

1
00:00:05,829 --> 00:00:02,710
you're looking at

2
00:00:07,190 --> 00:00:05,839
an external camera on the progress 66

3
00:00:09,030 --> 00:00:07,200
vehicle right in the middle of the

4
00:00:11,030 --> 00:00:09,040
crosshairs is the international space

5
00:00:15,350 --> 00:00:11,040
station you can see in the lower

6
00:00:17,349 --> 00:00:15,360
left-hand corner uh the numbers five

7
00:00:19,830 --> 00:00:17,359
comma eight three four those are

8
00:00:21,109 --> 00:00:19,840
kilometers counting down the distance

9
00:00:24,150 --> 00:00:21,119
between the progress and the

10
00:00:29,029 --> 00:00:24,160
international space station now just 5.7

11
00:00:33,350 --> 00:00:31,429
and there's uh our first close-up view

12
00:00:34,549 --> 00:00:33,360
of the progress against the limb of the

13
00:00:35,750 --> 00:00:34,559

earth

14

00:00:39,590 --> 00:00:35,760

as uh

15

00:00:42,069 --> 00:00:39,600

progress uh flies 250 miles above

16

00:00:51,750 --> 00:00:42,079

eastern china

17

00:00:57,670 --> 00:00:53,830

another view of the progress

18

00:00:59,349 --> 00:00:57,680

as it steadily closes its distance

19

00:01:05,109 --> 00:00:59,359

to its target the piers docking

20

00:01:09,270 --> 00:01:07,429

the progress has begun its fly around of

21

00:01:13,030 --> 00:01:09,280

the international space station right on

22

00:01:20,710 --> 00:01:15,749

250 meters now separating progress and

23

00:01:30,109 --> 00:01:23,429

progress about halfway through its fly

24

00:01:54,230 --> 00:01:32,950

157 meters separating progress from the

25

00:01:59,109 --> 00:01:55,990

you can see the piers docking

26
00:02:00,870 --> 00:01:59,119
compartment just above the crosshairs on

27
00:02:03,190 --> 00:02:00,880
this external engineering overlaid

28
00:02:04,550 --> 00:02:03,200
camera on the outside of the progress

29
00:02:06,469 --> 00:02:04,560
vehicle

30
00:02:08,389 --> 00:02:06,479
launched two days ago from the baikonur

31
00:02:10,869 --> 00:02:08,399
cosmodrome in kazakhstan

32
00:02:12,470 --> 00:02:10,879
it has been a flawless flight uh so far

33
00:02:14,790 --> 00:02:12,480
for progress

34
00:02:17,430 --> 00:02:14,800
all of its engine firings uh right on

35
00:02:19,350 --> 00:02:17,440
the money all of its systems functioning

36
00:02:35,430 --> 00:02:19,360
by the book no issues reported by the

37
00:02:50,390 --> 00:02:37,910
35 meters away closing at a rate just

38
00:02:55,750 --> 00:02:52,949

carrying a 2.9 tons of cargo the

39

00:02:57,750 --> 00:02:55,760

progress and nears its destination now

40

00:03:12,149 --> 00:02:57,760

26 meters separating it from the piers

41

00:03:12,159 --> 00:03:16,550

now the view from progress

42

00:03:16,560 --> 00:03:23,030

five meters away

43

00:03:23,040 --> 00:03:36,630

standing by for contact and capture

44

00:03:41,910 --> 00:03:38,149

contact

45

00:03:48,149 --> 00:03:44,630

docking confirmed at 2 30 a.m central

46

00:03:49,830 --> 00:03:48,159

time 3 30 a.m eastern time

47

00:03:52,149 --> 00:03:49,840

as progress in the international space

48

00:03:55,350 --> 00:03:52,159

station flew 250 miles over the south

49

00:03:58,710 --> 00:03:55,360

pacific a flawless arrival

50

00:04:01,270 --> 00:03:58,720

for the progress 66 cargo craft

51

00:04:03,270 --> 00:04:01,280

the second resupply craft to reach the
