

A photograph of a Space Shuttle launching from a launch pad. The shuttle is ascending vertically, leaving a large plume of white smoke and a bright orange and yellow fire at its base. The launch pad structure is visible in the foreground. Overlaid on the image is a graphic consisting of a pair of grey wings with white stripes, three blue stars, and two horizontal blue lines. The text "LAUNCH AMERICA" is written in large, bold, red capital letters across the center of the image, positioned between the two blue lines.
