1  
00:00:06,470 --> 00:00:02,869  
we are glad to welcome you

2  
00:00:11,270 --> 00:00:06,480  
at the press conference of the prime and

3  
00:00:13,509 --> 00:00:11,280  
backup crews of iss increments 50 51 and

4  
00:00:17,029 --> 00:00:13,519  
i would like to remind you

5  
00:00:18,710 --> 00:00:17,039  
that not long ago interdependent mental

6  
00:00:21,109 --> 00:00:18,720  
board has

7  
00:00:24,150 --> 00:00:21,119  
finished their meeting they reviewed the

8  
00:00:26,150 --> 00:00:24,160  
results of the training of prime and

9  
00:00:28,630 --> 00:00:26,160  
backup crews and they

10  
00:00:31,589 --> 00:00:28,640  
crews have been recommended to proceed

11  
00:00:34,950 --> 00:00:31,599  
with their training at baikonur i would

12  
00:00:36,069 --> 00:00:34,960  
like to introduce the commander of soyuz

13  
00:00:39,110 --> 00:00:36,079

ms

14

00:00:42,790 --> 00:00:39,120

russia roscosmos

15

00:00:42,800 --> 00:01:11,190

isa

16

00:01:14,710 --> 00:01:12,950

dear crew members i would like to

17

00:01:17,030 --> 00:01:14,720

congratulate you

18

00:01:19,830 --> 00:01:17,040

with completing your qualification

19

00:01:22,789 --> 00:01:19,840

simulations and with the completing your

20

00:01:25,270 --> 00:01:22,799

training at gagarin training space

21

00:01:28,469 --> 00:01:25,280

center for your flight we are ready to

22

00:01:31,190 --> 00:01:28,479

begin our conference and the first

23

00:01:36,310 --> 00:01:31,200

question is from a representative of

24

00:01:36,320 --> 00:01:51,270

sound check yes

25

00:01:56,469 --> 00:01:53,910

tv studio we would like to congratulate

26  
00:01:58,789 --> 00:01:56,479  
the prime and backup crews and of course

27  
00:02:01,830 --> 00:01:58,799  
my first question is regarding the

28  
00:02:03,109 --> 00:02:01,840  
qualification simulations how did it go

29  
00:02:06,069 --> 00:02:03,119  
for you

30  
00:02:08,469 --> 00:02:06,079  
could you please tell us what grades you

31  
00:02:09,190 --> 00:02:08,479  
got what a phenomenal situations you had

32  
00:02:10,790 --> 00:02:09,200  
to

33  
00:02:12,790 --> 00:02:10,800  
resolve

34  
00:02:15,270 --> 00:02:12,800  
and it has to do

35  
00:02:16,630 --> 00:02:15,280  
with both iss simulations and soyuz

36  
00:02:17,750 --> 00:02:16,640  
simulations

37  
00:02:29,030 --> 00:02:17,760  
and

38  
00:02:34,390 --> 00:02:31,990

well our qualification seems uh have

39

00:02:36,390 --> 00:02:34,400

been completed successfully we received

40

00:02:39,190 --> 00:02:36,400

excellent marks

41

00:02:42,150 --> 00:02:39,200

and the for for both

42

00:02:46,309 --> 00:02:42,160

the iss qualifications same

43

00:02:48,710 --> 00:02:46,319

and for soyuz qualification simulation

44

00:02:50,949 --> 00:02:48,720

we've had a lot of abnormal situation

45

00:02:53,110 --> 00:02:50,959

there is no need to go over them here

46

00:02:55,190 --> 00:02:53,120

it's really a great list

47

00:02:56,710 --> 00:02:55,200

and

48

00:02:58,550 --> 00:02:56,720

well uh we

49

00:03:00,710 --> 00:02:58,560

resolved all the abnormal situations

50

00:03:02,229 --> 00:03:00,720

that were in our exam

51

00:03:03,430 --> 00:03:02,239

card

52

00:03:04,710 --> 00:03:03,440

and

53

00:03:21,430 --> 00:03:04,720

we got

54

00:03:27,190 --> 00:03:23,990

well this is enough nominal situation

55

00:03:29,830 --> 00:03:27,200

and we have resolved it

56

00:03:33,030 --> 00:03:29,840

and could you please share what was it

57

00:03:34,789 --> 00:03:33,040

like for you to take this qualification

58

00:03:36,390 --> 00:03:34,799

simulation

59

00:03:38,390 --> 00:03:36,400

where you're familiar with everything

60

00:03:39,750 --> 00:03:38,400

why are you ready for all the phenomenal

61

00:03:42,149 --> 00:03:39,760

situations

62

00:03:44,830 --> 00:03:42,159

well the training here is simply

63

00:03:48,229 --> 00:03:44,840

excellent and

64

00:03:54,309 --> 00:03:51,110

that we have received experience in

65

00:03:55,910 --> 00:03:54,319

various abnormal situations

66

00:03:57,030 --> 00:03:55,920

we

67

00:03:59,990 --> 00:03:57,040

have been

68

00:04:08,470 --> 00:04:00,000

uh training and exercising these

69

00:04:12,390 --> 00:04:11,429

in certainly doing that no

70

00:04:19,349 --> 00:04:12,400

it was

71

00:04:25,830 --> 00:04:20,390

we

72

00:04:31,110 --> 00:04:27,749

could you please share your experience

73

00:04:36,070 --> 00:04:33,270

yes we have been

74

00:04:38,230 --> 00:04:36,080

studying for a long time as a crew for

75

00:04:40,390 --> 00:04:38,240

almost two years

76

00:04:41,189 --> 00:04:40,400

we have been training here

77

00:04:45,990 --> 00:04:41,199

and

78

00:04:47,030 --> 00:04:46,000

he knows

79

00:04:48,310 --> 00:04:47,040

a lot

80

00:04:49,830 --> 00:04:48,320

and

81

00:04:55,189 --> 00:04:49,840

i was just

82

00:04:58,790 --> 00:04:56,950

and everything went

83

00:05:00,870 --> 00:04:58,800

well

84

00:05:04,070 --> 00:05:00,880

during our exam and i think that our

85

00:05:07,110 --> 00:05:04,080

flight will be nominal soyuz is a very

86

00:05:09,350 --> 00:05:07,120

reliable vehicle

87

00:05:11,990 --> 00:05:09,360

and i guess we're going to discuss it

88

00:05:14,710 --> 00:05:12,000

after our flight but at this point i'm

89

00:05:20,230 --> 00:05:14,720

sure that everything will go excellent

90

00:05:20,240 --> 00:06:01,510

thank you

91

00:06:01,520 --> 00:06:17,110

um

92

00:06:21,189 --> 00:06:18,550

i was asked to translate some of the

93

00:06:22,550 --> 00:06:21,199

questions as well so um yes we feel

94

00:06:23,350 --> 00:06:22,560

ready we've been training for a long

95

00:06:26,469 --> 00:06:23,360

time

96

00:06:28,469 --> 00:06:26,479

i think i have a very professional crew

97

00:06:30,469 --> 00:06:28,479

i'm trying not to make mistakes and not

98

00:06:38,870 --> 00:06:30,479

to spoil what i'm doing but i don't know

99

00:06:42,870 --> 00:06:40,309

