thank you

00:05:30,950 --> 00:05:22,660

please

00:05:30,960 --> 00:05:34,290

okay

20

00:05:34,300 --> 00:05:49,510

[Music]

21

00:05:49,520 --> 00:06:03,210

okay here gentlemen

22

00:06:20,629 --> 00:06:14,150

[Music]

23

00:06:25,110 --> 00:06:23,029

okay all right

24

00:06:27,350 --> 00:06:25,120

randy bresnik uh

25

00:06:29,590 --> 00:06:27,360

randy uh share your thoughts if you

26
00:06:31,990 --> 00:06:29,600
would uh as you laid the flowers at the

27
00:06:34,309 --> 00:06:32,000
kremlin wall all of the symbolism and

28
00:06:36,309 --> 00:06:34,319
history that involves and what it means

29
00:06:38,070 --> 00:06:36,319
for international cooperation as

30
00:06:40,070 --> 00:06:38,080
highlighted by the work you all do on

31
00:06:42,550 --> 00:06:40,080
the international space station

32
00:06:44,550 --> 00:06:42,560
it's a great question we uh

33
00:06:45,749 --> 00:06:44,560
the first human being in space the

34
00:06:48,390 --> 00:06:45,759
courage and

35
00:06:49,749 --> 00:06:48,400
tenacity that took

36
00:06:52,150 --> 00:06:49,759
being able to lay flowers at his graves

37
00:06:53,749 --> 00:06:52,160
was really you know a

38
00:06:55,350 --> 00:06:53,759

you know

39

00:06:57,110 --> 00:06:55,360

an emotional moment i think for all of

40

00:06:59,189 --> 00:06:57,120

us because it does represent us as a

41

00:07:01,029 --> 00:06:59,199

species leaving our planet and then all

42

00:07:02,950 --> 00:07:01,039

the series of successes between russia

43

00:07:04,309 --> 00:07:02,960

the us and now our international

44

00:07:06,469 --> 00:07:04,319

partners for the work we're able to do

45

00:07:08,309 --> 00:07:06,479

together and go beyond that uh you know

46

00:07:09,990 --> 00:07:08,319

our press conference earlier today we

47

00:07:12,629 --> 00:07:10,000

had the two russian crew members we had

48

00:07:14,629 --> 00:07:12,639

a japanese we had an italian from issa

49

00:07:15,749 --> 00:07:14,639

and since i'm half canadian that means

50

00:07:17,670 --> 00:07:15,759

we have the whole international space

51
00:07:19,990 --> 00:07:17,680
station program represented there

52
00:07:21,830 --> 00:07:20,000
and look at what we're doing i mean

53
00:07:24,390 --> 00:07:21,840
the history books i think will show that

54
00:07:26,710 --> 00:07:24,400
the international space station was such

55
00:07:28,469 --> 00:07:26,720
an engineering marvel and feat those

56
00:07:30,550 --> 00:07:28,479
that'll go beyond even the pyramids

57
00:07:31,830 --> 00:07:30,560
ancient pyramids of egypt and the fact

58
00:07:34,469 --> 00:07:31,840
that it was done internationally as a

59
00:07:36,150 --> 00:07:34,479
species that's what we hope our work

60
00:07:38,790 --> 00:07:36,160
will be the history of our work will

61
00:07:40,469 --> 00:07:38,800
show is that when we're together working

62
00:07:42,390 --> 00:07:40,479
on the international space station and

63
00:07:44,070 --> 00:07:42,400

and what we do in space here flying on

64

00:07:45,749 --> 00:07:44,080

these soyuz flying on the american

65

00:07:47,510 --> 00:07:45,759

vehicles that's going to be the path

66

00:07:49,909 --> 00:07:47,520

forward to show us as a species how we

67

00:07:51,749 --> 00:07:49,919

can go beyond earth and maybe colonize
