

A panel discussion featuring three individuals seated in brown leather chairs. On the left is a woman with long dark hair wearing a black sleeveless dress with white polka dots. In the center is a woman with shoulder-length brown hair wearing a dark blue button-down shirt. On the right is a man with short grey hair and glasses wearing a grey suit jacket. They are all looking towards the center woman, who appears to be speaking. The background is a dark studio set with blue lighting and a grid pattern. A small table with two black mugs is in the foreground.

The **innovations of the Voyager mission** was the centerpiece throughout the day.

1  
00:00:13,270 --> 00:00:10,790

[Music]

2  
00:00:15,669 --> 00:00:13,280

it brings together what makes things

3  
00:00:16,790 --> 00:00:15,679

great innovative engineering designing

4  
00:00:18,470 --> 00:00:16,800

something that never been designed

5  
00:00:20,470 --> 00:00:18,480

before which becomes a template for

6  
00:00:22,470 --> 00:00:20,480

future missions breathtaking science

7  
00:00:24,310 --> 00:00:22,480

which shows us things time after time

8  
00:00:25,830 --> 00:00:24,320

that we didn't know we're there and

9  
00:00:28,720 --> 00:00:25,840

they're not just trivial things they're

10  
00:00:30,310 --> 00:00:28,730

really fundamental things

11  
00:00:32,389 --> 00:00:30,320

[Music]

12  
00:00:33,990 --> 00:00:32,399

if you just fly past this planet you

13  
00:00:35,830 --> 00:00:34,000

will gain or lose energy depending on

14

00:00:38,030 --> 00:00:35,840

which way you pass so i knew it would

15

00:00:41,110 --> 00:00:38,040

work everybody knew it would work

16

00:00:43,670 --> 00:00:41,120

[Music]

17

00:00:46,150 --> 00:00:43,680

it's just changed and created a legacy

18

00:00:48,710 --> 00:00:46,160

of discovery now for many future

19

00:00:53,350 --> 00:00:48,720

missions to the outer planets

20

00:00:55,830 --> 00:00:53,360

[Music]

21

00:00:58,229 --> 00:00:55,840

we're dreaming even bigger we want to go

22

00:01:00,310 --> 00:00:58,239

farther we want to go faster and we're

23

00:01:02,470 --> 00:01:00,320

inventing these technologies because

24

00:01:07,200 --> 00:01:02,480

we're dreaming of course about possibly
