

SpaceX Falcon 9 rocket has been scrubbed due to the second stage thrust vector control issue noted earlier

Today's launch

1
00:00:01,360 --> 00:00:06,630
t-minus 20.

2
00:00:06,640 --> 00:00:09,669
hold hold hold

3
00:00:13,030 --> 00:00:11,589
just had a hole in the countdown launch

4
00:00:15,749 --> 00:00:13,040
reporter started

5
00:00:18,310 --> 00:00:15,759
we have a board of the countdown

6
00:00:26,150 --> 00:00:18,320
at t minus 13 seconds

7
00:00:32,389 --> 00:00:28,470
dcgc standby on firex

8
00:00:39,110 --> 00:00:34,069
drag and verify

9
00:00:39,120 --> 00:00:43,510
game has boarded copy that

10
00:00:47,430 --> 00:00:45,910
dragon and falcon 9 are aborted

11
00:00:49,110 --> 00:00:47,440
for

12
00:00:52,150 --> 00:00:49,120
and no word from the launch director

13
00:00:54,630 --> 00:00:52,160

that uh they did terminate the countdown

14

00:00:56,389 --> 00:00:54,640

because they did not fully understand

15

00:00:58,229 --> 00:00:56,399

what they're seeing in this

16

00:00:59,910 --> 00:00:58,239

second stage thrust vector control

17

00:01:02,470 --> 00:00:59,920

system issue

18

00:01:04,149 --> 00:01:02,480

they are positioning for a 24-hour scrub
