

1
00:00:03,160 --> 00:00:05,140
[violin music]

2
00:00:05,140 --> 00:00:07,240
Artemis: by Lindsey Stirling

3
00:00:21,060 --> 00:00:24,780
NASA's Artemis program will land the first woman and next man on the Moon

4
00:00:37,200 --> 00:00:40,220
The Space Launch System is NASA's first deep space rocket since Saturn V

5
00:00:43,800 --> 00:00:47,520
Artemis is the Greek goddess of the Moon and the twin sister of Apollo

6
00:00:53,160 --> 00:00:55,720
[violin music with electronic beats]

7
00:00:56,880 --> 00:01:01,580
NASA will use what they learn on the Moon to take the next giant leap - sending astronauts to Mars

8
00:01:03,100 --> 00:01:07,320
NASA's first female Launch Director, Charlie Blackwell-Thompson, will give the Go for launch for Artemis I

9
00:01:12,340 --> 00:01:17,420
NASA astronaut Peggy Whitson was the first woman to command the International Space Station

10
00:01:21,240 --> 00:01:24,960
NASA currently has 16 female astronauts who could be assigned to Artemis missions

11
00:01:33,720 --> 00:01:38,760
In June 1983, NASA astronaut Sally Ride became the first U.S. woman in space

12
00:01:56,040 --> 00:02:00,660
In 1992, astronaut Mae Jemison became the first African-American woman in space
