

WE PERSEVERE

1
00:00:00,140 --> 00:00:02,820
We are a species of explorers.

2
00:00:04,460 --> 00:00:05,400
Believers.

3
00:00:05,400 --> 00:00:07,420
[President John F. Kennedy] "We choose to go to the Moon

4
00:00:07,620 --> 00:00:09,660
in this decade and do the other things,

5
00:00:09,660 --> 00:00:12,880
not because they are easy, but because they are hard."

6
00:00:13,060 --> 00:00:15,620
We are willing to do the hard things

7
00:00:15,860 --> 00:00:18,320
to overcome the many challenges.

8
00:00:18,700 --> 00:00:21,000
This is what brings out the best in us.

9
00:00:21,000 --> 00:00:22,560
[Voiceover: We are go for a mission to the Moon]

10
00:00:23,140 --> 00:00:26,920
Our path has led to success, and to bitter losses.

11
00:00:27,360 --> 00:00:31,140
[President Ronald Reagan] "We come together today to mourn the loss of seven brave Americans."

12
00:00:31,140 --> 00:00:36,320
Yet, even when faced with tragedy and setbacks...

13
00:00:37,040 --> 00:00:38,700

We persevere.

14

00:00:39,560 --> 00:00:40,340

We keep striving.

15

00:00:41,140 --> 00:00:42,600

[Sounds of a rocket launch]

16

00:00:42,600 --> 00:00:44,600

We keep believing.

17

00:00:45,240 --> 00:00:47,120

From space, we see our planet

18

00:00:47,120 --> 00:00:48,540

as a whole.

19

00:00:49,280 --> 00:00:54,580

We see the challenges facing
it and we face those challenges, together.

20

00:00:55,520 --> 00:00:57,740

We will not give up.

21

00:00:57,840 --> 00:01:00,300

We challenge convention.

22

00:01:00,300 --> 00:01:02,140

We refuse to accept the status quo.

23

00:01:03,440 --> 00:01:05,640

The time at hand is hard.

24

00:01:06,240 --> 00:01:07,880

But we will persevere.

25

00:01:08,280 --> 00:01:09,300

We can still draw

26

00:01:09,300 --> 00:01:12,040

hope from the Moon and the stars.

27

00:01:12,720 --> 00:01:14,400

From space.

28

00:01:14,400 --> 00:01:16,140

From exploration.

29

00:01:16,580 --> 00:01:17,080

There is a

30

00:01:17,080 --> 00:01:21,560

new day beyond the challenges we face
now.

31

00:01:21,820 --> 00:01:25,800

[Alex Mather] "Curiosity, InSight, Spirit, Opportunity.

32

00:01:25,800 --> 00:01:30,060

If you think about it, all of these names of
past Mars rovers are qualities

33

00:01:30,160 --> 00:01:30,660

we possess as humans."

34

00:01:32,280 --> 00:01:35,760

[Voiceover: 10...9... we have ignition sequence start]

35

00:01:36,140 --> 00:01:39,300

[Alex Mather] "But if rovers are to be the qualities of us as a race

36

00:01:40,080 --> 00:01:42,400

We missed the most important
thing.

37

00:01:42,700 --> 00:01:43,820

Perseverance."

38

00:01:45,160 --> 00:01:49,060

[Voiceover] Launch commence. Liftoff! We have liftoff!

39

00:01:49,800 --> 00:01:54,780

We are a species of explorers.

40

00:01:57,260 --> 00:02:01,080

We will meet many obstacles on our way
to Mars.

41

00:02:03,840 --> 00:02:04,720

But as humans

42

00:02:06,580 --> 00:02:09,340

We will not give up.

43

00:02:10,960 --> 00:02:12,840

We will always
