

1
00:00:00,299 --> 00:00:04,830

That was my recommendation. And actually, so Nick and I went out the door a couple -

2
00:00:04,830 --> 00:00:09,179

last week and did a spacewalk. And at the time, the suit that I was wearing

3
00:00:09,179 --> 00:00:14,070

it fit perfectly. I was very happy in it and Nick was happy in the suit he was

4
00:00:14,070 --> 00:00:17,789

wearing. We didn't want to make any changes. And so I was planning on

5
00:00:17,789 --> 00:00:21,900

changing sizes on the second suit. And because everything went so well on the

6
00:00:21,900 --> 00:00:25,439

first one, we realized, you know, hey - we don't need to inject any additional

7
00:00:25,439 --> 00:00:29,730

unknowns into something that is as important and can be as dangerous as a

8
00:00:29,730 --> 00:00:34,559

spacewalk. It's very important that all of us are on able to work as efficiently

9
00:00:34,559 --> 00:00:40,050

and safely as possible. And so Nick and I swapped. So he was scheduled to go out

10
00:00:40,050 --> 00:00:44,460

the door next week and instead he and Christina went out on Friday. They did an

11

00:00:44,460 --> 00:00:47,460

amazing job. They were absolutely the
right team for the job and I'll be