next question please

100

00:06:45,189 --> 00:06:42,880

russian cosmos

101  
00:06:47,110 --> 00:06:45,199  
could it please share

102  
00:06:48,550 --> 00:06:47,120  
uh what kind of experience you are going

103  
00:06:50,230 --> 00:06:48,560  
to have for example

104  
00:06:52,390 --> 00:06:50,240  
new experiment on the russian segment

105  
00:06:54,950 --> 00:06:52,400  
this is called zarivo

106  
00:06:56,629 --> 00:06:54,960  
so uh

107  
00:06:58,870 --> 00:06:56,639  
new experiments

108  
00:07:01,430 --> 00:06:58,880  
will be done by our

109  
00:07:03,670 --> 00:07:01,440  
u.s colleagues biological experiments

110  
00:07:05,909 --> 00:07:03,680  
and what kind of new experience

111  
00:07:08,870 --> 00:07:05,919  
is european agency going to have and

112  
00:07:11,110 --> 00:07:08,880  
also are you planning any uh space walks

113  
00:07:12,550 --> 00:07:11,120

we're going to do a lot of different

114

00:07:15,110 --> 00:07:12,560

types of research onboard the

115

00:07:16,629 --> 00:07:15,120

international space station and i think

116

00:07:18,390 --> 00:07:16,639

part of the reason it

117

00:07:20,790 --> 00:07:18,400

is interesting to me is because there's

118

00:07:23,189 --> 00:07:20,800

so many different types of research

119

00:07:24,790 --> 00:07:23,199

we're going to do we're going to do

120

00:07:27,589 --> 00:07:24,800

cell biology

121

00:07:28,629 --> 00:07:27,599

experiments looking at how cells grow in

122

00:07:30,950 --> 00:07:28,639

space

123

00:07:33,430 --> 00:07:30,960

in particular stem cells

124

00:07:34,790 --> 00:07:33,440

we are going to be doing combustion

125

00:07:39,909 --> 00:07:34,800

experiments

126  
00:07:41,830 --> 00:07:39,919  
at how

127  
00:07:45,110 --> 00:07:41,840  
crystals solidify different types of

128  
00:07:48,790 --> 00:07:45,120  
crystals solidify in a lack of gravity

129  
00:07:51,749 --> 00:07:48,800  
so the the main goal is typically using

130  
00:07:52,950 --> 00:07:51,759  
the lack of gravity as our our

131  
00:07:55,749 --> 00:07:52,960  
question

132  
00:08:03,749 --> 00:07:55,759  
how that how does that change processes

133  
00:08:08,790 --> 00:08:06,469  
includes a lot of experiments over 50

134  
00:08:10,629 --> 00:08:08,800  
scientific experience and of course some

135  
00:08:11,749 --> 00:08:10,639  
experiments have been going on for a

136  
00:08:14,070 --> 00:08:11,759  
long time

137  
00:08:15,909 --> 00:08:14,080  
we have new experiments of course it is

138  
00:08:18,790 --> 00:08:15,919

great that we will be working together

139

00:08:19,589 --> 00:08:18,800

with our colleagues

140

00:08:22,790 --> 00:08:19,599

in

141

00:08:24,790 --> 00:08:22,800

experiments that study fluid shifts

142

00:08:25,749 --> 00:08:24,800

in human body

143

00:08:27,510 --> 00:08:25,759

and

144

00:08:30,070 --> 00:08:27,520

we'll be doing an experiment together

145

00:08:31,510 --> 00:08:30,080

with tamar for our program and this is

146

00:08:34,469 --> 00:08:31,520

great

147

00:08:37,269 --> 00:08:34,479

because we will be busy and we will be

148

00:08:41,670 --> 00:08:40,389

these experiments will be beneficial to

149

00:08:44,070 --> 00:08:41,680

the people

150

00:08:45,910 --> 00:08:44,080

on earth from the european space agency

151  
00:08:48,230 --> 00:08:45,920  
there's a lot of ongoing experiments

152  
00:08:49,910 --> 00:08:48,240  
right now that i'll continue doing

153  
00:08:51,430 --> 00:08:49,920  
there's also a bunch of new experiments

154  
00:08:54,389 --> 00:08:51,440  
we'll look at psychologists they will

155  
00:08:56,470 --> 00:08:54,399  
look at muscle research together and the

156  
00:08:58,389 --> 00:08:56,480  
goal is here to look at muscle in space

157  
00:08:59,430 --> 00:08:58,399  
and to the results that apply to the

158  
00:09:02,470 --> 00:08:59,440  
people

159  
00:09:03,990 --> 00:09:02,480  
on earth who are suffering from severe

160  
00:09:07,670 --> 00:09:04,000  
atmospheric conditions

161  
00:09:09,430 --> 00:09:07,680  
um so this experiment is called marissa

162  
00:09:11,829 --> 00:09:09,440  
we have a bunch of new experiments

163  
00:09:13,670 --> 00:09:11,839

looking at the self-cleaning materials

164

00:09:15,590 --> 00:09:13,680

which could be used in hospitals or in

165

00:09:18,389 --> 00:09:15,600

the transport clouds on the ground we

166

00:09:21,030 --> 00:09:18,399

have new technology for cleaning water a

167

00:09:23,110 --> 00:09:21,040

lot of new exciting technology for us to

168

00:09:25,910 --> 00:09:23,120

test on board during the six months and

169

00:09:28,310 --> 00:09:25,920

then we'll be happy to work together as

170

00:09:30,230 --> 00:09:28,320

much as possible we'll um i'll take part

171

00:09:33,509 --> 00:09:30,240

in the us experiment those kids will

172

00:09:46,389 --> 00:09:33,519

take part in the european experiments

173

00:09:51,190 --> 00:09:47,990

have you selected

174

00:09:52,550 --> 00:09:51,200

your patch and so-called weightlessness

175

00:09:54,630 --> 00:09:52,560

indicator

176  
00:09:55,509 --> 00:09:54,640  
a mascot for your increment

177  
00:09:56,870 --> 00:09:55,519  
and

178  
00:10:02,069 --> 00:09:56,880  
another question

179  
00:10:07,350 --> 00:10:04,230  
at some point there was a

180  
00:10:11,190 --> 00:10:07,360  
situation of conflict aboard the iss

181  
00:10:13,030 --> 00:10:11,200  
crew members were not getting along well

182  
00:10:15,509 --> 00:10:13,040  
and the psychologists

183  
00:10:17,269 --> 00:10:15,519  
were involved in that situation so could

184  
00:10:21,509 --> 00:10:17,279  
you please tell us about how you get

185  
00:10:26,870 --> 00:10:24,550  
well you're correct

186  
00:10:30,949 --> 00:10:29,509  
the weightlessness indicator is going to

187  
00:10:34,470 --> 00:10:30,959  
be

188  
00:10:34,480 --> 00:10:37,910

symbol of kindness

189

00:10:45,269 --> 00:10:39,269

and

190

00:10:47,509 --> 00:10:45,279

