

1  
00:01:26,960 --> 00:01:53,270  
please look here

2  
00:01:59,590 --> 00:01:56,709  
were very proud of this exhibit

3  
00:02:02,550 --> 00:01:59,600  
this is the code worn by yuri gagarin

4  
00:02:04,469 --> 00:02:02,560  
during the parade after his space flight

5  
00:02:06,630 --> 00:02:04,479  
he visited

6  
00:02:08,550 --> 00:02:06,640  
27 countries

7  
00:02:10,389 --> 00:02:08,560  
of the world and we're going to

8  
00:02:13,270 --> 00:02:10,399  
celebrate

9  
00:02:20,790 --> 00:02:13,280  
his 100th anniversary in

10  
00:02:20,800 --> 00:02:29,830  
how

11  
00:02:29,840 --> 00:02:36,869  
monuments

12  
00:02:36,879 --> 00:03:14,630  
let's take one

13  
00:03:14,640 --> 00:03:46,229

i'm not sure

14

00:03:46,239 --> 00:04:19,430

as well

15

00:04:19,440 --> 00:04:49,030

so

16

00:04:49,040 --> 00:05:05,909

huh

17

00:05:05,919 --> 00:05:11,830

okay

18

00:05:16,710 --> 00:05:14,390

international space station expedition

19

00:05:19,430 --> 00:05:16,720

50 flight engineer and commander of

20

00:05:21,510 --> 00:05:19,440

space station expedition 51 nasa

21

00:05:23,590 --> 00:05:21,520

astronaut peggy whitson here at red

22

00:05:26,070 --> 00:05:23,600

square and the kremlin how does it feel

23

00:05:27,670 --> 00:05:26,080

to be back here after an absence of more

24

00:05:28,550 --> 00:05:27,680

than eight years as you prepare for your

25

00:05:30,629 --> 00:05:28,560

mission

26

00:05:31,830 --> 00:05:30,639

well i've missed i've missed being here

27

00:05:33,110 --> 00:05:31,840

in russia

28

00:05:34,390 --> 00:05:33,120

but i've had a lot of training in the

29

00:05:36,310 --> 00:05:34,400

last couple of years so i've had the

30

00:05:38,390 --> 00:05:36,320

opportunity to come back and visit of

31

00:05:40,790 --> 00:05:38,400

course we train all over the world

32

00:05:42,790 --> 00:05:40,800

and these places become like second and

33

00:05:43,830 --> 00:05:42,800

third homes to us and so it's great to

34

00:05:47,029 --> 00:05:43,840

come back

35

00:05:48,710 --> 00:05:47,039

and uh and to be here especially because

36

00:05:49,909 --> 00:05:48,720

this signifies we're at the end of our

37

00:05:52,390 --> 00:05:49,919

training flow

38

00:05:55,189 --> 00:05:52,400

and that we are headed to baikonur soon

39

00:05:57,189 --> 00:05:55,199

to launch so that's the exciting part

40

00:05:59,270 --> 00:05:57,199

and you are at the end of your training

41

00:06:01,110 --> 00:05:59,280

training flow your final exams are over

42

00:06:02,870 --> 00:06:01,120

you finally have a chance to relax a

43

00:06:04,469 --> 00:06:02,880

little bit in russia before you do head

44

00:06:07,029 --> 00:06:04,479

down to baikonur for your mission in a

45

00:06:09,029 --> 00:06:07,039

few weeks what are your plans to

46

00:06:10,710 --> 00:06:09,039

rest and relax while you're here in

47

00:06:12,070 --> 00:06:10,720

russia before you do head down for your

48

00:06:13,990 --> 00:06:12,080

for your lunch

49

00:06:15,189 --> 00:06:14,000

well actually i'm going to relax a

50

00:06:17,029 --> 00:06:15,199

little bit

51  
00:06:20,550 --> 00:06:17,039  
i'm going to cook the last few meals

52  
00:06:22,950 --> 00:06:20,560  
that i i have control over cooking

53  
00:06:25,350 --> 00:06:22,960  
and uh i have to pack all my bags we

54  
00:06:27,749 --> 00:06:25,360  
have to pack up a ballistic bag

55  
00:06:29,909 --> 00:06:27,759  
a nominal return bag and a bag to go to

56  
00:06:31,510 --> 00:06:29,919  
baikonur and a bank that comes back home

57  
00:06:33,110 --> 00:06:31,520  
with my husband so

58  
00:06:36,230 --> 00:06:33,120  
i'm doing a lot of packing in the next

59  
00:06:40,469 --> 00:06:38,950  
how can your friends and fans here on

60  
00:06:41,990 --> 00:06:40,479  
earth stay in touch with you as you

61  
00:06:44,309 --> 00:06:42,000  
prepare for your mission and during your

62  
00:06:46,309 --> 00:06:44,319  
mission itself on social media we've got

63  
00:06:49,189 --> 00:06:46,319

uh three different social media sites

64

00:06:51,589 --> 00:06:49,199

we're using uh tumblr

65

00:06:52,870 --> 00:06:51,599

twitter and facebook and so any of those

66

00:06:54,469 --> 00:06:52,880

that

67

00:06:57,189 --> 00:06:54,479

astropeggy

68

00:06:59,749 --> 00:06:57,199

on any of those will work to see and

69

00:07:02,309 --> 00:06:59,759

follow not only during the mission but

70

00:07:04,469 --> 00:07:02,319

also you can look back and read about
