

DON'T MISS 2019's
GEMINID METEOR
SHOWER

1
00:00:00,180 --> 00:00:04,020

Are you ready for a bright and brilliant cosmic show?

2
00:00:04,020 --> 00:00:08,160

Don't miss 2019's Geminid meteor shower,

3
00:00:08,160 --> 00:00:12,660

one of the most prolific and reliable
meteor showers of the year.

4
00:00:12,660 --> 00:00:17,180

You'll be able to see around 20-30 meteors per hour

5
00:00:21,220 --> 00:00:24,980

despite a nearly full Moon in the night sky.

6
00:00:24,980 --> 00:00:27,280

The best time to watch will be 2 a.m.
on Dec. 14th in your time zone.

7
00:00:27,280 --> 00:00:32,460

But you could see shooting stars as early
as 9 p.m. on Dec 13th.

8
00:00:32,460 --> 00:00:36,800

Don't miss out on one of the most spectacular
meteor showers of the year.
