

1
00:00:00,501 --> 00:00:02,669

Welcome aboard the International Space Station.

2
00:00:02,669 --> 00:00:07,340

I'm NASA astronaut Shane Kimbrough, along with my crew mate, NASA astronaut Megan McArthur.

3
00:00:07,840 --> 00:00:09,842

This has been an extraordinary year.

4
00:00:09,842 --> 00:00:16,180

And we appreciate the support we've received from the President and the Vice President during their first 100 days.

5
00:00:16,680 --> 00:00:19,683

We want to go to the Moon, to Mars and beyond.

6
00:00:19,683 --> 00:00:24,353

But to do that, we're going to need a lot of help from a new generation of explorers.

7
00:00:24,353 --> 00:00:31,358

Teachers across the country have worked around the clock to move their instruction online, and are now moving back to the classroom.

8
00:00:31,358 --> 00:00:39,198

Each of us can probably point to one or two teachers who inspired us while we were in school – I know I can – and we need to support them.

9
00:00:39,698 --> 00:00:42,033

Our future in space starts in the classroom.
