

**BOB & DOUG
COME HOME**

1

00:00:03,620 --> 00:00:06,879

As I look back on the the mission that we've had here

2

00:00:06,879 --> 00:00:10,559

on the International Space Station,
I'm proud to have been a part of much of

3

00:00:10,559 --> 00:00:13,679

the science activities that happened over the last

4

00:00:13,680 --> 00:00:14,420

two months.

5

00:00:14,420 --> 00:00:15,780

The view is always amazing

6

00:00:15,780 --> 00:00:17,520

I didn't think I would do another

7

00:00:17,520 --> 00:00:20,720

spacewalk and to now have the chance to have done

8

00:00:20,720 --> 00:00:23,840

four more was just icing on the cake for a

9

00:00:23,840 --> 00:00:24,900

a wonderful mission.

10

00:00:24,900 --> 00:00:26,900

Does the 10th one feel like the first one?

11

00:00:26,960 --> 00:00:30,160

No, a little more comfortable on the tenth one.

12

00:00:30,160 --> 00:00:33,300

It's hard to put into words

13

00:00:33,420 --> 00:00:38,480
just what it was like to be a part of
this expedition, expedition 63. It'll be

14
00:00:38,480 --> 00:00:40,399
kind of a memory that will last a

15
00:00:40,400 --> 00:00:43,260
lifetime for me. It's been a true honor.

16
00:00:43,260 --> 00:00:44,800
Dragon SpaceX

17
00:00:44,800 --> 00:00:48,160
undock sequence commanded. Thrusters
looking good.

18
00:00:48,160 --> 00:00:50,440
The hardest part was getting us launched,

19
00:00:50,440 --> 00:00:53,080
but the most important part is bringing us home.

20
00:00:56,040 --> 00:00:59,180
Rise and shine Daddy. We love you.

21
00:00:59,540 --> 00:01:03,160
Hurry home so we can go get my dog.

22
00:01:06,040 --> 00:01:07,920
Splashdown!

23
00:01:07,920 --> 00:01:11,200
Welcome back to planet Earth and thanks for flying SpaceX.

24
00:01:11,200 --> 00:01:12,940
It's truly our honor and privilege.
