nante mou shinai to thank you for your

63  
00:03:27,050 --> 00:03:22,920

question what to tell you the truth this

64

00:03:29,210 --> 00:03:27,060

state of zero gravity you can open up

65

00:03:31,970 --> 00:03:29,220

you can relax if you're not doing

66

00:03:34,400 --> 00:03:31,980

anything so you're floating in the air

67

00:03:38,470 --> 00:03:34,410

it's just like you're sleeping on the

68

00:03:42,349 --> 00:03:38,480

bed the muscle has no stress there's no

69

00:03:46,670 --> 00:03:42,359

directions in space and you cannot lie

70

00:03:51,170 --> 00:03:46,680

on the bed so when you sleep but when

71

00:03:54,589 --> 00:03:51,180

you relax you're done how you take this

72

00:03:58,159 --> 00:03:54,599

kind of body posture like this on the

73

00:04:01,309 --> 00:03:58,169

earth you have a gravity so your arms

74

00:04:05,210 --> 00:04:01,319

were down pointing to the ground but

75

00:04:09,259 --> 00:04:05,220

when you are relaxed your arms bent like

76

00:04:12,559 --> 00:04:09,269

this in a relaxed position and if you

77

00:04:15,559 --> 00:04:12,569

are not fixed to anywhere you thought

78

00:04:18,680 --> 00:04:15,569

you tend to float in the air so you're

79

00:04:22,099 --> 00:04:18,690

you fix your body or you sleep in a

80

00:04:24,820 --> 00:04:22,109

sleeping bag attached to the wall one

81

00:04:27,790 --> 00:04:24,830

months have passed since i came to space

82

00:04:31,420 --> 00:04:27,800

and I'm taking a very good sleep and I

83

00:04:34,959 --> 00:04:31,430

don't remember the dream very well but

84

00:04:37,029 --> 00:04:34,969

one dream I remember very well is that

85

00:04:40,119 --> 00:04:37,039

I'm on the earth and I'm walking on the

86

00:04:42,309 --> 00:04:40,129

earth and when I wake up I noticed that

87

00:04:45,879 --> 00:04:42,319

I'm still in a microgravity and floating

88

00:04:52,270 --> 00:04:45,889

in the air so it's quite a funny thank

89

00:04:54,909 --> 00:04:52,280

you for your question okay i'm a

90

00:04:57,189 --> 00:04:54,919

hart-ashian I 6th grade of elementary

91

00:04:59,469 --> 00:04:57,199

school do you have a chance of having a

92

00:05:02,050 --> 00:04:59,479

fever or stomach trouble or catching a

93

00:05:05,950 --> 00:05:02,060

cold in space what do you do in such a

94

00:05:08,589 --> 00:05:05,960

case when you get sick in space is mondo

95

00:05:11,529 --> 00:05:08,599

marriott ademas hemos hecho chicosci s

96

00:05:15,570 --> 00:05:11,539

nephew ankara my okuni rocoto sicario

97

00:05:20,350 --> 00:05:15,580

kobelco thank you for your question we

98

00:05:23,920 --> 00:05:20,360

astronauts guetta must try to have a

99

00:05:28,360 --> 00:05:23,930

good sleep and eat a lot to keep

100

00:05:31,209 --> 00:05:28,370

ourselves in good shape but because we

101  
00:05:33,459 --> 00:05:31,219  
are human so we yes there are

102  
00:05:36,219 --> 00:05:33,469  
possibilities that we get injured or we

103  
00:05:40,689 --> 00:05:36,229  
get sick like you study in that case

104  
00:05:44,040 --> 00:05:40,699  
there are enough medicine on ISS or when

105  
00:05:48,820 --> 00:05:44,050  
we get sick we can take medicine or on

106  
00:05:52,170 --> 00:05:48,830  
the earth you have doctors so we can

107  
00:05:55,450 --> 00:05:52,180  
talk to doctors on the earth via

108  
00:06:00,459 --> 00:05:55,460  
television channel so we have a very

109  
00:06:03,159 --> 00:06:00,469  
well backup support and we the

110  
00:06:04,779 --> 00:06:03,169  
astronauts also are trying to perform a

111  
00:06:08,850 --> 00:06:04,789  
very simple medical treatment for

112  
00:06:13,390 --> 00:06:08,860  
example if you have a DK tooth and then

113  
00:06:16,029 --> 00:06:13,400

we can if you have a fitting fallout

114

00:06:19,420 --> 00:06:16,039

from the your teeth we have been trained

115

00:06:21,279 --> 00:06:19,430

to fill the decayed tooth so unless you

116

00:06:26,740 --> 00:06:21,289