space flight has not changed this

191

00:10:50,870 --> 00:10:47,519

weightlessness indicator it

192

00:10:54,470 --> 00:10:50,880

has already been aboard the station

193

00:10:56,230 --> 00:10:54,480

and so with that we're going to use the

194

00:10:58,310 --> 00:10:56,240

same mascot

195

00:11:00,389 --> 00:10:58,320

and also i

196

00:11:02,710 --> 00:11:00,399

would like that my uh crewmates i'd like

197

00:11:04,949 --> 00:11:02,720

for my crewmates to take their own

198

00:11:06,310 --> 00:11:04,959

mascots because this has been a

199

00:11:07,190 --> 00:11:06,320

tradition

200

00:11:10,230 --> 00:11:07,200

and

201  
00:11:12,550 --> 00:11:10,240  
then as far as our patch goes we're

202  
00:11:15,590 --> 00:11:12,560  
still working on it we're searching for

203  
00:11:17,590 --> 00:11:15,600  
uh solutions i think that we might have

204  
00:11:19,269 --> 00:11:17,600  
several options once again this is going

205  
00:11:21,990 --> 00:11:19,279  
to be a surprise

206  
00:11:25,110 --> 00:11:22,000  
for everyone who supports

207  
00:11:27,829 --> 00:11:25,120  
us on this path so everything is still

208  
00:11:31,110 --> 00:11:29,750  
and then the psychological

209  
00:11:32,069 --> 00:11:31,120  
support

210  
00:11:33,110 --> 00:11:32,079  
well

211  
00:11:34,550 --> 00:11:33,120  
you know

212  
00:11:36,630 --> 00:11:34,560  
yes i know

213  
00:11:39,750 --> 00:11:36,640

what happened i know

214

00:11:41,829 --> 00:11:39,760

the history of russian space flight and

215

00:11:43,509 --> 00:11:41,839

international space flight and i can

216

00:11:46,470 --> 00:11:43,519

share my opinion

217

00:11:49,590 --> 00:11:46,480

on the subject

218

00:11:52,069 --> 00:11:49,600

it is rare that we've had people who had

219

00:11:54,310 --> 00:11:52,079

similar problems in space

220

00:11:55,670 --> 00:11:54,320

and they're speaking very honestly about

221

00:11:56,710 --> 00:11:55,680

it

222

00:12:00,470 --> 00:11:56,720

well

223

00:12:01,350 --> 00:12:00,480

there are certain issues of course

224

00:12:03,269 --> 00:12:01,360

but

225

00:12:06,949 --> 00:12:03,279

look at these people for example people

226  
00:12:07,750 --> 00:12:06,959  
of different age of different experience

227  
00:12:09,990 --> 00:12:07,760  
and

228  
00:12:12,550 --> 00:12:10,000  
well i keep telling to all my crew

229  
00:12:14,310 --> 00:12:12,560  
members that the most important

230  
00:12:17,509 --> 00:12:14,320  
part

231  
00:12:18,230 --> 00:12:17,519  
is to say hello

232  
00:12:20,470 --> 00:12:18,240  
to

233  
00:12:23,269 --> 00:12:20,480  
all your crewmates this is what i have

234  
00:12:25,750 --> 00:12:23,279  
been doing and this is what

235  
00:12:28,069 --> 00:12:25,760  
i still do i still say hello to all the

236  
00:12:29,990 --> 00:12:28,079  
people that have been my crew members

237  
00:12:51,590 --> 00:12:30,000  
thank you very much and next question

238  
00:12:51,600 --> 00:13:18,949

here

239

00:13:18,959 --> 00:13:37,910

foreign

240

00:13:37,920 --> 00:14:01,030

thank you next question please

241

00:14:05,350 --> 00:14:02,870

is the third time actually i go through

242

00:14:07,110 --> 00:14:05,360

the process of finding final exams and

243

00:14:09,269 --> 00:14:07,120

getting ready for a flight first two

244

00:14:11,750 --> 00:14:09,279

times as a backup remember and now the

245

00:14:13,269 --> 00:14:11,760

prime remember so this time uh there

246

00:14:15,030 --> 00:14:13,279

there should be the rocket at the end of

247

00:14:16,470 --> 00:14:15,040

this of this uh

248

00:14:17,910 --> 00:14:16,480

in my condor i'm hoping there'll be a

249

00:14:19,430 --> 00:14:17,920

rocket

250

00:14:21,590 --> 00:14:19,440

but but i think there's a part of me

251  
00:14:23,110 --> 00:14:21,600  
inside that still refuses to believe

252  
00:14:25,509 --> 00:14:23,120  
that it's really gonna happen because

253  
00:14:28,069 --> 00:14:25,519  
it's just so big um

254  
00:14:45,670 --> 00:14:28,079  
so so i'm still i'm still doing my best

255  
00:15:10,389 --> 00:14:48,069  
i still sleep okay maybe the day before

256  
00:15:10,399 --> 00:15:50,470  
um

257  
00:15:53,670 --> 00:15:51,910  
uh i don't have the answer to that

258  
00:15:55,189 --> 00:15:53,680  
question yet maybe you guys don't even

259  
00:15:56,870 --> 00:15:55,199  
want me to do that because i'm not

260  
00:15:58,389 --> 00:15:56,880  
really good at playing this iphone so

261  
00:15:59,990 --> 00:15:58,399  
that would be probably a pain for

262  
00:16:01,670 --> 00:16:00,000  
everybody um

263  
00:16:03,910 --> 00:16:01,680

but the answer is i don't know uh

264

00:16:06,470 --> 00:16:03,920

there'll be lots lots of changes with

265

00:16:08,949 --> 00:16:06,480

the car vehicles resupplying us onboard

266

00:16:10,710 --> 00:16:08,959

space station so there's a chance it

267

00:16:12,470 --> 00:16:10,720

might be on one of these vehicles but

268

00:16:14,150 --> 00:16:12,480

maybe i get it as a christmas present

269

00:16:16,949 --> 00:16:14,160

maybe i gave it as a birthday present

270

00:16:18,710 --> 00:16:16,959

but i'm hoping i'll make it to the iss

271

00:16:20,710 --> 00:16:18,720

and i'll leave it up there if i can

272

00:16:22,870 --> 00:16:20,720

either that means that if somebody wants

273

00:16:25,110 --> 00:16:22,880

to play saxophone once you learn to play

274

00:16:27,350 --> 00:16:25,120

a saxophone in the next six months then

275

00:16:29,910 --> 00:16:27,360

there'll be there'll be a possibility

276

00:16:43,189 --> 00:16:33,509

well i'd like to ask

277

00:16:47,269 --> 00:16:44,710

sometimes

278

00:16:48,310 --> 00:16:47,279

this common belief that

279

00:16:49,189 --> 00:16:48,320

women

280

00:16:52,310 --> 00:16:49,199

have

281

00:16:55,110 --> 00:16:52,320

more things to carry with them than men

282

00:16:57,430 --> 00:16:55,120

so um do you have any extra space for

283

00:16:58,710 --> 00:16:57,440

