

1

00:00:00,000 --> 00:00:06,990

I hate giving advice but but I generally try to start my presentations to

2

00:00:06,990 --> 00:00:12,210

students and it actually I call students anybody who still studying to

3

00:00:12,210 --> 00:00:15,509

make themselves better but but really two young kids and I tell him I'm gonna

4

00:00:15,509 --> 00:00:18,720

give them three pieces of advice and it's nothing new to them I said you've

5

00:00:18,720 --> 00:00:24,180

gotta study really hard and when I say they'll ask frequently if I want to

6

00:00:24,180 --> 00:00:27,390

be an astronaut what do I need to study and some most definitely math and

7

00:00:27,390 --> 00:00:34,260

science but study everything you need to be able to converse intelligently you

8

00:00:34,260 --> 00:00:38,670

need to be able to express yourself well such that you can sell yourself to

9

00:00:38,670 --> 00:00:43,860

somebody else so the language arts the you know in addition to the sciences

10

00:00:43,860 --> 00:00:48,210

history is critically important one of the reasons that I think it's so

11
00:00:48,210 --> 00:00:52,260
important that we're opening this museum
today is because it will enable young

12
00:00:52,260 --> 00:00:57,510
black kids who have no clue about their
heritage in their history in my

13
00:00:57,510 --> 00:01:01,140
granddaughter's ask me sometime you know
what do we do black history month and so

14
00:01:01,140 --> 00:01:04,949
I have to go through and explain to them
they have not been through the struggle

15
00:01:04,949 --> 00:01:09,659
of the civil rights era today young
ladies have not been through the

16
00:01:09,659 --> 00:01:14,040
struggle of or have not lived through a
time when a woman could not vote in this

17
00:01:14,040 --> 00:01:18,150
country or a woman could not hold a
position of authority in this country so

18
00:01:18,150 --> 00:01:24,450
the plight of minorities and women in the
United States of America I hope has
