

1

00:00:04,279 --> 00:00:07,650

It is great to be back at Americas Space Coast...

2

00:00:07,650 --> 00:00:16,059

At this historic place with the men and women
of the John F. Kennedy Space Center...

3

00:00:16,059 --> 00:00:20,960

And its here today in the 21st century that
the modern marvels that launch from these

4

00:00:20,960 --> 00:00:29,070

grounds prove that the public and private
sectors are achieving far more together...

5

00:00:29,070 --> 00:00:31,890

Than we ever have apart.

6

00:00:31,890 --> 00:00:34,559

America businesses are developing new rockets...

7

00:00:34,559 --> 00:00:45,250

Spaceships, satellites that are taking us
further into space than ever before...

8

00:00:45,250 --> 00:00:51,570

And renewing our confidence that we can and
will achieve the impossible once again.

9

00:00:51,570 --> 00:00:56,600

This truth echoes through the history of the
Kennedy Space Center.

10

00:00:56,600 --> 00:01:01,420

Named for a President who challenged the American
people to marshall the best of our, in his

11

00:01:01,420 --> 00:01:07,850

words, energies and skills, to become the

worlds leading spacefaring nation, I know

12

00:01:07,850 --> 00:01:15,500

America will once again astonish the world
with the heights we reach and the wonders

13

00:01:15,500 --> 00:01:16,820

we achieve...

14

00:01:16,820 --> 00:01:21,990

And as these streets of American enterprise
and ingenuity attest, much more than the bridge