pictures for cosmetics

284

00:17:00,550 --> 00:16:58,720

because

285

00:17:02,710 --> 00:17:00,560

a woman is supposed to look good in

286

00:17:03,670 --> 00:17:02,720

space as well or

287

00:17:06,230 --> 00:17:03,680

is

288

00:17:08,630 --> 00:17:06,240

everything strictly regulated

289

00:17:09,510 --> 00:17:08,640

those kinds of things here on earth

290

00:17:11,189 --> 00:17:09,520

so

291

00:17:12,949 --> 00:17:11,199

my baggage isn't going to be any heavier

292

00:17:14,309 --> 00:17:12,959

than these guys

293

00:17:15,750 --> 00:17:14,319

in fact

294

00:17:20,470 --> 00:17:15,760

because

295

00:17:23,110 --> 00:17:20,480

i do need and what i don't need and so

296

00:17:25,110 --> 00:17:23,120

it's it makes it a lot simpler i think

297

00:17:26,789 --> 00:17:25,120

having flown before to know i don't need

298

00:17:29,590 --> 00:17:26,799

that i don't need that it's not

299

00:17:32,310 --> 00:17:29,600

necessary so it just makes it easier for

300

00:17:42,789 --> 00:17:32,320

me to know and so no i think my baggage

301  
00:17:47,750 --> 00:17:45,270  
the next question is for tomorrow

302  
00:17:49,350 --> 00:17:47,760  
you speak five languages

303  
00:17:50,870 --> 00:17:49,360  
so could you please tell us what

304  
00:17:53,270 --> 00:17:50,880  
languages

305  
00:17:55,110 --> 00:17:53,280  
you speak and also what is your secrets

306  
00:17:56,950 --> 00:17:55,120  
how were you able to master these

307  
00:17:59,510 --> 00:17:56,960  
languages could you please share it with

308  
00:18:01,990 --> 00:17:59,520  
us so that we could also study more

309  
00:18:04,230 --> 00:18:02,000  
language and also what language are you

310  
00:18:06,310 --> 00:18:04,240  
planning on studying well there is no

311  
00:18:09,270 --> 00:18:06,320  
secret really

312  
00:18:12,789 --> 00:18:09,280  
i speak five languages but i speak

313  
00:18:15,430 --> 00:18:12,799

poorly in all languages and this is easy

314

00:18:18,470 --> 00:18:15,440

really there is no secret i was born in

315

00:18:24,710 --> 00:18:20,630

and speak french

316

00:18:27,029 --> 00:18:24,720

then i studied english russian

317

00:18:29,750 --> 00:18:27,039

i began studying

318

00:18:32,070 --> 00:18:29,760

the russian language about six to seven

319

00:18:35,430 --> 00:18:32,080

years ago but

320

00:18:37,350 --> 00:18:35,440

it was very intensive course of study

321

00:18:39,909 --> 00:18:37,360

because you need to understand all the

322

00:18:42,390 --> 00:18:39,919

procedures of the soyuz spacecraft

323

00:18:46,390 --> 00:18:42,400

because the prestigious are in russian

324

00:18:46,400 --> 00:18:50,789

on this vehicle

325

00:18:54,950 --> 00:18:52,549

i also

326

00:18:57,909 --> 00:18:54,960

speaking spanish i studied in spain

327

00:19:01,110 --> 00:18:57,919

currently i'm living in germany

328

00:19:03,669 --> 00:19:01,120

because i work for isa

329

00:19:07,350 --> 00:19:06,150

and it means that many countries are

330

00:19:10,230 --> 00:19:07,360

involved

331

00:19:13,270 --> 00:19:10,240

and many countries are working in the

332

00:19:16,470 --> 00:19:13,280

space industry and

333

00:19:18,070 --> 00:19:16,480

i like it there

334

00:19:21,270 --> 00:19:18,080

and

335

00:19:24,310 --> 00:19:21,280

that's why i try to speak

336

00:19:26,870 --> 00:19:24,320

all the languages

337

00:19:28,950 --> 00:19:26,880

a present in the space industry onboard

338

00:19:29,909 --> 00:19:28,960

the station of course we'll be speaking

339

00:19:31,510 --> 00:19:29,919

russian

340

00:19:34,630 --> 00:19:31,520

english

341

00:19:37,510 --> 00:19:34,640

in french possibly we will try

342

00:19:43,830 --> 00:19:37,520

they speak some french but

343

00:19:48,710 --> 00:19:46,789

and i think and what will be your next

344

00:19:51,270 --> 00:19:48,720

language to study i think it will be

345

00:19:54,310 --> 00:19:51,280

chinese but we're going to discuss it

346

00:19:58,230 --> 00:19:54,320

after the flight no time for studying

347

00:20:02,549 --> 00:20:00,310

are you a good crew together you are too

348

00:20:04,149 --> 00:20:02,559

oleg and piggy you are too experimented

349

00:20:06,230 --> 00:20:04,159

astronaut

350

00:20:07,909 --> 00:20:06,240

is a new one how do you work together

351  
00:20:11,750 --> 00:20:07,919  
are you a good crew

352  
00:20:16,549 --> 00:20:14,230  
question for all the crew members of the

353  
00:20:19,669 --> 00:20:16,559  
prime crew to oleg and peggy oleg and

354  
00:20:21,350 --> 00:20:19,679  
peggy you're very experienced

355  
00:20:22,950 --> 00:20:21,360  
doma is

356  
00:20:23,750 --> 00:20:22,960  
a rookie

357  
00:20:25,750 --> 00:20:23,760  
but

358  
00:20:27,830 --> 00:20:25,760  
how do you work together do you get

359  
00:20:30,070 --> 00:20:27,840  
along well together

360  
00:20:31,990 --> 00:20:30,080  
i i think we are a very lucky crew or at

361  
00:20:34,470 --> 00:20:32,000  
least i am lucky to have these two guys

362  
00:20:36,549 --> 00:20:34,480  
with me they are both

363  
00:20:38,149 --> 00:20:36,559

very talented uh

364

00:20:40,470 --> 00:20:38,159

and know their jobs they're very

365

00:20:42,149 --> 00:20:40,480

professional but the thing that that

366

00:20:44,630 --> 00:20:42,159

stands out to me is

367

00:20:46,230 --> 00:20:44,640

that they're fun to be around and we

368

00:20:48,230 --> 00:20:46,240

spend a lot of time

369

00:20:52,149 --> 00:20:48,240

joking supporting each other so it's

370

00:20:57,350 --> 00:20:54,390

i fully agree with peggy

371

00:20:59,990 --> 00:20:57,360

my crew members

372

00:21:01,270 --> 00:21:00,000

are very good high-spirited friendly

373

00:21:03,590 --> 00:21:01,280

kind

374

00:21:04,630 --> 00:21:03,600

people and i'm very happy and i'm very

375

00:21:07,990 --> 00:21:04,640

thankful

376  
00:21:09,510 --> 00:21:08,000  
to uh nasa to issa for having selected

377  
00:21:12,710 --> 00:21:09,520  
