Expedition 57

Europe

1
00:00:01,700 --> 00:00:05,240
Hello down there on the good Earth and

2
00:00:05,240 --> 00:00:06,440
all the best from the International

3
00:00:06,440 --> 00:00:08,120
Space Station

4
00:00:08,280 --> 00:00:10,050
I am expedition 57 commander Alexander

5
00:00:10,050 --> 00:00:12,940
Gerst and next to me we have Serena

6
00:00:12,940 --> 00:00:15,700
Auñón-Chancellor, Flight Engineer from NASA.

7
00:00:16,480 --> 00:00:18,320
Today is a special day, especially

8
00:00:18,320 --> 00:00:21,920
for me because I've already had the

9
00:00:21,920 --> 00:00:23,840
honor several times in my life to spend

10
00:00:23,840 --> 00:00:25,700
a Thanksgiving together with an American

11
00:00:25,820 --> 00:00:28,100
which always makes it an especially

12
00:00:28,100 --> 00:00:32,120
great experience. So tonight we will have

13
00:00:32,160 --> 00:00:34,580

a Thanksgiving dinner up here on the

14

00:00:34,580 --> 00:00:36,180

International Space Station, covering

15

00:00:36,180 --> 00:00:37,160

three continents together with our

16

00:00:37,160 --> 00:00:39,640

Russian colleague Sergei Prokofiev. And

17

00:00:40,280 --> 00:00:42,660

this is our turkey.

18

00:00:45,900 --> 00:00:47,940

Like Alex said, this is what we're gonna be enjoying this

19

00:00:47,940 --> 00:00:50,580

evening we've got everything from turkey

20

00:00:50,620 --> 00:00:52,880

to candied yams to stuffing to special

21

00:00:52,880 --> 00:00:55,680

spicy pound cakes. We're very excited.

22

00:00:55,680 --> 00:00:58,560

Thanksgiving is a time to spend with

23

00:00:58,560 --> 00:01:00,100

those whom you love, whomever that might

24

00:01:00,200 --> 00:01:01,940

be and so we'll be enjoying this meal

25

00:01:01,940 --> 00:01:04,540

together but then also calling our loved

26

00:01:04,660 --> 00:01:06,960

ones back on planet Earth.

27

00:01:07,020 --> 00:01:09,020

And so we hope that whether you are at

28

00:01:09,160 --> 00:01:11,460

home or deployed around the globe that

29

00:01:11,460 --> 00:01:14,740

you were able to find some time to spend

30

00:01:14,740 --> 00:01:16,600

with friends and or
