

The Bigelow Expandable Activity Module (BEAM) is a technology demonstration to study **new ways to transport and deploy habitats in space.**

1
00:00:00,100 --> 00:00:01,780
[ambient music with beats playing]

2
00:00:57,480 --> 00:00:58,760
[music fading out]