are in a critical condition we are okay

117

00:06:29,320 --> 00:06:26,750

on just space station I'm wattisham is a

118

00:06:31,360 --> 00:06:29,330

6th grade of the elementary school when

119

00:06:34,180 --> 00:06:31,370

you eat space food so you're here it or

120

00:06:37,670 --> 00:06:34,190

eat it without hearing what is your

121

00:06:41,060 --> 00:06:37,680

favorite space food if you have any

122

00:06:43,400 --> 00:06:41,070

hi Samantha mareado dmoz which is Okada

123

00:06:45,230 --> 00:06:43,410

snare autodoc agusta tubberman more

124

00:06:48,560 --> 00:06:45,240

image it's me toques todavia no more

125

00:06:51,680 --> 00:06:48,570

Yoho thank you for your question for

126  
00:06:54,590 --> 00:06:51,690  
space food can be heated hope you can

127  
00:06:57,379 --> 00:06:54,600  
have it without heating it there are

128  
00:07:00,400 --> 00:06:57,389  
both cases just like the food you have

129  
00:07:05,120 --> 00:07:00,410  
on the earth most of the food have no

130  
00:07:09,909 --> 00:07:05,130  
water content it's freeze-dried is dried

131  
00:07:14,029 --> 00:07:09,919  
so you we add hot water or water to

132  
00:07:17,029 --> 00:07:14,039  
restore the previous condition and I

133  
00:07:20,060 --> 00:07:17,039  
like rice so what the cordon I know this

134  
00:07:24,320 --> 00:07:20,070  
is si looking forward to having japanese

135  
00:07:27,650 --> 00:07:24,330  
food especially curry rice but I we

136  
00:07:30,260 --> 00:07:27,660  
couldn't bring them a lot so I'm very

137  
00:07:32,900 --> 00:07:30,270  
looking forward to having a curry rice

138  
00:07:37,339 --> 00:07:32,910

once a week and japanese food are very

139

00:07:42,080 --> 00:07:37,349

popular for other astronauts like

140

00:07:44,860 --> 00:07:42,090

mackerel me so seasoned with miso paste

141

00:07:49,909 --> 00:07:44,870

and such japanese food is very popular

142

00:07:52,310 --> 00:07:49,919

afford a other astronauts i am a Phooka

143

00:07:55,010 --> 00:07:52,320

attiya can you kick a ball or hit a ball

144

00:07:59,629 --> 00:07:55,020

in microgravity but what happens to a

145

00:08:02,899 --> 00:07:59,639

bowl or to your body when you do that hi

146

00:08:05,390 --> 00:08:02,909

Simone de mario Simas enojo caetano

147

00:08:07,700 --> 00:08:05,400

spawns you know attack tomita Cannavaro

148

00:08:11,540 --> 00:08:07,710

hou motors master thank you for your

149

00:08:13,999 --> 00:08:11,550

question here I have a ball staunch made

150

00:08:18,770 --> 00:08:14,009

of sponge it's very soft so it's not so

151  
00:08:20,930 --> 00:08:18,780  
painful given im hit by it yes I can

152  
00:08:23,029 --> 00:08:20,940  
kick a ball or head a ball but it's a

153  
00:08:26,480 --> 00:08:23,039  
slightly different from the cases and on

154  
00:08:30,710 --> 00:08:26,490  
the earth because when you kick or head

155  
00:08:32,870 --> 00:08:30,720  
a ball it doesn't come back to you so

156  
00:08:37,089 --> 00:08:32,880  
long and it bounced up when it hit

157  
00:08:42,800 --> 00:08:37,099  
somewhere for example the molesting

158  
00:08:44,600 --> 00:08:42,810  
could be very difficult no unless it

159  
00:08:49,000 --> 00:08:44,610  
hits somewhere it doesn't come back to

160  
00:08:57,330 --> 00:08:54,220  
playing on in space is that I'm not a

161  
00:08:59,830 --> 00:08:57,340  
good soccer player but I can do it I can

162  
00:09:03,780 --> 00:08:59,840  
play a sucker techniques very easily

163  
00:09:07,930 --> 00:09:03,790

captain tsubasa is a title of the manga

164

00:09:10,500 --> 00:09:07,940

animation but manga book and Captain

165

00:09:14,050 --> 00:09:10,510

Tsubasa was very popular manga book and

166

00:09:17,730 --> 00:09:14,060

he this main character of Captain

167

00:09:21,640 --> 00:09:17,740

Tsubasa anime book it's very good at

168

00:09:25,450 --> 00:09:21,650

overhead shooting and I can do it very

169

00:09:28,570 --> 00:09:25,460

