people

46

00:03:49,990 --> 00:03:47,360

think about

47

00:03:51,589 --> 00:03:50,000

high places

48

00:03:54,309 --> 00:03:51,599

50

00:04:00,630 --> 00:03:56,720

the task is just one the mission to

51
00:04:02,630 --> 00:04:00,640
accomplish it in time without a glitch

52
00:04:04,309 --> 00:04:02,640

start our pre-flight training

55
00:04:19,990 --> 00:04:18,069
that we got here during the entire time

56
00:04:22,550 --> 00:04:20,000
that we've trained

57
00:04:25,830 --> 00:04:22,560
what you're going to do on the iss

58
00:04:27,749 --> 00:04:25,840
once you arrive what do you do

59
00:04:31,990 --> 00:04:27,759
we're supposed to open the hatch and to

60
00:04:36,710 --> 00:04:34,150
officially to deactivate the search

61
00:04:39,749 --> 00:04:36,720
vehicle and prepare it for the long term

62
00:04:43,749 --> 00:04:39,759
stay in orbit and then to rest to sleep

63
00:04:46,070 --> 00:04:43,759

and then start working on the 27th

64

00:04:47,830 --> 00:04:46,080

experiment we have 54 experiments what

65

00:04:48,790 --> 00:04:47,840

are the most interesting ones all of

66

00:04:51,030 --> 00:04:48,800

67

00:04:55,510 --> 00:04:51,040

are going to grow something are going to

68

00:05:00,070 --> 00:04:57,350

and plans to

69

00:05:02,469 --> 00:05:00,080

control remotely

70

00:05:04,710 --> 00:05:02,479