these people for

378  
00:21:16,149 --> 00:21:15,029  
and i think i'm the

379  
00:21:17,669 --> 00:21:16,159  
by far easiest

380  
00:21:20,630 --> 00:21:17,679  
they will be the commander onboard the

381  
00:21:23,270 --> 00:21:20,640  
space station alex commander on board

382  
00:21:24,630 --> 00:21:23,280  
um i'm the young guy so i'm trying to do

383  
00:21:26,870 --> 00:21:24,640  
my best but

384  
00:21:28,149 --> 00:21:26,880  
if i make mistakes sometimes they just

385  
00:21:30,630 --> 00:21:28,159  
correct me because they've been there

386  
00:21:32,630 --> 00:21:30,640  
they know how it's done and that's

387  
00:21:35,990 --> 00:21:32,640  
that's very very enjoyable for me to

388  
00:21:36,950 --> 00:21:36,000

work in that crew um everybody is open

389

00:21:39,669 --> 00:21:36,960

to

390

00:21:40,950 --> 00:21:39,679

feedback everybody is always in a good

391

00:21:43,029 --> 00:21:40,960

mood i don't think i've seen any of

392

00:21:45,590 --> 00:21:43,039

these two guys in a bad mood in the last

393

00:21:47,430 --> 00:21:45,600

two years which says something about the

394

00:21:50,310 --> 00:21:47,440

the morale of the crew

395

00:21:52,070 --> 00:21:50,320

and the psychology so um i'm very very

396

00:21:53,750 --> 00:21:52,080

much looking forward to spending time

397

00:21:55,590 --> 00:21:53,760

with them on board space station out in

398

00:21:59,669 --> 00:21:55,600

japan a lot of fun and obviously we'll

399

00:22:05,510 --> 00:22:01,750

this is interface news agency

400

00:22:07,750 --> 00:22:05,520

kriglofarseni i have a question for oleg

401

00:22:09,990 --> 00:22:07,760

you have mentioned that

402

00:22:13,029 --> 00:22:10,000

you are going to select the same

403

00:22:14,789 --> 00:22:13,039

weightlessness indicator or mascot for

404

00:22:16,310 --> 00:22:14,799

your increment could you please tell us

405

00:22:19,510 --> 00:22:16,320

what this is going to be well in fact

406

00:22:21,590 --> 00:22:19,520

it's going to be slightly different also

407

00:22:23,510 --> 00:22:21,600

could you please stand up when speaking

408

00:22:25,029 --> 00:22:23,520

because it is hard to find

409

00:22:28,149 --> 00:22:25,039

many people well

410

00:22:29,909 --> 00:22:28,159

uh we have selected three small

411

00:22:31,909 --> 00:22:29,919

figurines of cosmonauts as our

412

00:22:33,669 --> 00:22:31,919

weightlessness indicator these are made

413

00:22:36,789 --> 00:22:33,679

by natalia burtseva

414

00:22:39,270 --> 00:22:36,799

and they look somewhat like us and i

415

00:22:41,750 --> 00:22:39,280

think that later on it will be

416

00:22:45,190 --> 00:22:41,760

great souvenirs for us to remember our

417

00:22:46,789 --> 00:22:45,200

flight together as a crew

418

00:22:49,830 --> 00:22:46,799

thank you and you're welcome next

419

00:22:50,630 --> 00:22:49,840

question task news agency

420

00:22:52,149 --> 00:22:50,640

well

421

00:22:53,510 --> 00:22:52,159

a question for

422

00:22:57,750 --> 00:22:53,520

you i have

423

00:22:59,750 --> 00:22:57,760

two questions one question is for peggy

424

00:23:01,510 --> 00:22:59,760

it is widely known

425

00:23:04,310 --> 00:23:01,520

that

426

00:23:07,110 --> 00:23:04,320

u.s elections will take place on the 8th

427

00:23:09,750 --> 00:23:07,120

of november and at that time you will be

428

00:23:11,830 --> 00:23:09,760

at baikonur preparing for launch how are

429

00:23:14,789 --> 00:23:11,840

you going to vote are you going to vote

430

00:23:17,510 --> 00:23:14,799

in advance or from baikonur to

431

00:23:18,710 --> 00:23:17,520

vote early so i did that before i left

432

00:23:21,590 --> 00:23:18,720

the us

433

00:23:23,669 --> 00:23:21,600

i i've already voted for

434

00:23:25,590 --> 00:23:23,679

the election and i'm pretty sure jack

435

00:23:29,350 --> 00:23:25,600

has as well too so

436

00:23:34,789 --> 00:23:32,710

thank you and my second question is for

437

00:23:37,750 --> 00:23:34,799

all the crew members and let's start

438

00:23:39,909 --> 00:23:37,760

with oleg oleg recently you have

439

00:23:41,990 --> 00:23:39,919

attended an event held at belarus

440

00:23:43,830 --> 00:23:42,000

embassy and they were presented with the

441

00:23:45,430 --> 00:23:43,840

flag of belarus and as far as i

442

00:23:48,870 --> 00:23:45,440

understand that you are going to take it

443

00:23:54,789 --> 00:23:51,269

and what else

444

00:23:57,830 --> 00:23:54,799

what items that are dear to your heart

445

00:23:59,350 --> 00:23:57,840

you and your crewmates are going to take

446

00:24:02,470 --> 00:23:59,360

to space

447

00:24:05,669 --> 00:24:02,480

well uh yes indeed i will take this flag

448

00:24:08,230 --> 00:24:05,679

because this is my homeland i was born

449

00:24:11,430 --> 00:24:08,240

there i grew up there i got my education

450

00:24:13,110 --> 00:24:11,440

there and then grateful for my education

451  
00:24:16,310 --> 00:24:13,120  
my health that allowed me to become a

452  
00:24:18,710 --> 00:24:16,320  
cosmonaut also i'm going to take letters

453  
00:24:19,909 --> 00:24:18,720  
of my family and friends and i will be

454  
00:24:21,909 --> 00:24:19,919  
reading them

455  
00:24:24,710 --> 00:24:21,919  
in space and of course i will bring

456  
00:24:28,149 --> 00:24:24,720  
souvenirs for other crew members

457  
00:24:29,110 --> 00:24:28,159  
hopefully if i can i'm going to take a

458  
00:24:31,110 --> 00:24:29,120  
small

459  
00:24:33,269 --> 00:24:31,120  
banner of

460  
00:24:35,590 --> 00:24:33,279  
the pastner brothers circus because

461  
00:24:38,789 --> 00:24:35,600  
their performances bring joy to people

462  
00:24:44,070 --> 00:24:42,230  
i've taken a lot a couple of items from

463  
00:24:45,510 --> 00:24:44,080

different universities

464

00:24:48,549 --> 00:24:45,520

they're just a

465

00:24:53,269 --> 00:24:48,559

mementos of the university

466

00:24:54,710 --> 00:24:53,279

uh i'm also taking a 4-h pat which is a

