

1
00:00:00,290 --> 00:00:02,639
This is Janelle Monae.

2
00:00:02,639 --> 00:00:09,120
I play the real life NASA engineer Mary Jackson
in the upcoming film HIDDEN FIGURES.

3
00:00:09,120 --> 00:00:13,639
HIDDEN FIGURES is a true story about three
African American women who contributed to

4
00:00:13,639 --> 00:00:17,650
America winning the space race in the 1960s.

5
00:00:17,650 --> 00:00:21,680
Mary was a mathematician at NASA's Langley
Research Center.

6
00:00:21,680 --> 00:00:26,250
She was very proud of her job and very proud
to be a part of America's space program.

7
00:00:26,250 --> 00:00:30,110
I am honored to play Ms. Mary Jackson.

8
00:00:30,110 --> 00:00:35,340
With its exploration of the solar system and
its ambitious plan to send humans to Mars

9
00:00:35,340 --> 00:00:42,790
in the 2030s, NASA continues to lead our nation
and the world into the frontier of space.

10
00:00:42,790 --> 00:00:47,680
Since the agency's founding, scientists,
engineers, computer programmers, mathematicians,

11
00:00:47,680 --> 00:00:51,530
and inventors have worked to make NASA great.

12

00:00:51,530 --> 00:00:56,630

And NASA depends on the diversity of its workforce
to accomplish its missions and pioneer our

13

00:00:56,630 --> 00:00:57,630

future.
