

1  
00:00:04,150 --> 00:00:02,149  
you should be putting the hedge building

2  
00:00:06,070 --> 00:00:04,160  
into work so alex krapochka now uh

3  
00:00:09,350 --> 00:00:06,080  
joining jeff williams and alexei of

4  
00:00:11,430 --> 00:00:09,360  
chenan uh there in the uh passageway as

5  
00:00:13,830 --> 00:00:11,440  
they are about to say farewell to their

6  
00:00:39,750 --> 00:00:13,840  
three counterparts uh before making

7  
00:00:44,389 --> 00:00:41,430  
and the three crew members are now

8  
00:01:04,630 --> 00:00:44,399  
making their way in as of china last to

9  
00:01:09,910 --> 00:01:06,789  
undocking confirmed physical separation

10  
00:01:15,510 --> 00:01:13,910  
at 4 51 p.m central time 5 51 p.m

11  
00:01:18,149 --> 00:01:15,520  
eastern time

12  
00:01:20,630 --> 00:01:18,159  
as the soyuz tma-20m spacecraft and the

13  
00:01:29,429 --> 00:01:20,640

international space station flew 258

14

00:01:33,350 --> 00:01:31,350

an outstanding view from the trust

15

00:01:35,590 --> 00:01:33,360

camera one of the new hd external

16

00:01:38,550 --> 00:01:35,600

cameras

17

00:01:40,149 --> 00:01:38,560

expedition 49 technically

18

00:01:42,310 --> 00:01:40,159

underway

19

00:01:44,230 --> 00:01:42,320

there are no objects

20

00:01:46,310 --> 00:01:44,240

in it so nothing

21

00:01:48,069 --> 00:01:46,320

no foreign objects the journey home

22

00:02:06,069 --> 00:01:48,079

begins for williams of china and

23

00:02:14,710 --> 00:02:09,669

is done so now we're getting ready for

24

00:02:14,720 --> 00:02:22,070

and he's in the chair and actually

25

00:02:26,630 --> 00:02:24,390

and that is nasa's jeff williams now

26

00:02:28,790 --> 00:02:26,640

back in the chair so he was sucking out

27

00:02:32,550 --> 00:02:28,800

now again he's with his uh flight dock

28

00:02:34,390 --> 00:02:32,560

his uh surgeon dr joe schmidt and nasa

29

00:02:36,869 --> 00:02:34,400

astronaut pat forrest are here to

30

00:02:39,350 --> 00:02:36,879

welcome him back along with the nasa

31

00:02:41,030 --> 00:02:39,360

russia team uncle jerome cobrano from

32

00:02:43,509 --> 00:02:41,040

the international space station program

33

00:02:46,470 --> 00:02:43,519

that jeff williams nasa's most

34

00:02:49,509 --> 00:02:46,480

experienced astronaut now out of the

35

00:02:52,229 --> 00:02:49,519

castle in his chair once again back home

36

00:02:54,470 --> 00:02:52,239

here on planet earth

37

00:02:56,550 --> 00:02:54,480

and rob cut in any time you guys get

38

00:02:57,430 --> 00:02:56,560

that video back but uh two of the crew

39

00:02:59,750 --> 00:02:57,440  
members

40

00:03:08,550 --> 00:02:59,760  
are back out now just waiting on

41

00:03:14,550 --> 00:03:11,190  
and dan we now uh have video back on

42

00:03:16,790 --> 00:03:14,560  
from the landing site uh looking at uh

43

00:03:19,990 --> 00:03:16,800  
jeff williams smiling broadly sitting

44

00:03:26,630 --> 00:03:20,000  
next to his soyuz commander alexei of

45

00:03:31,509 --> 00:03:28,789  
right now they're doing all just those

46

00:03:33,270 --> 00:03:31,519  
initial medical checkouts just quick

47

00:03:35,670 --> 00:03:33,280  
takes of the vitals and things like that

48

00:03:37,830 --> 00:03:35,680  
before they get ready to move off to the

49

00:03:39,430 --> 00:03:37,840  
medical tent and all three of these crew

50

00:03:41,589 --> 00:03:39,440  
members are going to be participating in

51  
00:03:43,430 --> 00:03:41,599  
the field test study so they've been on

52  
00:03:46,149 --> 00:03:43,440  
the ground for about an hour and a half

53  
00:03:47,430 --> 00:03:46,159  
