

1
00:00:02,456 --> 00:00:05,240
(bright, shining musical note)

2
00:00:05,240 --> 00:00:07,824
- [Controller] Ignition sequence start.

3
00:00:07,824 --> 00:00:10,900
- [Controller 2] Roger.
All engines are running.

4
00:00:10,900 --> 00:00:13,380
- [Narrator] We have
taken tremendous steps.

5
00:00:13,380 --> 00:00:17,600
- We choose to go to the Moon,
before this decade is out.

6
00:00:17,600 --> 00:00:20,260
- [Narrator] We have
achieved the earth-shaking,

7
00:00:20,260 --> 00:00:22,910
the breathtaking, the groundbreaking.

8
00:00:22,910 --> 00:00:25,030
- [Astronaut] One small step for man.

9
00:00:25,030 --> 00:00:27,220
- [Narrator] And left
a mark in the heavens.

10
00:00:27,220 --> 00:00:30,252
Our successes build one upon another,

11
00:00:30,252 --> 00:00:33,201
and amplify what is possible.

12

00:00:33,201 --> 00:00:34,477
- [Announcer] The dawn of Orion.

13

00:00:34,477 --> 00:00:37,283
- [Narrator] It's time we
take the next great leap.

14

00:00:38,680 --> 00:00:42,330
We're building the next chapter
of American exploration,

15

00:00:42,330 --> 00:00:45,610
returning to the Moon, to stay.

16

00:00:45,610 --> 00:00:48,930
So we can go beyond, to Mars.

17

00:00:48,930 --> 00:00:52,473
To expand what's possible,
and further our understanding.

18

00:00:55,100 --> 00:00:58,940
The architecture for these
missions is already taking shape.

19

00:00:58,940 --> 00:01:02,820
We will go with new systems, bold designs,

20

00:01:02,820 --> 00:01:04,920
and a sustainable mission.

21

00:01:04,920 --> 00:01:07,700
You can hear it, taste it, touch it.

22

00:01:07,700 --> 00:01:09,273
We are going.

23

00:01:10,290 --> 00:01:13,230
We are training, testing, pressing,

24

00:01:13,230 --> 00:01:16,380

our pioneering spirit
into every component.

25

00:01:16,380 --> 00:01:19,910

Defining our resolve
with every line of code.

26

00:01:19,910 --> 00:01:23,953

And securing our success with
every welcomed partnership.

27

00:01:25,330 --> 00:01:27,490

This is not hypothetical.

28

00:01:27,490 --> 00:01:30,640

This is not about flags and footprints.

29

00:01:30,640 --> 00:01:33,350

This is about sustainable science,

30

00:01:33,350 --> 00:01:37,353

and feeding forward the
advance of the human spirit.

31

00:01:38,380 --> 00:01:42,460

Because we are the
pioneers, the star-sailors,

32

00:01:42,460 --> 00:01:46,390

the thinkers, the visionaries, the doers.

33

00:01:46,390 --> 00:01:49,660

And because we stand on
the shoulders of giants,

34

00:01:49,660 --> 00:01:52,783

to go farther than humanity has ever been.

35

00:01:53,680 --> 00:01:55,864

We will add our names to the rolls

36

00:01:55,864 --> 00:01:59,133

of the greatest adventurers in history.

37

00:02:00,340 --> 00:02:05,276

Every day, every mission,
we advance this calling.

38

00:02:06,970 --> 00:02:09,786

WE. ARE. NASA.
