

**On August 21st,
a Total Solar Eclipse will cross
the United States from Oregon
to South Carolina.**

1
00:00:08,230 --> 00:00:05,269
as the darkness slowly encroaches

2
00:00:12,950 --> 00:00:10,240
the sun will shine again

3
00:00:16,790 --> 00:00:12,960
[Music]

4
00:00:19,189 --> 00:00:16,800
on august 21st a total solar eclipse

5
00:00:21,750 --> 00:00:19,199
across the united states from oregon to

6
00:00:24,310 --> 00:00:21,760
south carolina

7
00:00:32,470 --> 00:00:24,320
and for a couple of minutes they will

8
00:00:38,790 --> 00:00:35,910
enjoy the show but don't look at the sun

9
00:00:41,270 --> 00:00:38,800
the only safe time to view an eclipse is

10
00:00:44,069 --> 00:00:41,280
if you're in the path of totality and

11
00:00:46,709 --> 00:00:44,079
during the minutes of total

12
00:00:48,389 --> 00:00:46,719
otherwise you'll need certified eclipse

13
00:00:51,370 --> 00:00:48,399

glasses