easily on in space even I can do it in

170

00:09:30,940 --> 00:09:28,580

space Distimo Hondo deva katta no

171

00:09:35,530 --> 00:09:30,950

Caradog avoiders i'm wondering where the

172

00:09:40,840 --> 00:09:35,540

ball is heading anyway um I don't even

173

00:09:45,220 --> 00:09:40,850

if you kick a ball it doesn't affect my

174

00:09:49,840 --> 00:09:45,230

body my body is much heavier than a bowl

175

00:09:52,060 --> 00:09:49,850

so yes I can kick ball I'm a 6th grade

176

00:09:55,390 --> 00:09:52,070

of Kawasaki elementary school you

177

00:09:58,150 --> 00:09:55,400

commute is my day I have a bad leg but

178

00:10:00,010 --> 00:09:58,160

can I move my leg more smoothly in space

179

00:10:03,400 --> 00:10:00,020

than on the earth what is the most

180

00:10:06,550 --> 00:10:03,410

difficult motion for you in space hi

181

00:10:08,950 --> 00:10:06,560

tomando Mario Ramos so this man i know

182

00:10:11,320 --> 00:10:08,960

would you do this man co nguoi union Oh

183

00:10:16,360 --> 00:10:11,330

assured Scott I read thank you for your

184

00:10:19,240 --> 00:10:16,370

question well in space just like on the

185

00:10:23,470 --> 00:10:19,250

earth you can walk you don't have to

186

00:10:27,190 --> 00:10:23,480

walk with legs so I like on the earth so

187

00:10:30,400 --> 00:10:27,200

you can move around with arms so you

188

00:10:35,700 --> 00:10:30,410

don't have to use like so much Roberto

189

00:10:40,030 --> 00:10:35,710

here in space night on my mas you can

190

00:10:42,730 --> 00:10:40,040

move around with arms you don't have to

191

00:10:45,400 --> 00:10:42,740

use legs so it's you can move more

192

00:10:50,350 --> 00:10:45,410

freely in space the most difficult

193

00:10:53,860 --> 00:10:50,360

motion in space so well the most

194

00:10:55,940 --> 00:10:53,870

difficult motion is to stop to be still

195

00:11:03,550 --> 00:10:55,950

I

196

00:11:10,820 --> 00:11:03,560

in space it's really difficult to stop

197

00:11:14,270 --> 00:11:10,830

your body I have to put some stress in

198

00:11:20,900 --> 00:11:14,280

my body otherwise I just keep floating

199

00:11:22,970 --> 00:11:20,910

in the air i'm sarah suzuki 4th grade of

200

00:11:24,650 --> 00:11:22,980

nehemiah elementary school how many

201  
00:11:27,110 --> 00:11:24,660  
times have you gone around the earth

202  
00:11:31,670 --> 00:11:27,120  
already can you see kawasaki city from

203  
00:11:34,610 --> 00:11:31,680  
ISS hi tomando marriott ademas oxygen

204  
00:11:36,590 --> 00:11:34,620  
session waa ay KU je Puna shooters fetal

205  
00:11:42,730 --> 00:11:36,600  
HQ de mayo guru guru ma thank you for

206  
00:11:47,260 --> 00:11:42,740  
your question ISS ya piggy mouse has

207  
00:11:52,790 --> 00:11:47,270  
goes around the earth once in 19 minutes

208  
00:11:57,620 --> 00:11:52,800  
so we i have a day and night once in 90

209  
00:12:01,580 --> 00:11:57,630  
minutes and you know i think i have gone

210  
00:12:05,210 --> 00:12:01,590  
around the earth about 650 times because

211  
00:12:07,610 --> 00:12:05,220  
40 days have passed since i came to the

212  
00:12:11,990 --> 00:12:07,620  
space I haven't seen kawasaki city

213  
00:12:14,180 --> 00:12:12,000

directly from space but kawasaki is a

214

00:12:17,800 --> 00:12:14,190

city where i used to live so I'm looking

215

00:12:21,500 --> 00:12:17,810

forward to seeing the city from space

216

00:12:24,170 --> 00:12:21,510

I'm a Utah go to a third grade of

217

00:12:30,560 --> 00:12:24,180

elementary school is it true that you

218

00:12:33,860 --> 00:12:30,570

drink urine has drinking water on ISS hi

219

00:12:38,150 --> 00:12:33,870

yuck stamina I know Ozzy call me

220

00:12:42,350 --> 00:12:38,160

Monsieur dr. Moise it is take them on

221

00:12:47,060 --> 00:12:42,360

yes you know it very well yes I drink

222

00:12:49,340 --> 00:12:47,070

urien it tastes good well but it doesn't

