

The logo features the word "APOLLO" in a large, white, stylized font. The letter "O" is replaced by a circular image of the Moon, and the final "O" is replaced by a circular image of the planet Mars. A white swoosh underline passes through the center of the letters. Below "APOLLO" is the number "50" in a large, white, sans-serif font. To the right of "50" is the text "NEXT GIANT LEAP" in a smaller, white, sans-serif font. The entire graphic is set against a dark blue space background with numerous white stars and a nebula-like glow.

NEXT GIANT LEAP

[Music]

2  
00:00:17,830 --> 00:00:15,669

this is mission control

3  
00:00:19,910 --> 00:00:17,840

national symphony orchestra you have

4  
00:00:20,790 --> 00:00:19,920

permission to launch

5  
00:00:22,550 --> 00:00:20,800

10

6  
00:00:23,429 --> 00:00:22,560

9 8

7  
00:00:24,390 --> 00:00:23,439

7

8  
00:00:25,429 --> 00:00:24,400

6

9  
00:00:26,310 --> 00:00:25,439

5

10  
00:00:27,349 --> 00:00:26,320

4

11  
00:00:28,310 --> 00:00:27,359

3

12  
00:00:29,910 --> 00:00:28,320

2

13  
00:00:36,389 --> 00:00:29,920

1

14

00:00:41,990 --> 00:00:38,950

nasa has blazed a trail

15

00:00:44,709 --> 00:00:42,000

and it has transformed all of our lives

16

00:00:46,950 --> 00:00:44,719

by blazing that trail the way we

17

00:00:48,869 --> 00:00:46,960

communicate the way we navigate the way

18

00:00:51,670 --> 00:00:48,879

we produce food the way we produce

19

00:00:53,670 --> 00:00:51,680

energy the way we predict weather and

20

00:00:56,229 --> 00:00:53,680

understand the earth all of these

21

00:00:57,990 --> 00:00:56,239

capabilities that in many cases these

22

00:00:59,910 --> 00:00:58,000

capabilities we take for granted as

23

00:01:01,990 --> 00:00:59,920

americans

24

00:01:03,670 --> 00:01:02,000

are available to us because of the trail

25

00:01:05,270 --> 00:01:03,680

that nasa blaze

26

00:01:08,070 --> 00:01:05,280

a lot of the technology that we have

27

00:01:09,750 --> 00:01:08,080

today that a lot of us take for granted

28

00:01:12,789 --> 00:01:09,760

wouldn't have been possible if it wasn't

29

00:01:14,870 --> 00:01:12,799

for a lot of nasa's work um a lot of the

30

00:01:17,510 --> 00:01:14,880

systems that we use today in our cell

31

00:01:18,230 --> 00:01:17,520

phones if it wasn't for a lot of that r

32

00:01:24,070 --> 00:01:18,240

d

33

00:01:26,390 --> 00:01:24,080

whether you're exploring space

34

00:01:28,870 --> 00:01:26,400

or just trying to solve problems

35

00:01:30,789 --> 00:01:28,880

technical problems nasa has

36

00:01:32,120 --> 00:01:30,799

done a lot of that heavy lifting for a

37

00:01:37,350 --> 00:01:32,130

lot of a lot of us

38

00:01:40,390 --> 00:01:38,390

i was going to be a part of this

39

00:01:42,310 --> 00:01:40,400  
celebration for nasa nasa's 60th

40

00:01:46,230 --> 00:01:42,320  
anniversary no matter what because i

41

00:01:48,550 --> 00:01:46,240  
mean i grew up loving loving nasa

42

00:01:50,630 --> 00:01:48,560  
nasa called me and whenever nasa calls

43

00:01:53,749 --> 00:01:50,640  
me i say yes

44

00:01:56,069 --> 00:01:53,759  
to me it seems kind of obvious i think

45

00:01:58,709 --> 00:01:56,079  
space exploration and science is

46

00:02:00,789 --> 00:01:58,719  
something that deeply inspires everybody

47

00:02:02,630 --> 00:02:00,799  
in a world filled with bad things nasa

48

00:02:08,469 --> 00:02:02,640  
