

APOLLO 13:
HOME SAFE

Premieres Friday,
April 10, 8 p.m. EDT

1
00:00:00,000 --> 00:00:07,260

It was plagued by bad omens and bad luck from the very beginning.

2
00:00:07,640 --> 00:00:12,660

13, we have one more item for you when you get a chance - we'd like you to stir up your cryotanks.

3
00:00:13,000 --> 00:00:15,260

It never really converged to the point

4
00:00:15,260 --> 00:00:19,960

where you felt you really had total control of what was going on.

5
00:00:19,960 --> 00:00:22,280

Houston, we've had a problem here.
