

NASA'S
100
DAYS

1
00:00:00,000 --> 00:00:01,835
NASA's 100 days

2
00:00:01,835 --> 00:00:03,170
Exploration

3
00:00:05,004 --> 00:00:07,006
Innovation

4
00:00:08,007 --> 00:00:09,275
Climate

5
00:00:10,008 --> 00:00:11,343
Equity

6
00:00:12,677 --> 00:00:14,178
Inspiration

7
00:00:14,178 --> 00:00:19,016
Touchdown confirmed! Perseverance safely on the surface of Mars.

8
00:00:19,016 --> 00:00:22,685
We have arrived! Perseverance arrived!

9
00:00:23,352 --> 00:00:31,025
I'm so proud of you guys. I watched it with bated breath like millions of other people around the world.

10
00:00:31,692 --> 00:00:36,029
That's the rover. That is the rover and I'm here with it right now.

11
00:00:37,030 --> 00:00:49,340
It's a legacy of ambition and bravery, and one of equity, kindness, generosity, mentorship, and belief in our nation.

12
00:00:49,673 --> 00:00:58,847
You are inspiring us and you are reminding us of what is possible when we dream big and when we think big.

13
00:00:58,847 --> 00:01:05,853

Through the Artemis program, the United States government will work with industry and international partners t

14

00:01:07,020 --> 00:01:10,356

Stacking our twin Space Launch System rocket boosters

15

00:01:13,359 --> 00:01:16,862

Testing the core stage for the Space Launch System rocket

16

00:01:20,031 --> 00:01:24,001

NASA has chosen SpaceX to return us to the Moon.

17

00:01:25,001 --> 00:01:34,009

Altimeter data confirms that Ingenuity has performed its first flight of a powered aircraft on another planet!

18

00:01:34,342 --> 00:01:36,344

Get to the choppa!

19

00:01:39,013 --> 00:01:42,682

Perseverance's MOXIE instrument extracted the first oxygen from the Red Planet

20

00:01:45,017 --> 00:01:48,353

We made addressing climate change a priority

21

00:01:49,521 --> 00:01:53,691

Shawn, we have you loud and clear. Welcome to the International Space Station!

22

00:01:53,691 --> 00:01:55,812

This is really, really spectacular.

23

00:01:57,360 --> 00:02:00,863

Established a senior climate advisor position

24

00:02:02,031 --> 00:02:03,365

And liftoff!

25

00:02:03,365 --> 00:02:11,839

Endeavor launches once again! Four astronauts from three countries on Crew-2. Now making their way to the

26

00:02:13,340 --> 00:02:16,676

And the Artemis I core stage arrived at Kennedy Space Center

27

00:02:19,678 --> 00:02:29,019

I had a group of folks in my office not too long ago, and I have in a shelf in my Oval Office a Moon rock.
