

1
00:00:00,000 --> 00:00:10,986
10... 9... 8... 7... 6... 5... 4... 3... 2... 1... 0.

2
00:00:11,072 --> 00:00:13,197
Ignition Liftoff

3
00:00:17,156 --> 00:00:26,689
And Resilience rises. Not even gravity contains humanity when we explore as one, for all.

4
00:00:36,675 --> 00:00:31,674
Stage 1 propulsion is nominal.

5
00:00:42,321 --> 00:00:49,310
30 seconds into this historic mission flying crew on board Dragon and Falcon 9

6
00:00:50,701 --> 00:00:54,695
Stage 1 is preparing to throttle down

7
00:00:54,695 --> 00:00:58,696
in preparation for max q, which is maximum aerodynamic pressure

8
00:00:58,696 --> 00:00:59,362
Stage 1 throttle down

9
00:01:00,363 --> 00:01:02,030
There's that call out for throttle down

10
00:01:03,697 --> 00:01:10,681
Power and telemetry continue to be nominal for the vehicle now traveling at 262 meters per second

11
00:01:20,650 --> 00:01:14,449
Falcon 9 is supersonic

12
00:01:20,650 --> 00:01:22,650
the largest structural load during ascent.