was doing things for good and i always

49

00:02:13,750 --> 00:02:11,830  
i'm just a huge fan of nasa in general

50

00:02:15,750 --> 00:02:13,760  
um i think it's the the missions that

51  
00:02:17,430 --> 00:02:15,760  
are happening have happened and continue

52  
00:02:19,589 --> 00:02:17,440  
to happen are uh

53  
00:02:22,390 --> 00:02:19,599  
are kind of poetry that

54  
00:02:23,670 --> 00:02:22,400  
is the the most moving thing we have

55  
00:02:26,710 --> 00:02:23,680  
right now this sort of age of

56  
00:02:31,110 --> 00:02:26,720  
exploration the ideals of nasa peace

57  
00:02:31,120 --> 00:02:35,030  
science

58  
00:02:40,070 --> 00:02:37,589  
courage um

59  
00:02:40,840 --> 00:02:40,080  
these are ideals that we want to

60  
00:02:41,240 --> 00:02:40,850  
celebrate

61  
00:02:46,869 --> 00:02:41,250  
[Applause]

62  
00:02:48,869 --> 00:02:46,879  
[Music]

63  
00:02:51,910 --> 00:02:48,879

in the next six years i see nasa

64

00:02:53,830 --> 00:02:51,920

experiencing an explosion of creativity

65

00:02:56,229 --> 00:02:53,840

from the young people i would love to

66

00:02:58,550 --> 00:02:56,239

see them go to mars i would love to see

67

00:03:01,110 --> 00:02:58,560

a person walk on mars

68

00:03:03,190 --> 00:03:01,120

i think that would be

69

00:03:04,869 --> 00:03:03,200

amazing because when you talk to anyone

70

00:03:06,710 --> 00:03:04,879

in the world who was around when they

71

00:03:08,070 --> 00:03:06,720

landed on the moon

72

00:03:11,430 --> 00:03:08,080

the thing you hear that is the common

73

00:03:14,710 --> 00:03:11,440

thread is the world stopped everyone

74

00:03:16,790 --> 00:03:14,720

just came to a complete standstill for

75

00:03:20,550 --> 00:03:16,800

one moment to realize that we're all

76

00:03:22,390 --> 00:03:20,560

just this one blue planet

77

00:03:24,470 --> 00:03:22,400

i want us all together

78

00:03:26,710 --> 00:03:24,480

to also look to the future

79

00:03:29,430 --> 00:03:26,720

because we have a plan to send humans

80

00:03:31,190 --> 00:03:29,440

back to the moon and then on to mars

81

00:03:33,509 --> 00:03:31,200

we have the most amazing rocket

82

00:03:35,589 --> 00:03:33,519

designers on the planet building the

83

00:03:37,910 --> 00:03:35,599

systems right now that are going to take

84

00:03:40,390 --> 00:03:37,920

humans farther into the solar system

85

00:03:41,750 --> 00:03:40,400

than ever before

86

00:03:43,430 --> 00:03:41,760

scott and i heard it was your birthday

87

00:03:47,670 --> 00:03:43,440

so we thought we'd sing a little song

88

00:03:51,670 --> 00:03:47,680

ready three two one

89

00:03:55,190 --> 00:03:51,680

happy birthday to you hi i'm wishing

90

00:03:57,910 --> 00:03:55,200

nasa a very happy 60th anniversary happy

91

00:03:59,509 --> 00:03:57,920

60th anniversary happy 60th anniversary

92

00:04:01,990 --> 00:03:59,519

to nasa i want to wish you a happy

93

00:04:03,429 --> 00:04:02,000

birthday happy 60th anniversary and

94

00:04:04,869 --> 00:04:03,439

thank you for all of the endless

95

00:04:16,310 --> 00:04:04,879

inspiration you've given me over the

96

00:04:20,150 --> 00:04:18,310

tonight is my pleasure to share with you

97

00:04:24,300 --> 00:04:20,160

the official logo that will be used to

98

00:04:27,370 --> 00:04:24,310

observe these milestone anniversaries

99

00:04:33,909 --> 00:04:27,380
