

ARTEMIS I

A group of children, likely participants in a space-themed program, are shown in a hallway. They are wearing orange t-shirts with a NASA logo and the text 'Train. Adapt. Survive.' on them. They are also wearing blue lanyards with ID badges. One girl in the center is wearing a pink cap and glasses, looking surprised. The background shows a hallway with lockers and a chain-link fence.

FIRST LOOK

1
00:00:04,490 --> 00:00:05,490

This is really cool.

2
00:00:05,490 --> 00:00:09,760

We've got some children that are on a bus
and they're going to come here to the Vehicle

3
00:00:09,760 --> 00:00:14,179

Assembly Building and the Administrator and
I are going to jump on the bus and surprise

4
00:00:14,179 --> 00:00:15,179

them.

5
00:00:15,179 --> 00:00:22,689

We're going to give them the opportunity to
come in and go up the elevator with the rocket.

6
00:00:22,689 --> 00:00:26,439

Wow, so cool.

7
00:00:26,439 --> 00:00:30,199

Look at thing.

8
00:00:30,199 --> 00:00:33,949

Whoa, t's awesome.

9
00:00:33,949 --> 00:00:39,680

Hey, guys, would you like to see a moon rocket?

10
00:00:39,680 --> 00:00:41,710

Yes!

11
00:00:41,710 --> 00:00:47,119

Because it is the future of our country and
indeed the future of the world.

12
00:00:47,119 --> 00:00:54,379

And we saw what our space program does for science and technology and engineering and

13

00:00:54,379 --> 00:00:55,379

mathematics.

14

00:00:55,379 --> 00:00:57,580

We saw that in the Apollo generation.

15

00:00:57,580 --> 00:01:04,750

All right, guys, what do you think?

16

00:01:04,750 --> 00:01:13,109

What I hope to achieve today is inspiring a new generation.

17

00:01:13,109 --> 00:01:17,619

I mean, the more people that we can get to see up close and personal this rocket.

18

00:01:17,619 --> 00:01:20,509

It's just, it's awe-inspiring.

19

00:01:20,509 --> 00:01:22,170

And I cannot wait till the launch.

20

00:01:22,170 --> 00:01:28,490

When America sees our rocket actually launch on a test flight to the Moon.

21

00:01:28,490 --> 00:01:32,550

You know, it's just going to spark a whole new push for what we are doing.

22

00:01:32,550 --> 00:01:34,259

The best day of my whole life, ever.

23

00:01:34,259 --> 00:01:35,259

It's going to be incredible.

24

00:01:35,259 --> 00:01:36,259

It was a dream come true.

25

00:01:36,259 --> 00:01:37,259

This rocket is definitely going to the moon.

26

00:01:37,259 --> 00:01:41,110

I think it's really amazing.

27

00:01:41,110 --> 00:01:46,439

I was actually really excited because I've never seen a rocket like this close up.

28

00:01:46,439 --> 00:01:48,399

Now we have the Artemis generation.

29

00:01:48,399 --> 00:01:54,909

This is a new generation of us going back to the Moon to learn and live.
