

DO NOT TOUCH  
EXPERIMENT  
RACKS

Hello Expedition 43!  
Welcome to Cynos OA-5

50

1

00:00:00,729 --> 00:00:06,900

Hi I'm NASA Astronaut Shane Kimbrough, Commander of the International Space Station and a retired

2

00:00:06,900 --> 00:00:08,620

Army Colonel.

3

00:00:08,620 --> 00:00:13,959

As I orbit the earth at an altitude of 250 miles, I'm constantly in awe of the sight

4

00:00:13,959 --> 00:00:15,419

of our planet below.

5

00:00:15,419 --> 00:00:20,970

I'm equally awestruck by those brave Americans who served and who are currently serving around

6

00:00:20,970 --> 00:00:26,470

the world in the United States Armed Forces in the defense of our freedom.

7

00:00:26,470 --> 00:00:32,099

Our service men and women have always placed themselves in harms way to protect our values

8

00:00:32,099 --> 00:00:37,340

and everything and everyone we hold precious in our democracy.

9

00:00:37,340 --> 00:00:41,170

I also want to recognize family members of those serving.

10

00:00:41,170 --> 00:00:44,170

You humbly sacrifice more than people know.

11

00:00:44,170 --> 00:00:46,320

Thank you.

12

00:00:46,320 --> 00:00:51,239

As we commemorate Veterans Day, please take  
a moment to remember those who made the ultimate

13

00:00:51,239 --> 00:00:58,840

sacrifice and those currently serving on behalf  
of us every minute, every day to keep us free,
