

1

00:00:01,152 --> 00:00:05,158

We're going to the Moon to explore and we're going to the Moon for scientific discovery.

2

00:00:07,152 --> 00:00:10,313

Our destiny is always to go and see what's further and what's next.

3

00:00:11,203 --> 00:00:15,892

The Moon is a stepping stone and the Moon is a place we need to learn how to live so we can continue to go b

4

00:00:19,395 --> 00:00:21,395

We are focused.

5

00:00:22,064 --> 00:00:24,779

We are focused on all that lies before us.

6

00:00:25,320 --> 00:00:28,852

Only together will we bring to life this global edition of returning to the Moon.

7

00:00:29,579 --> 00:00:36,063

And while our work is far from finished, we've never been closer to seeing a new generation step beyond our h

8

00:00:38,490 --> 00:00:40,490

We're building on the achievements of those who came before.

9

00:00:41,623 --> 00:00:45,091

The giants who conquered gravity and raised a banner in the heavens

10

00:00:45,325 --> 00:00:47,325

They beckon us to go farther.

11

00:00:49,044 --> 00:00:51,044

To the Moon and onto Mars.

12

00:00:51,608 --> 00:00:55,661

To seek a deeper understanding of our universe and bring all that we learn home.

13

00:00:56,914 --> 00:01:04,875

2020 of unpredictable hardships and yet step by step, we resolved, pressed forward toward this grand vision.

14

00:01:06,321 --> 00:01:13,801

The daily efforts of thousands of suppliers from all across this country and around the world fed into stunning m

15

00:01:14,541 --> 00:01:16,541

And laid the groundwork for history.

16

00:01:19,507 --> 00:01:21,507

Launch team, go.

17

00:01:24,954 --> 00:01:30,000

Artemis has been woven into our culture. It has fostered collaboration across aisles and across the ponds.

18

00:01:30,253 --> 00:01:34,194

It has grown beyond plans and preparations to include hardware and software.

19

00:01:35,907 --> 00:01:37,907

And now it has a heartbeat.

20

00:01:45,569 --> 00:01:47,569

You can feel the momentum, it is undeniable.

21

00:01:49,723 --> 00:01:54,000

We are going. And together we will see Artemis light the way.

22

00:01:55,864 --> 00:01:57,864

Our mission to the Moon is no longer some far-fetched dream, this is reality.

23

00:01:59,676 --> 00:02:01,676

We are going. This is the next step in evolution.

24

00:02:02,672 --> 00:02:09,057

They're not just powerpoint slides, there is actually metal being bent and shaped and formed to build the things

25

00:02:09,618 --> 00:02:13,234

This is real, this is going to happen, we're going.

26

00:02:13,724 --> 00:02:15,724

We're going to the Moon to learn how to live on other planets.