467

00:24:56,070 --> 00:24:54,720

a

468

00:24:58,710 --> 00:24:56,080

young

469

00:25:00,549 --> 00:24:58,720

that

470

00:25:01,669 --> 00:25:00,559

is in the united states like for boys

471

00:25:05,830 --> 00:25:01,679

and girls

472

00:25:09,350 --> 00:25:05,840

and uh do things for just uh friends as

473

00:25:11,269 --> 00:25:09,360

well so just a few things like that

474

00:25:13,590 --> 00:25:11,279

uh and i'm taking a few okay a few

475

00:25:15,110 --> 00:25:13,600

presents to give away to your

476  
00:25:16,630 --> 00:25:15,120  
families because i have memories of

477  
00:25:18,950 --> 00:25:16,640  
being up there and i'd like to bring

478  
00:25:22,149 --> 00:25:18,960  
back something for

479  
00:25:23,750 --> 00:25:22,159  
my close ones my relate my relatives um

480  
00:25:26,310 --> 00:25:23,760  
i'm bringing also

481  
00:25:28,789 --> 00:25:26,320  
some some symbols of bringing my judo

482  
00:25:29,750 --> 00:25:28,799  
black belt not to do judo on order space

483  
00:25:31,269 --> 00:25:29,760  
station

484  
00:25:33,990 --> 00:25:31,279  
it's not part of the plan but just

485  
00:25:35,830 --> 00:25:34,000  
because it helped me a lot as a kid and

486  
00:25:38,470 --> 00:25:35,840  
i think it carries values that are very

487  
00:25:41,269 --> 00:25:38,480  
positive so i'd like to

488  
00:25:43,750 --> 00:25:41,279

488 speak about these values and try to

489

00:25:44,789 --> 00:25:43,760

try to pass them on to wherever he wants

490

00:25:47,909 --> 00:25:44,799

to listen

491

00:25:50,630 --> 00:25:47,919

um i'm taking a few books um i'm taking

492

00:25:52,390 --> 00:25:50,640

the the parish the immigration without

493

00:25:54,230 --> 00:25:52,400

the environment to say the environment

494

00:25:56,870 --> 00:25:54,240

matters what we do on board the space

495

00:25:59,110 --> 00:25:56,880

station also supports that vision

496

00:26:01,029 --> 00:25:59,120

of a better future for everybody so

497

00:26:03,510 --> 00:26:01,039

there'll be a few surprises as well

498

00:26:06,310 --> 00:26:03,520

along the mission i i don't want to talk

499

00:26:07,590 --> 00:26:06,320

about everything today because

500

00:26:09,750 --> 00:26:07,600

because otherwise it's supposed to

501  
00:26:11,350 --> 00:26:09,760  
surprise this but i've tried to have as

502  
00:26:14,950 --> 00:26:11,360  
a comprehensive

503  
00:26:14,960 --> 00:26:19,830  
volume

504  
00:26:24,950 --> 00:26:22,950  
well thank you next

505  
00:26:26,789 --> 00:26:24,960  
so now you'll spend six months in space

506  
00:26:29,269 --> 00:26:26,799  
with your crew six months is a long time

507  
00:26:31,750 --> 00:26:29,279  
i believe you don't plan to wait until

508  
00:26:33,909 --> 00:26:31,760  
the end to share the story how do you

509  
00:26:35,750 --> 00:26:33,919  
plan to share your impressions with

510  
00:26:36,630 --> 00:26:35,760  
people on the ground during those six

511  
00:26:38,710 --> 00:26:36,640  
months

512  
00:26:40,630 --> 00:26:38,720  
and if you could also refresh and in

513  
00:26:42,390 --> 00:26:40,640

english

514

00:26:44,470 --> 00:26:42,400

so it's a good question we have uh now

515

00:26:45,669 --> 00:26:44,480

more expectation we have the ability to

516

00:26:47,750 --> 00:26:45,679

communicate

517

00:26:49,110 --> 00:26:47,760

with the public first of all his friends

518

00:26:50,789 --> 00:26:49,120

and families of course which is

519

00:26:52,710 --> 00:26:50,799

important for us psychological support

520

00:26:54,630 --> 00:26:52,720

but levels with the public we have

521

00:26:56,230 --> 00:26:54,640

limited access to internet up there so

522

00:26:58,710 --> 00:26:56,240

we can share pictures we can share

523

00:27:00,630 --> 00:26:58,720

videos um and i'm planning to do this

524

00:27:02,390 --> 00:27:00,640

just like my colleagues did before me

525

00:27:04,630 --> 00:27:02,400

because i think it's it's a fantastic

526  
00:27:05,669 --> 00:27:04,640  
opportunity to speak about what we're

527  
00:27:08,149 --> 00:27:05,679  
doing

528  
00:27:10,470 --> 00:27:08,159  
in space for the people on earth um and

529  
00:27:13,029 --> 00:27:10,480  
for whoever is interested in space

530  
00:27:15,909 --> 00:27:13,039  
exploration or in research i think it's

531  
00:27:17,830 --> 00:27:15,919  
it's just unbelievable to be able to

532  
00:27:19,190 --> 00:27:17,840  
finance what's happening on board space

533  
00:27:20,870 --> 00:27:19,200  
station so i

534  
00:27:22,950 --> 00:27:20,880  
run a twitter account with a support

535  
00:27:25,430 --> 00:27:22,960  
release out um i'll try to share some

536  
00:27:27,990 --> 00:27:25,440  
stuff on my facebook as well and and all

537  
00:27:29,909 --> 00:27:28,000  
along the missions there'll be a few a

538  
00:27:32,710 --> 00:27:29,919

few events that will try to support uh

539

00:27:34,950 --> 00:27:32,720

from the international space station so

540

00:27:36,789 --> 00:27:34,960

stay tuned

541

00:27:37,990 --> 00:27:36,799

and with me i'll try to share the

542

00:28:06,549 --> 00:27:38,000

experience

543

00:28:06,559 --> 00:28:42,230

foreign

544

00:28:48,310 --> 00:28:45,350

good afternoon this is tatiana of cenina

545

00:28:50,310 --> 00:28:48,320

360 moscow region tv channel i have a

546

00:28:52,630 --> 00:28:50,320

question for tomatama this is going to

547

00:28:54,470 --> 00:28:52,640

be your first flight what steps did you

548

00:28:57,110 --> 00:28:54,480

take to fulfill the dream and what are

549

00:28:58,310 --> 00:28:57,120

your expectations from the flight and my

550

00:28:59,909 --> 00:28:58,320

second question is for further

551  
00:29:02,549 --> 00:28:59,919  
nikolaevich

552  
00:29:03,669 --> 00:29:02,559  
well uh yes it has been my dream indeed

553  
00:29:05,029 --> 00:29:03,679  
but

554  
00:29:07,510 --> 00:29:05,039  
for now

555  
00:29:09,510 --> 00:29:07,520  