223

00:12:52,460 --> 00:12:49,350

mean that I mean drinking urine as it is

224

00:12:57,110 --> 00:12:52,470

please don't misunderstand i'm not a

225

00:12:59,660 --> 00:12:57,120

weird person like that on ISS we have a

226

00:13:05,570 --> 00:12:59,670

system to convert you rain into drinking

227

00:13:06,519 --> 00:13:05,580

water we have a big equipment on ISS we

228

00:13:10,239 --> 00:13:06,529

can

229

00:13:13,170 --> 00:13:10,249

turn you rain into very clean water here

230

00:13:17,470 --> 00:13:13,180

I have a clean water inside this bag

231

00:13:19,780 --> 00:13:17,480

this is made from the our green two or

232

00:13:21,819 --> 00:13:19,790

three days ago yeah that pandas get all

233

00:13:25,840 --> 00:13:21,829

this texting me at all hon tony studio

234

00:13:31,420 --> 00:13:25,850

issue days at first I was kind of

235

00:13:33,910 --> 00:13:31,430

embarrassed to hear that we drink water

236

00:13:38,379 --> 00:13:33,920

made from urine but I've got used to it

237

00:13:42,549 --> 00:13:38,389

it tastes good konichi son how do you do

238

00:13:46,119 --> 00:13:42,559

I'm King go nakamura captain of the team

239

00:13:47,290 --> 00:13:46,129

kawasaki frontale a i often find it

240

00:13:49,150 --> 00:13:47,300

difficult to get the team together

241

00:13:53,860 --> 00:13:49,160

because in front of a we have players

242

00:13:55,960 --> 00:13:53,870

with various personalities on ISS these

243

00:14:00,670 --> 00:13:55,970

are any tips for building a good team

244

00:14:03,189 --> 00:14:00,680

work with other crew members on ISS I

245

00:14:05,679 --> 00:14:03,199

know so listen I'm a captain to Nico

246

00:14:07,929 --> 00:14:05,689

nice i Ken Ingham ademas SI tiagra 21

247

00:14:12,759 --> 00:14:07,939

days now cameras on how did you and

248

00:14:15,939 --> 00:14:12,769

Aisha captain has many responsibilities

249

00:14:19,990 --> 00:14:15,949

I think it's a very tough job to do on

250

00:14:24,429 --> 00:14:20,000

ISS we have a commander captain so to

251  
00:14:27,460 --> 00:14:24,439  
speak on ISS and captain and we are the

252  
00:14:31,259 --> 00:14:27,470  
crew members work together and build a

253  
00:14:35,319 --> 00:14:31,269  
good team work in performing now works

254  
00:14:38,499 --> 00:14:35,329  
so much even own a cadet commander has a

255  
00:14:42,790 --> 00:14:38,509  
lot of responsibilities but each crew

256  
00:14:46,150 --> 00:14:42,800  
members has his own or her own duties

257  
00:14:49,360 --> 00:14:46,160  
and each one of us is always thinking

258  
00:14:51,699 --> 00:14:49,370  
what we can do for others and all jumped

259  
00:14:55,410 --> 00:14:51,709  
in to stay and if individual member

260  
00:14:58,929 --> 00:14:55,420  
performs does his or her best that will

261  
00:15:01,629 --> 00:14:58,939  
improve the overall performance of the

262  
00:15:03,790 --> 00:15:01,639  
team so nakamura-san you were a captain

263  
00:15:06,400 --> 00:15:03,800

of the team and I think that you have a

264

00:15:09,429 --> 00:15:06,410

great responsibility but I think it's

265

00:15:12,290 --> 00:15:09,439

very important for you to pay attention

266

00:15:16,400 --> 00:15:12,300

to individual players

267

00:15:19,790 --> 00:15:16,410

they work and build a team spirit have

268

00:15:24,490 --> 00:15:19,800

you ever seen you fo before have you

269

00:15:28,970 --> 00:15:24,500

ever seen aliens I think the aliens

270

00:15:31,250 --> 00:15:28,980

exist what do you think about that hi I

271

00:15:33,830 --> 00:15:31,260

know you for this nano most emit a muy

272

00:15:36,140 --> 00:15:33,840

unit every turn O'Day Antonio Toya in

273

00:15:40,850 --> 00:15:36,150

des cadeaux a nose and a nag ramada a no

274

00:15:44,240 --> 00:15:40,860

you fool aah useful I'm told not to tell

275

00:15:46,550 --> 00:15:44,250

you what I've seen you do not it than

276

00:15:49,010 --> 00:15:46,560

