

# COMPLEX - 14 MANNED ORBITAL FLIGHTS

by

- Lt. Col. John H. Glenn Jr., USMC, 20 Feb. 1962
- LCDR . Scott Carpenter, USN, 24 May 1962
- LCDR, Walter M. Schirra Jr., USN, 3 Oct. 1962
- MAJ. L. Gordon Cooper, USAF, 15 May 1963

1  
00:00:02,220 --> 00:00:35,290  
[MUSIC]

2  
00:00:35,290 --> 00:00:39,590  
I'm very excited about these individuals that recognize the importance of space.

3  
00:00:39,590 --> 00:00:48,120  
Just like these three African-American female protagonist in the 1960's.

4  
00:00:48,120 --> 00:00:53,680  
You know they recognized that, that math was going to be integral to make advancement in

5  
00:00:53,680 --> 00:00:54,680  
space.

6  
00:00:54,680 --> 00:00:59,100  
And we all know any advancement in space is an advancement for our species.
