

CHRISTINA DIAZ | INSTRUMENT ENGINEER
NASA'S JET PROPULSION LABORATORY

1
00:00:01,120 --> 00:00:03,440

[MUSIC]

Katherine Johnson's story, and most importantly,

2
00:00:03,440 --> 00:00:09,500

her attitude, of breaking down barriers of
being a women of color in 1950s and '60s has

3
00:00:09,500 --> 00:00:14,349

really helped me overcome my own challenges
of being a women in the engineering field.

4
00:00:14,349 --> 00:00:20,220

Her and the other human computers of the 1950s
and '60s broke so many glass ceilings so that

5
00:00:20,220 --> 00:00:23,340

now, as an engineer, it's much easier to break
my own.

6
00:00:23,340 --> 00:00:24,340

[MUSIC]

7
00:00:24,340 --> 00:00:25,340

[...tornado weather]

[we another level]