or so until they load up their own

54  
00:03:50,710 --> 00:03:47,440  
helicopter

55  
00:03:52,470 --> 00:03:50,720  
and here safely back down on the ground

56  
00:03:53,429 --> 00:03:52,480  
now all of the

57  
00:03:54,949 --> 00:03:53,439  
final

58  
00:03:56,390 --> 00:03:54,959  
work on the soyuz is going to begin

59  
00:03:58,390 --> 00:03:56,400  
pretty soon they'll be

60  
00:04:00,710 --> 00:03:58,400  
taking out samples of various science

61  
00:04:03,589 --> 00:04:00,720  
experiments

62  
00:04:05,589 --> 00:04:03,599  
human research facility samples a number

63  
00:04:07,110 --> 00:04:05,599

of others that come down in the small

64

00:04:09,910 --> 00:04:07,120

cargo

65

00:04:11,910 --> 00:04:09,920

complement inside the soyuz spacecraft

66

00:04:13,509 --> 00:04:11,920

but for now all three crew members in

67

00:04:15,429 --> 00:04:13,519

the chairs again just doing these

68

00:04:17,189 --> 00:04:15,439

initial medical checkouts and then

69

00:04:19,349 --> 00:04:17,199

they'll get carried one by one

70

00:04:21,670 --> 00:04:19,359

individually over to the medical tent

71

00:04:23,670 --> 00:04:21,680

which is now erected it's a big

72

00:04:25,830 --> 00:04:23,680

inflatable orange tent just a few

73

00:04:27,670 --> 00:04:25,840

hundred feet from here and they'll be

74

00:04:28,390 --> 00:04:27,680

heading in there they'll do a little bit

75

00:04:29,990 --> 00:04:28,400

more

76  
00:04:31,670 --> 00:04:30,000  
extensive medical checkouts and then

77  
00:04:33,590 --> 00:04:31,680  
begin those field tests that we talked

78  
00:04:35,830 --> 00:04:33,600  
about just a little while ago

79  
00:04:37,670 --> 00:04:35,840  
each of those taking about an hour um

80  
00:04:39,510 --> 00:04:37,680  
they'll be doing them simultaneously so

81  
00:04:40,550 --> 00:04:39,520  
it'll be about an hour an hour and a

82  
00:04:42,550 --> 00:04:40,560  
half

83  
00:04:44,469 --> 00:04:42,560  
total time for the crew now here on the

84  
00:04:46,070 --> 00:04:44,479  
ground before they load back up into

85  
00:04:48,150 --> 00:04:46,080  
helicopters and make their way to

86  
00:04:50,790 --> 00:04:48,160  
caraganda for the welcoming ceremony

87  
00:04:53,350 --> 00:04:50,800  
and then once there they'll go

88  
00:04:55,510 --> 00:04:53,360

as the crew watched uh all of our

89

00:04:57,189 --> 00:04:55,520

coverage uh in a video uplink and now

90

00:04:59,030 --> 00:04:57,199

we'll watch as the crew is brought into

91

00:05:01,110 --> 00:04:59,040

the medical tent

92

00:05:03,830 --> 00:05:01,120

yeah but keenan was just carried off and

93

00:05:05,590 --> 00:05:03,840

now they're picking up jeff williams

94

00:05:07,830 --> 00:05:05,600

getting a thumbs up from his flight doc

95

00:05:09,990 --> 00:05:07,840

he's in great condition the veteran

96

00:05:12,550 --> 00:05:10,000

space flier is no stranger to these

97

00:05:19,909 --> 00:05:12,560

re-entries making his way now over to

98

00:05:22,629 --> 00:05:21,670

and

99

00:05:25,590 --> 00:05:22,639

just

100

00:05:27,909 --> 00:05:25,600

behind it's not an easy job carrying a

101  
00:05:28,870 --> 00:05:27,919  
cost minute getting a round of applause

102  
00:05:30,550 --> 00:05:28,880  
from

103  
00:05:32,469 --> 00:05:30,560  
some of the

104  
00:05:35,270 --> 00:05:32,479  
rosa vias of the surf and recovery

105  
00:05:36,790 --> 00:05:35,280  
forces who do an amazing job getting the

106  
00:05:39,029 --> 00:05:36,800  
crew members locating the castle and

107  
00:05:59,590 --> 00:05:39,039  
getting all the teams out here the very