we still have to go through the final

556  
00:29:11,830 --> 00:29:09,520  
stages of our training

557  
00:29:13,510 --> 00:29:11,840  
we are ready for the flight but we still

558  
00:29:14,870 --> 00:29:13,520  
keep training

559  
00:29:21,350 --> 00:29:14,880  
at baikonur

560  
00:29:24,950 --> 00:29:22,470  
currently

561  
00:29:26,789 --> 00:29:24,960  
i can't say anything once i'm aboard at

562  
00:29:29,430 --> 00:29:26,799  
the station once

563  
00:29:32,389 --> 00:29:29,440

i will be looking on the earth from

564

00:29:35,190 --> 00:29:32,399

there then i will be able to say that i

565

00:29:37,590 --> 00:29:35,200

have fulfilled my dream

566

00:29:40,950 --> 00:29:37,600

so we will talk about it in this due

567

00:29:42,230 --> 00:29:40,960

time but for now

568

00:29:47,350 --> 00:29:42,240

i

569

00:29:49,350 --> 00:29:47,360

we are ready

570

00:29:51,669 --> 00:29:49,360

for the flight

571

00:29:53,750 --> 00:29:51,679

and of course i have my dream

572

00:29:56,070 --> 00:29:53,760

but we will talk later about it all

573

00:29:59,510 --> 00:29:56,080

right thank you and further

574

00:30:04,789 --> 00:30:03,029

tell us what your wishes are for novices

575

00:30:07,669 --> 00:30:04,799

and you're a very seasoned cosmonaut of

576

00:30:08,389 --> 00:30:07,679

course well it is hard to say because

577

00:30:10,630 --> 00:30:08,399

well

578

00:30:12,470 --> 00:30:10,640

i'm sure in one thing

579

00:30:14,230 --> 00:30:12,480

that neither age nor the number of

580

00:30:16,710 --> 00:30:14,240

flights dull

581

00:30:20,070 --> 00:30:16,720

that first impression of weightlessness

582

00:30:23,269 --> 00:30:20,080

and i think peggy and oleg and paulo

583

00:30:26,310 --> 00:30:23,279

will agree with me and of course

584

00:30:28,389 --> 00:30:26,320

uh also there is jealousy and this is a

585

00:30:30,310 --> 00:30:28,399

good kind of jealousy and so i feel

586

00:30:32,789 --> 00:30:30,320

jealous of tomorrow because they're yet

587

00:30:35,669 --> 00:30:32,799

to experience it just like first love

588

00:30:37,430 --> 00:30:35,679

and jack will experience the same thing

589

00:30:40,789 --> 00:30:37,440

so

590

00:30:44,149 --> 00:30:40,799

catabella glazawa who is here she has

591

00:30:46,230 --> 00:30:44,159

always told me keep a diary and i didn't

592

00:30:48,789 --> 00:30:46,240

do that so guys

593

00:30:50,549 --> 00:30:48,799

keep a journal and please write down all

594

00:30:53,269 --> 00:30:50,559

your first impressions

595

00:30:54,789 --> 00:30:53,279

don't rely on your memory and otherwise

596

00:30:57,909 --> 00:30:54,799

frankly speaking

597

00:30:59,750 --> 00:30:57,919

i feel this good kind of and we

598

00:31:01,509 --> 00:30:59,760

everything is still ahead of you this is

599

00:31:03,750 --> 00:31:01,519

the first feeling of having accomplished

600

00:31:08,389 --> 00:31:03,760

something that you have been aspiring to

601  
00:31:11,990 --> 00:31:10,870  
in english you said that you uh get on

602  
00:31:13,190 --> 00:31:12,000  
really well you've obviously been

603  
00:31:14,549 --> 00:31:13,200  
training together for a long time but

604  
00:31:16,870 --> 00:31:14,559  
anyone who's lived in a shared flat

605  
00:31:18,870 --> 00:31:16,880  
knows that the smallest things

606  
00:31:20,389 --> 00:31:18,880  
can get out of hand is there

607  
00:31:21,430 --> 00:31:20,399  
anything that you've noticed about each

608  
00:31:23,029 --> 00:31:21,440  
other that

609  
00:31:35,029 --> 00:31:23,039  
could write on you that could become a

610  
00:31:39,750 --> 00:31:37,669  
no no i i think it's um it's a great

611  
00:31:41,830 --> 00:31:39,760  
question because it enables me to insist

612  
00:31:44,070 --> 00:31:41,840  
on the fact that um

613  
00:31:46,389 --> 00:31:44,080

like alex said it's um there's really

614

00:31:48,789 --> 00:31:46,399

two sides there's first of all uh being

615

00:31:51,269 --> 00:31:48,799

a professional uh having the technical

616

00:31:53,190 --> 00:31:51,279

skills to to perform the job and then

617

00:31:55,750 --> 00:31:53,200

it's all about character i think and

618

00:31:58,149 --> 00:31:55,760

that's why uh in this election to become

619

00:31:59,830 --> 00:31:58,159

national you have to be someone um easy

620

00:32:01,350 --> 00:31:59,840

to work with you have to be somewhat

621

00:32:04,549 --> 00:32:01,360

able to communicate you have to be

622

00:32:07,029 --> 00:32:04,559

someone who's patient i think and um

623

00:32:10,310 --> 00:32:07,039

and among all these these qualities

624

00:32:13,509 --> 00:32:10,320

they give me the two best ones so i'm

625

00:32:15,509 --> 00:32:13,519

very lucky um oleg never loses is his

626  
00:32:17,669 --> 00:32:15,519  
pampers always come even in the scene

627  
00:32:19,269 --> 00:32:17,679  
without stop pressing the wrong buttons

628  
00:32:21,590 --> 00:32:19,279  
that make all the mistakes that i'm able

629  
00:32:24,070 --> 00:32:21,600  
to make sometimes you know this is calm

630  
00:32:26,070 --> 00:32:24,080  
always it's very very steady so so i

631  
00:32:27,110 --> 00:32:26,080  
know it won't be a problem at all and

632  
00:32:29,029 --> 00:32:27,120  
peggy

633  
00:32:31,590 --> 00:32:29,039  
even though she basically built the

634  
00:32:33,669 --> 00:32:31,600  
space station herself uh she's she's

635  
00:32:35,269 --> 00:32:33,679  
very open to feedback and when she makes

636  
00:32:37,430 --> 00:32:35,279  
a mistake she's like hey i've made a

637  
00:32:39,190 --> 00:32:37,440  
mistake and we can talk about it which

638  
00:32:41,269 --> 00:32:39,200

is which is just fantastic if you think

639

00:32:43,430 --> 00:32:41,279

about it i'm just at the beginning of my

640

00:32:46,070 --> 00:32:43,440

career and and i'm able to talk to peggy

641

00:32:49,110 --> 00:32:46,080

and she's open and um and that's just

642

00:32:51,190 --> 00:32:49,120

the chance that i have so um

