

NASA REMEMBERS

FALLEN HEROES

1
00:00:00,824 --> 00:00:06,006

On Jan. 27, 1967, a fire swept through the Apollo Command Module during a preflight test.

2
00:00:06,006 --> 00:00:11,052

Gus Grissom, Ed White, and Roger Chaffee perished inside.

3
00:00:11,970 --> 00:00:15,974

On this 55th anniversary, NASA remembers the
Apollo 1 crew

4
00:00:15,974 --> 00:00:20,603

and all who lost their lives while furthering the cause of exploration and discovery.

5
00:00:21,271 --> 00:00:23,898

Apollo 1 Jan. 27, 1967

6
00:00:23,898 --> 00:00:29,821

Apollo 1 was with all doubt a terrible tragedy.\h\h

7
00:00:30,739 --> 00:00:33,116

We remember\hthe loss of those lives.

8
00:00:33,116 --> 00:00:34,868

We don't stop our quest.\h\h

9
00:00:34,868 --> 00:00:39,914

We don't stop our mission but we continue to move\h
forward in that mission of scientific discovery.

10
00:00:42,167 --> 00:00:45,128

Challenger Jan.28, 1986

11
00:00:45,712 --> 00:00:50,884

A failed booster joint caused Challenger to break up 73 seconds after liftoff. All seven crew members were lost

12
00:00:50,884 --> 00:00:57,057

We come together today to mourn the loss of\h
seven brave Americans.

13

00:00:57,057 --> 00:00:59,559

To share the grief that we all feel

14

00:00:59,559 --> 00:01:05,231

and perhaps in that sharing, to find the strength to bear our sorrow

15

00:01:05,231 --> 00:01:08,818

and the courage to look for the seeds of hope.

16

00:01:08,818 --> 00:01:11,821

Sometimes when we reach for the stars, we fall short

17

00:01:12,447 --> 00:01:15,784

but we must pick ourselves up again and press on.

18

00:01:15,784 --> 00:01:17,660

We bid you goodbye.

19

00:01:18,411 --> 00:01:19,746

We will never forget you.

20

00:01:20,538 --> 00:01:24,834

Here we have the spacecraft choo-choo train coming down the tunnel

21

00:01:24,834 --> 00:01:29,255

and luckily work is a hole lotta fun up here.

22

00:01:30,465 --> 00:01:35,512

This day has brought terrible news and great sadness to our country.

23

00:01:36,596 --> 00:01:40,266

At nine o'clock this morning Mission Control in Houston

24

00:01:41,184 --> 00:01:44,395

lost contact with our Space Shuttle Columbia.

25

00:01:44,395 --> 00:01:48,108

Mankind has led into the darkness beyond our world\h\h

26

00:01:48,942 --> 00:01:53,321

by the inspiration of discovery and the longing\hto understand.

27

00:01:53,571 --> 00:01:56,950

Our journey into space will go on.\h\h

28

00:01:57,826 --> 00:02:02,122

In the skies today, we saw destruction and tragedy\h\h

29

00:02:02,997 --> 00:02:07,794

yet farther than we can see\h

there's comfort and hope.
