

Hello Expedition 49!  
Welcome to Cygnus OA-5

ARMY

1  
00:00:07,030 --> 00:00:05,190  
good day houston hansel munich tsukuba

2  
00:00:09,509 --> 00:00:07,040  
and moscow

3  
00:00:13,030 --> 00:00:09,519  
expedition 49 to international space

4  
00:00:15,749 --> 00:00:13,040  
station is coming to its end

5  
00:00:18,390 --> 00:00:15,759  
i think time is a very interesting and

6  
00:00:20,390 --> 00:00:18,400  
not fully understood phenomena

7  
00:00:22,790 --> 00:00:20,400  
i have a feeling that we came to the

8  
00:00:25,670 --> 00:00:22,800  
space station just yesterday

9  
00:00:26,710 --> 00:00:25,680  
and tomorrow it's time for us to undock

10  
00:00:29,029 --> 00:00:26,720  
and

11  
00:00:30,870 --> 00:00:29,039  
go back to our planet

12  
00:00:33,030 --> 00:00:30,880  
maybe this is because you are traveling

13  
00:00:36,150 --> 00:00:33,040

with the speed of eight kilometers per

14

00:00:39,430 --> 00:00:36,160

hour maybe there is some other reason

15

00:00:40,950 --> 00:00:39,440

but the time is very special here in

16

00:00:43,350 --> 00:00:40,960

space

17

00:00:47,430 --> 00:00:46,069

i'd like to say uh

18

00:00:51,029 --> 00:00:47,440

thank you

19

00:00:54,150 --> 00:00:51,039

all of your support support of

20

00:00:57,430 --> 00:00:54,160

expedition 48

21

00:00:59,990 --> 00:00:57,440

we do have some achievements

22

00:01:02,869 --> 00:01:00,000

successful cygnus capture news i use

23

00:01:04,229 --> 00:01:02,879

docked and progress undocked a lot of

24

00:01:06,630 --> 00:01:04,239

science done

25

00:01:08,469 --> 00:01:06,640

routine maintenance and all of this

26

00:01:10,630 --> 00:01:08,479

would not be able without your help

27

00:01:15,350 --> 00:01:10,640

without your support with you without

28

00:01:19,749 --> 00:01:17,670

taking care of our being on space

29

00:01:22,630 --> 00:01:19,759

station

30

00:01:25,270 --> 00:01:22,640

i kind of reluctant to close the hatch

31

00:01:27,670 --> 00:01:25,280

because being on the space station

32

00:01:29,109 --> 00:01:27,680

is a very unique experience

33

00:01:32,230 --> 00:01:29,119

and

34

00:01:33,590 --> 00:01:32,240

first of all i didn't have time to

35

00:01:37,670 --> 00:01:33,600

to know

36

00:01:39,350 --> 00:01:37,680

what's going on on our planet and second

37

00:01:40,469 --> 00:01:39,360

maybe it is

38

00:01:41,270 --> 00:01:40,479

for the better

39

00:01:44,950 --> 00:01:41,280

and

40

00:01:47,190 --> 00:01:44,960

being in the space station you you live

41

00:01:48,069 --> 00:01:47,200

in a very friendly

42

00:01:49,190 --> 00:01:48,079

uh

43

00:01:50,789 --> 00:01:49,200

way

44

00:01:53,429 --> 00:01:50,799

uh

45

00:01:54,630 --> 00:01:53,439

a really good environment of people who

46

00:01:57,030 --> 00:01:54,640

are

47

00:01:59,190 --> 00:01:57,040

working together and

48

00:01:59,910 --> 00:01:59,200

we came from different nations

49

00:02:02,310 --> 00:01:59,920

we

50

00:02:05,190 --> 00:02:02,320

speak different languages but being a

51  
00:02:07,429 --> 00:02:05,200  
space station we feel like one crew a

52  
00:02:08,630 --> 00:02:07,439  
group of international space station

53  
00:02:13,830 --> 00:02:08,640  
and

54  
00:02:15,990 --> 00:02:13,840  
back on our planet

55  
00:02:18,630 --> 00:02:16,000  
we will know what's going on there and

56  
00:02:20,949 --> 00:02:18,640  
not of the things that go in there are

57  
00:02:23,430 --> 00:02:20,959  
really good and we like it and here we

58  
00:02:25,190 --> 00:02:23,440  
we don't have time to know about it

59  
00:02:26,949 --> 00:02:25,200  
and that's why we will be missing the

60  
00:02:28,070 --> 00:02:26,959  
space station this very unique

61  
00:02:31,110 --> 00:02:28,080  
environment

62  
00:02:33,750 --> 00:02:31,120  
so i would like uh to thank you one more

63  
00:02:38,550 --> 00:02:33,760

time and just give mike to a new

64

00:02:42,790 --> 00:02:41,190

thanks anatoly and it's really an honor