you do I haven't seen you fought yet

277

00:15:52,790 --> 00:15:49,020

that's true but just like you

278

00:15:56,150 --> 00:15:52,800

nakamura-san I do believe that there are

279

00:15:59,420 --> 00:15:56,160

aliens because there are so many stars

280

00:16:01,850 --> 00:15:59,430

around us we are living in the vast

281

00:16:05,420 --> 00:16:01,860

universe and you know about what our

282

00:16:07,580 --> 00:16:05,430

cityca very hard to think that we are

283

00:16:13,880 --> 00:16:07,590

the only living creature in this

284

00:16:17,900 --> 00:16:13,890

universe from the aliens maybe we the

285

00:16:20,480 --> 00:16:17,910

people on earth may look like aliens so

286

00:16:22,760 --> 00:16:20,490

if you deny the existence of aliens that

287

00:16:30,080 --> 00:16:22,770

means that we denied existence of us so

288

00:16:33,260 --> 00:16:30,090

I do believe they exist without Aneesha

289

00:16:37,370 --> 00:16:33,270

and sorry for my tough question finally

290

00:16:42,440 --> 00:16:37,380

I'm going to pass the ball to you on ISS

291

00:16:44,540 --> 00:16:42,450

so would you please receive it they are

292

00:16:49,640 --> 00:16:44,550

quite pathetic our junior solo tengo

293

00:17:05,010 --> 00:16:49,650

Nakamura is going to kick the ball on a

294

00:17:05,020 --> 00:17:14,579

Oliza onishi son have you got the ball

295

00:17:24,460 --> 00:17:16,600

boring atta boy Tommy tadesco too

296

00:17:34,600 --> 00:17:24,470

meticulous I yes I've got it I think

297

00:17:37,150 --> 00:17:34,610

I've got it just a moment please hi

298

00:17:38,710 --> 00:17:37,160

shantou and a conversational kita water

299

00:17:44,919 --> 00:17:38,720

which is station where to look you my

300

00:17:51,549 --> 00:17:44,929

star jarritos I'm us yes I got the ball

301  
00:17:54,810 --> 00:17:51,559  
kicked by Nakamura thank you what is on

302  
00:17:57,430 --> 00:17:54,820  
fire thank you very much ohnishi son

303  
00:17:58,360 --> 00:17:57,440  
what you don't eat on me cause like you

304  
00:18:00,760 --> 00:17:58,370  
don't tell you how to do so they're

305  
00:18:04,750 --> 00:18:00,770  
tight at all i hope i will send you a

306  
00:18:07,900 --> 00:18:04,760  
good news that we won our first Jay won

307  
00:18:09,700 --> 00:18:07,910  
league champion title my teammates and

308  
00:18:12,700 --> 00:18:09,710  
where supporters will try hard to make

309  
00:18:19,210 --> 00:18:12,710  
that happen so I also wish you a good

310  
00:18:23,320 --> 00:18:19,220  
luck good luck so this is a we are

311  
00:18:42,450 --> 00:18:23,330  
setting it yells for onishi Takuya in a

312  
00:18:48,159 --> 00:18:45,760  
hi toh meri toh dimas Ignacio went

313  
00:18:50,560 --> 00:18:48,169

shantou a noches de sumidero de masta

314

00:18:53,710 --> 00:18:50,570

Emma nos and a second pan aminu cambio

315

00:18:58,240 --> 00:18:53,720

de esta thank you everyone we must get

316

00:19:00,430 --> 00:18:58,250

off I hear your cheers Iran is ayah says

317

00:19:03,070 --> 00:19:00,440

thank you Tony it's gonna marry my own

318

00:19:04,750 --> 00:19:03,080

tank for the sake of soccer players so

319

00:19:07,210 --> 00:19:04,760

then you could think imma take you must

320

00:19:11,830 --> 00:19:07,220

know that and me yo schematics for us

321

00:19:13,390 --> 00:19:11,840

your tears are quite encouraging and

322

00:19:16,060 --> 00:19:13,400

I'll do my best in the rest of my

323

00:19:20,470 --> 00:19:16,070

mission thank you very much for this

324

00:19:22,419 --> 00:19:20,480

opportunity Thank You mr. onishi we are

325

00:19:32,749 --> 00:19:22,429

looking forward to seeing you on earth

326

00:19:57,959 --> 00:19:52,649

Thank You station this is Houston ACR

327

00:20:00,019 --> 00:19:57,969

thank you that concludes the event Thank

328

00:20:03,359 --> 00:20:00,029

You Japanese aerospace exploration

329

00:20:04,919 --> 00:20:03,369

agency participants station we're going