643

00:32:53,029 --> 00:32:51,200

in short no i haven't noticed anything

644

00:32:54,630 --> 00:32:53,039

that could really drive me crazy in the

645

00:32:57,269 --> 00:32:54,640

next six months but six months is a long

646

00:32:59,509 --> 00:32:57,279

time i try to keep my my things tidy i

647

00:33:01,190 --> 00:32:59,519

think it's one of the one of the main uh

648

00:33:03,190 --> 00:33:01,200

one of the main goals

649

00:33:04,870 --> 00:33:03,200

if you want to have everybody happy but

650

00:33:06,710 --> 00:33:04,880

uh no i haven't noticed anything i'm

651  
00:33:15,269 --> 00:33:06,720  
sorry i'd like to i wish i could tell

652  
00:33:20,950 --> 00:33:18,470  
for you so i read that in 2015 you

653  
00:33:23,430 --> 00:33:20,960  
graduated from russian presidential

654  
00:33:26,070 --> 00:33:23,440  
academy of national economy and public

655  
00:33:28,870 --> 00:33:26,080  
administration so why did you decide to

656  
00:33:31,750 --> 00:33:28,880  
study there is it just your habit to

657  
00:33:33,830 --> 00:33:31,760  
work and study hard or do you have any

658  
00:33:35,190 --> 00:33:33,840  
long-term goals

659  
00:33:36,070 --> 00:33:35,200  
well i guess

660  
00:33:39,830 --> 00:33:36,080  
both

661  
00:33:42,389 --> 00:33:39,840  
because

662  
00:33:43,909 --> 00:33:42,399  
uh i would like to keep working to keep

663  
00:33:46,389 --> 00:33:43,919

working in spain for as long as i

664

00:33:48,070 --> 00:33:46,399

possibly can but there is no guarantee

665

00:33:50,710 --> 00:33:48,080

that the doctors won't tell you that

666

00:33:53,509 --> 00:33:50,720

you're simply not fit for space flight

667

00:33:54,789 --> 00:33:53,519

but as a man in good health as a man i

668

00:33:57,350 --> 00:33:54,799

think that

669

00:33:58,710 --> 00:33:57,360

i need to work to work a lot in any

670

00:34:02,470 --> 00:33:58,720

field and

671

00:34:05,110 --> 00:34:02,480

so why not pick this field

672

00:34:06,789 --> 00:34:05,120

was it difficult for you to combine work

673

00:34:09,589 --> 00:34:06,799

trainings and studies

674

00:34:12,470 --> 00:34:09,599

well of course it was a point in my life

675

00:34:15,190 --> 00:34:12,480

when i didn't have any free time and if

676

00:34:17,109 --> 00:34:15,200

i had been in pre-flight training i

677

00:34:20,230 --> 00:34:17,119

would not have attempted this

678

00:34:22,550 --> 00:34:20,240

and also are you going to keep a blog on

679

00:34:24,069 --> 00:34:22,560

roscosmos website where you would share

680

00:34:26,389 --> 00:34:24,079

impressions of your flight because some

681

00:34:27,430 --> 00:34:26,399

cosmonauts say that they don't have any

682

00:34:29,589 --> 00:34:27,440

time but

683

00:34:31,190 --> 00:34:29,599

it is also very interesting for us to

684

00:34:33,669 --> 00:34:31,200

see what you are doing there and what

685

00:34:36,550 --> 00:34:33,679

interesting things you are learning

686

00:34:38,470 --> 00:34:36,560

well if i get help then yes i will keep

687

00:34:42,629 --> 00:34:38,480

a blog thank you

688

00:34:43,430 --> 00:34:42,639

thank you and the next uh final question

689

00:34:44,230 --> 00:34:43,440

is

690

00:34:47,190 --> 00:34:44,240

um

691

00:34:49,829 --> 00:34:47,200

question for oleg novitskiy

692

00:34:53,270 --> 00:34:49,839

are there any space walks planned in

693

00:34:55,190 --> 00:34:53,280

2017 for the russian flight program well

694

00:34:58,069 --> 00:34:55,200

uh let's correct the question could you

695

00:35:00,470 --> 00:34:58,079

please address the question to

696

00:35:02,550 --> 00:35:00,480

the specific crew so for your crew are

697

00:35:04,150 --> 00:35:02,560

there any evs plan

698

00:35:05,349 --> 00:35:04,160

well no

699

00:35:09,190 --> 00:35:05,359

not planned

700

00:35:10,950 --> 00:35:09,200

our partners will have space walks

701  
00:35:13,270 --> 00:35:10,960  
and

702  
00:35:15,990 --> 00:35:13,280  
such tasks are not envisioned for me

703  
00:35:18,710 --> 00:35:16,000  
paranormal flight program however we are

704  
00:35:20,150 --> 00:35:18,720  
fully prepared for eva

705  
00:35:24,870 --> 00:35:20,160  
tasks

706  
00:35:39,349 --> 00:35:27,190  
news agency

707  
00:35:44,710 --> 00:35:42,710  
ms series and

708  
00:35:47,910 --> 00:35:44,720  
of course i'm sure that you were shown

709  
00:35:48,630 --> 00:35:47,920  
the previous version of the vehicle

710  
00:35:50,550 --> 00:35:48,640  
and

711  
00:35:53,990 --> 00:35:50,560  
this new vehicle of course is more

712  
00:35:55,430 --> 00:35:54,000  
advanced it uses digital systems etc

713  
00:35:58,150 --> 00:35:55,440

so

714

00:36:01,510 --> 00:35:58,160

what was the training like for you on

715

00:36:03,030 --> 00:36:01,520

that vehicle and

716

00:36:04,870 --> 00:36:03,040

for somebody

717

00:36:07,589 --> 00:36:04,880

who is flying to space for the first

718

00:36:09,430 --> 00:36:07,599

time what was the training like and uh

719

00:36:13,030 --> 00:36:09,440

thank you

720

00:36:14,390 --> 00:36:13,040

well new soyuz ms new version of the

721

00:36:17,190 --> 00:36:14,400

vehicle

722

00:36:20,390 --> 00:36:17,200

is i think more

723

00:36:23,030 --> 00:36:20,400

reliable and of course there is a very

724

00:36:25,030 --> 00:36:23,040

long list of upgrades

725

00:36:29,670 --> 00:36:25,040

i don't think that there is any need to

726

00:36:32,630 --> 00:36:29,680

go into details here but as a result

727

00:36:35,990 --> 00:36:32,640

our flight will be

728

00:36:41,109 --> 00:36:36,000

even more reliable than in the past and

729

00:36:47,349 --> 00:36:44,150

russian space manufacturing is becoming

730

00:36:49,829 --> 00:36:47,359

more and more advanced every day

731

00:36:52,470 --> 00:36:49,839

and while i have one complaint

732

00:36:54,950 --> 00:36:52,480

unfortunately the seats

733

00:36:57,190 --> 00:36:54,960

are still the same as the ones that we

734

00:36:58,150 --> 00:36:57,200
