

GILENA MONROE |

ENGINEER
NASA AMES RESEARCH CENTER

1
00:00:00,000 --> 00:00:05,040
I first heard about Katherine's story from

2
00:00:05,040 --> 00:00:08,340
a fellow colleague Rose King who's retired now

3
00:00:08,340 --> 00:00:11,670
and I looked up her information and read

4
00:00:11,670 --> 00:00:14,340
her story it was simply amazed and then

5
00:00:14,340 --> 00:00:17,100
I've heard more about Mary and Dorothy and

6
00:00:17,100 --> 00:00:19,320
their careers here at NASA and it

7
00:00:19,320 --> 00:00:21,180
literally brought tears to my eyes.

8
00:00:21,180 --> 00:00:23,670
Because I've never seen anyone that

9
00:00:23,670 --> 00:00:25,890
looks like me that had been so

10
00:00:25,890 --> 00:00:28,890
mission-critical to NASA you know 40, 50

11
00:00:28,890 --> 00:00:32,759
years ago. So for them to do what they

12
00:00:32,759 --> 00:00:34,860
did it kind of favor with me strength to

13
00:00:34,860 --> 00:00:37,649

me that you know mission is important

14

00:00:37,649 --> 00:00:46,000

I'm here for a reason... and I can do this.