65

00:02:44,869 --> 00:02:42,800

and a privilege to take command of the

66

00:02:48,710 --> 00:02:44,879

international space station

67

00:02:52,070 --> 00:02:48,720

um the 4849 s excuse me the 49

68

00:02:53,750 --> 00:02:52,080

expedition crew has done an amazing job

69

00:02:55,509 --> 00:02:53,760

some of the accomplishments anatoly

70

00:02:57,270 --> 00:02:55,519

mentioned earlier but

71

00:03:00,070 --> 00:02:57,280

you guys have done a lot you've done

72

00:03:02,790 --> 00:03:00,080

record-breaking science and research

73

00:03:04,550 --> 00:03:02,800

spacewalks robotic operations many

74

00:03:05,910 --> 00:03:04,560

vehicles coming and going

75

00:03:07,110 --> 00:03:05,920

so you guys have done a lot and you

76

00:03:09,110 --> 00:03:07,120

should feel very proud of your

77

00:03:10,869 --> 00:03:09,120

accomplishments

78

00:03:13,350 --> 00:03:10,879

we're sorry we're only here a week with

79

00:03:15,190 --> 00:03:13,360

you you guys have trained us well though

80

00:03:17,110 --> 00:03:15,200

we're ready to uh take charge of the

81

00:03:19,190 --> 00:03:17,120

space station on the russian and the u.s

82

00:03:22,550 --> 00:03:19,200

side

83

00:03:24,309 --> 00:03:22,560

and we will certainly miss you guys

84

00:03:26,710 --> 00:03:24,319

of course like anatoly said none of this

85

00:03:27,750 --> 00:03:26,720

could be done without the support of our

86

00:03:29,270 --> 00:03:27,760

families

87

00:03:32,309 --> 00:03:29,280

and all the people in the mission

88

00:03:34,229 --> 00:03:32,319

control centers and the training centers

89

00:03:35,990 --> 00:03:34,239

and the vehicle processing facilities

90

00:03:38,149 --> 00:03:36,000

and launch facilities so thank you to

91

00:03:40,630 --> 00:03:38,159

all of you who allow this to all to

92

00:03:43,589 --> 00:03:40,640

happen and for us to get this incredible

93

00:03:44,949 --> 00:03:43,599

incredible experience

94

00:03:46,550 --> 00:03:44,959

we want to keep you guys longer of

95

00:03:48,149 --> 00:03:46,560

course but there's a lot of people on

96

00:03:49,190 --> 00:03:48,159

the ground waiting to see your smiling

97

00:03:51,750 --> 00:03:49,200

faces

98

00:03:54,309 --> 00:03:51,760

so andre sergei and i would like to wish

99

00:04:04,949 --> 00:03:54,319

you guys safe travels home tomorrow

100

00:04:04,959 --> 00:04:10,070

expedition 49 departing

101  
00:04:13,110 --> 00:04:11,030  
station

102  
00:04:15,589 --> 00:04:13,120  
those are excellent words commander

103  
00:04:18,150 --> 00:04:15,599  
anatomy we really appreciate what you

104  
00:04:19,590 --> 00:04:18,160  
had to pass on to us and on behalf of

105  
00:04:20,949 --> 00:04:19,600  
all of us on the ground that supported

106  
00:04:22,469 --> 00:04:20,959  
your mission as you mentioned there's

107  
00:04:24,070 --> 00:04:22,479  
there's a lot of work that goes on here

108  
00:04:25,510 --> 00:04:24,080  
i'm sitting amongst

109  
00:04:27,430 --> 00:04:25,520  
a bunch of heroes on the ground that

110  
00:04:29,830 --> 00:04:27,440  
have done some great work but we just

111  
00:04:32,070 --> 00:04:29,840  
want to relay to you it was a pleasure

112  
00:04:34,870 --> 00:04:32,080  
to watch your crew work in orbit and to

113  
00:04:36,550 --> 00:04:34,880

serve for you guys was an absolutely

114

00:04:38,629 --> 00:04:36,560

amazing experience for all of us here so

115

00:04:41,350 --> 00:04:38,639

we very much appreciate your work you

116

00:04:43,749 --> 00:04:41,360

set the bar high to the to the new

117

00:04:45,430 --> 00:04:43,759

expedition and commander uh we know the

118

00:04:47,590 --> 00:04:45,440

ship is in good hands and we look

119

00:04:49,350 --> 00:04:47,600

forward to continuing to work with you

120

00:04:52,230 --> 00:04:49,360

so uh godspeed on your trip home

121

00:04:58,230 --> 00:04:52,240

tomorrow expedition 49 and uh best of

122

00:04:58,240 --> 00:05:04,550

thanks a lot houston
