Jessica Watkins

1
00:00:00,000 --> 00:00:05,400
I'm so excited to join you all out there
I was so incredibly impressed by

2
00:00:05,400 --> 00:00:11,340
everyone when I came out for the
applications and it made me want the job

3
00:00:11,340 --> 00:00:16,199
that much more I'd like to thank the
NASA workforce for your commitment and

4
00:00:16,199 --> 00:00:22,140
dedication to the mission of NASA I'm
really looking forward to working with

5
00:00:22,140 --> 00:00:26,490
the broader NASA workforce soon one of
the biggest reasons I applied wasn't

6
00:00:26,490 --> 00:00:30,330
even so much fact that the job involves
going to space it was really just the

7
00:00:30,330 --> 00:00:34,469
fact that job involves you and working
with the people at NASA every time I

8
00:00:34,469 --> 00:00:38,399
travel to Houston that just made me more
and more excited about the possibility

9
00:00:38,399 --> 00:00:42,480
of working there I just I feel really
fortunate to work amongst those people

10
00:00:42,480 --> 00:00:46,219
it's going to be really amazing
obviously this is a team effort

11
00:00:46,219 --> 00:00:51,870
we as astronauts and we as an
organization I couldn't do what we do

12
00:00:51,870 --> 00:00:56,699
without everybody involved and thank you
for what you and it's an honor to be a

13
00:00:56,699 --> 00:01:01,620
part of the organization just that I'm
so incredibly honored to be joining you

14
00:01:01,620 --> 00:01:07,200
and I can't wait to work with everybody
went forward to supporting the space

15
00:01:07,200 --> 00:01:15,180
missions and really learning and growing
with my colleagues at NASA I would

16
00:01:15,180 --> 00:01:19,140
definitely say that I'm super excited to
be a part of the NASA team in an ounce

17
00:01:19,140 --> 00:01:24,420
of family is amazing how many people
with different backgrounds and different

18
00:01:24,420 --> 00:01:28,920
types of expertise come to NASA because
they're passionate about the mission

19
00:01:28,920 --> 00:01:35,159
they're really offering my sincere
appreciation in advance further than

20
00:01:35,159 --> 00:01:39,930
with will be doing for us and of course
we've done in the past quite a

21
00:01:39,930 --> 00:01:45,060
successful thing I also say keep up the
good work there certainly is more to be

22
00:01:45,060 --> 00:01:53,490
done as we as we aim for longer duration
and getting humans to Mars and so I look

23
00:01:53,490 --> 00:01:56,610
forward to working with you in that
endeavor thanks for all your support

24
00:01:56,610 --> 00:02:00,719
I've had a lot of encouragement through
the application process and it's been

25
00:02:00,719 --> 00:02:05,439
really cool I kind of feel like
everybody gets to participate in this

26
00:02:05,439 --> 00:02:10,360
experience with me
I'm incredibly humbled and very stoked

27
00:02:10,360 --> 00:02:17,950
to join your team you have a long
history that's incredible
