[Music]

2  
00:00:36,790 --> 00:00:34,310

there lies the port

3  
00:00:43,510 --> 00:00:36,800

the vessel puffs her sail

4  
00:00:48,470 --> 00:00:46,069

come my friends it is not too late to

5  
00:00:51,110 --> 00:00:48,480

seek a newer world

6  
00:00:55,189 --> 00:00:51,120

push off and sitting well in order smite

7  
00:00:59,750 --> 00:00:56,709

i'm very proud to be part of the

8  
00:01:02,069 --> 00:00:59,760

beginnings of america's space program

9  
00:01:04,149 --> 00:01:02,079

and needless to say i'm excited to be

10  
00:01:05,670 --> 00:01:04,159

back and i'm honored i'm privileged but

11  
00:01:07,670 --> 00:01:05,680

more than that

12  
00:01:09,670 --> 00:01:07,680

the opportunity

13  
00:01:11,190 --> 00:01:09,680

that this gives to take us in some new

14

00:01:13,109 --> 00:01:11,200

directions

15

00:01:15,190 --> 00:01:13,119

we know the what's

16

00:01:17,510 --> 00:01:15,200

of aging

17

00:01:19,830 --> 00:01:17,520

but i want to try to contribute more to

18

00:01:23,510 --> 00:01:19,840

learning about the whys

19

00:01:28,630 --> 00:01:26,390

i am a part of all that i have met

20

00:01:31,510 --> 00:01:28,640

yet all experience is an arch where

21

00:01:34,870 --> 00:01:31,520

through gleams that untraveled world

22

00:01:35,860 --> 00:01:34,880

whose margin fades forever and forever

23

00:01:38,870 --> 00:01:35,870

when i move

24

00:01:41,350 --> 00:01:38,880

[Music]

25

00:01:44,469 --> 00:01:41,360

i think it comes down to america's

26

00:01:47,109 --> 00:01:44,479

sense of curiosity

27

00:01:50,310 --> 00:01:47,119

a willingness to go out on discovery

28

00:01:52,069 --> 00:01:50,320

a willingness to to look at the unknown

29

00:01:54,630 --> 00:01:52,079

we have been a curious

30

00:01:55,910 --> 00:01:54,640

but questing people throughout all of

31

00:01:57,429 --> 00:01:55,920

our history

32

00:02:00,389 --> 00:01:57,439

and out of that came

33

00:02:02,709 --> 00:02:00,399

this surge that we know as our our great

34

00:02:04,870 --> 00:02:02,719

uh economy that we have today here and

35

00:02:07,910 --> 00:02:04,880

our standard of living it uh exceeds

36

00:02:09,910 --> 00:02:07,920

anything uh known around the world it's

37

00:02:12,229 --> 00:02:09,920

that kind of research and that kind of

38

00:02:14,390 --> 00:02:12,239

of interest in research and this

39

00:02:15,510 --> 00:02:14,400

kind of quest for the future that i

40

00:02:18,710 --> 00:02:15,520

think is

41

00:02:20,229 --> 00:02:18,720

is the job that nasa does best their job

42

00:02:23,670 --> 00:02:20,239

is to push back

43

00:02:25,830 --> 00:02:23,680

the frontiers of the unknown and let us

44

00:02:27,110 --> 00:02:25,840

know in our own time these things that

45

00:02:32,949 --> 00:02:27,120

can benefit

46

00:02:38,949 --> 00:02:36,550

old age hath yet his honor and his toil

47

00:02:41,910 --> 00:02:38,959

and something near the end some work of

48

00:02:46,220 --> 00:02:41,920

noble note may yet be done

49

00:02:50,309 --> 00:02:46,230

not unbecoming men that strove with gods

50

00:02:52,070 --> 00:02:50,319

[Music]

51  
00:02:55,110 --> 00:02:52,080  
and the success of america's space

52  
00:02:56,550 --> 00:02:55,120  
program has opened up not only the skies

53  
00:02:57,910 --> 00:02:56,560  
but it's brought our country in the

54  
00:03:01,750 --> 00:02:57,920  
world

55  
00:03:03,589 --> 00:03:01,760  
immeasurable scientific benefits

56  
00:03:05,670 --> 00:03:03,599  
we've gone in that short period of time

57  
00:03:07,589 --> 00:03:05,680  
in those few decades from what we call

58  
00:03:09,110 --> 00:03:07,599  
the capsule back in those days with one

59  
00:03:10,869 --> 00:03:09,120  
person in it

60  
00:03:12,710 --> 00:03:10,879  
up to where we'll now put up in just a

61  
00:03:15,110 --> 00:03:12,720  
few months the first part of the

62  
00:03:16,390 --> 00:03:15,120  
international space station

63  
00:03:19,270 --> 00:03:16,400

and we've gone from the depths of the

64

00:03:21,110 --> 00:03:19,280

cold war to where our former adversaries

65

00:03:24,650 --> 00:03:21,120

are now going to be cooperating with us
