KODAK

1
00:00:03,146 --> 00:00:06,126
Through Artemis, the
twin sister of Apollo,

2
00:00:07,136 --> 00:00:10,156
we are returning to the Moon.

3
00:00:11,276 --> 00:00:13,316
Artemis 1 will be
the first flight test

4
00:00:13,476 --> 00:00:14,566
of each of these components.

5
00:00:18,396 --> 00:00:22,576
United together, this is
the first of Artemis's eras,

6
00:00:23,806 --> 00:00:25,886
capable of ushering
in the next chapter

7
00:00:26,156 --> 00:00:27,836
of human lunar exploration.

8
00:00:29,696 --> 00:00:32,606
With each component playing
its part in a grander effort,

9
00:00:34,116 --> 00:00:37,706
we the people of the
Artemis generation all

10
00:00:37,706 --> 00:00:39,896
around this beautiful
world will bear witness

11
00:00:40,726 --> 00:00:43,446
to what we are capable of.
