

A large white SpaceX Dragon cargo capsule is being mated to a Mobile Launcher Platform (MLP) in a large industrial facility. The MLP is a large, white, rectangular structure with a complex metal framework. The Dragon capsule is suspended from the MLP by a series of metal arms and brackets. The scene is set in a large, open industrial building with a high ceiling and a blue sky visible through the open bay doors. The word "SPACEX" is visible on the side of the Dragon capsule. In the background, several people can be seen working on the MLP, and a white van is parked on the right side. The overall atmosphere is one of industrial activity and preparation for a space mission.

SCIENCE LAUNCHING ON SPACEX'S 22ND CARGO RESUPPLY MISSION TO THE SPACE STATION
