

1
00:00:14,650 --> 00:00:15,650
Venus.

2
00:00:15,650 --> 00:00:16,650
Hot, hellish, unforgiving.

3
00:00:16,650 --> 00:00:17,650
A toxic atmosphere, a sweltering surface.

4
00:00:17,650 --> 00:00:18,650
It's been 30 years since NASA's visited.

5
00:00:18,650 --> 00:00:19,650
Until now.

6
00:00:19,650 --> 00:00:20,650
Now, NASA is sending two bold new missions
To study this inferno-like world

7
00:00:20,650 --> 00:00:21,650
DAVINCI+ and Veritas
DAVINCI+ will analyze the thick, crushing

8
00:00:21,650 --> 00:00:22,650
atmosphere of Venus
And determine whether Venus ever had an ocean

9
00:00:22,650 --> 00:00:23,650
VERITAS will visit Venus to map the planet's
geologic history

10
00:00:23,650 --> 00:00:24,650
Revealing the inner workings of this brutal
world

11
00:00:24,650 --> 00:00:25,650
Together, these two new NASA missions will
help us uncover the clouded truths
