

1

00:00:02,000 --> 00:00:06,270

My sixth grade science teacher, he took us there on a field trip the Kansas

2

00:00:06,270 --> 00:00:09,660

Cosmosphere and Space Center. And that was it. From that day forward, I wanted

3

00:00:09,660 --> 00:00:15,650

to work for NASA. I realized, whoah, I can combine my two loves of microbiology and

4

00:00:15,650 --> 00:00:22,470

NASA. It's like being a detective.

We keep astronauts and the International

5

00:00:22,470 --> 00:00:27,539

Space Station - we make sure they're relatively microbially clean. My team

6

00:00:27,539 --> 00:00:33,270

was the first to ever identify some of those microbes on ISS. Science, technology

7

00:00:33,270 --> 00:00:37,200

engineering and math. You don't have to be good at all of them. Find out what it is
