

NASA ASTRONAUT CHRIS
CASSIDY COMMEMORATES
THE 50TH EARTH DAY
FROM THE SPACE STATION

1
00:00:00,335 --> 00:00:02,845
Hello everybody, I'm astronaut Chris Cassidy on board

2
00:00:02,845 --> 00:00:04,395
the International Space Station.

3
00:00:04,400 --> 00:00:06,360
Happy 50th Earth Day!

4
00:00:06,600 --> 00:00:09,180
(music)

5
00:00:09,205 --> 00:00:10,565
Earth Day, to me,

6
00:00:10,925 --> 00:00:13,465
is a time when it's very appropriate

7
00:00:13,465 --> 00:00:16,425
and applicable to reflect on

8
00:00:16,425 --> 00:00:18,965
how important Earth is to all of us.

9
00:00:18,965 --> 00:00:20,005
What does that mean to me?

10
00:00:20,955 --> 00:00:23,205
To me, it means Earth is our home.

11
00:00:23,205 --> 00:00:25,795
Earth is a spaceship for all of us.

12
00:00:25,795 --> 00:00:27,945
We're all astronauts on board that same ship.

13
00:00:28,465 --> 00:00:30,015

We need to take care of it.

14

00:00:31,085 --> 00:00:33,865

Like Anatoli, Ivan and myself, we're taking care of

15

00:00:33,865 --> 00:00:36,985

the International Space Station right now and if we don't do our job,

16

00:00:36,985 --> 00:00:40,305

the mechanical equipment won't work well

17

00:00:40,720 --> 00:00:43,820

and we could do damage to the space station, just like

18

00:00:44,240 --> 00:00:48,500

all of the people on Earth need to do their job, do their part, to keep Earth healthy.

19

00:00:49,735 --> 00:00:52,785

Simply put, it's a time to reflect on what you can do
