

NASA'S SPACEX

CREW-1

1  
00:00:00,001 --> 00:00:05,013  
3, 2, 1, 0, ignition.

2  
00:00:05,013 --> 00:00:08,011  
America has launched!

3  
00:00:08,011 --> 00:00:15,005  
So rises a new era of American spaceflight, and with it the ambitions of a new generation continuing to dream.

4  
00:00:15,005 --> 00:00:18,002  
We're already counting down the days until Crew-1.

5  
00:00:18,002 --> 00:00:21,017  
That'll be the first operational flight in a Crew Dragon spacecraft.

6  
00:00:21,017 --> 00:00:27,012  
Mike Hopkins, Victor Glover, Shannon Walker, and JAXA astronaut Soichi Noguchi

7  
00:00:27,012 --> 00:00:33,007  
are to be the first multinational crew to fly in this new, capable vehicle.

8  
00:00:33,007 --> 00:00:38,003  
This mission marks the return of a full crew complement to the International Space Station
