

WHY IS

NASA

SENDING

SNOOPY

TO SPACE?

1
00:00:07,369 --> 00:00:04,130
Artemis is NASA's plan to go back to the

2
00:00:10,430 --> 00:00:07,379
moon and Snoopy is to be the zero

3
00:00:12,830 --> 00:00:10,440
gravity indicator a zero g or zero

4
00:00:14,509 --> 00:00:12,840
gravity indicator demonstrates the

5
00:00:17,870 --> 00:00:14,519
moment that the crew and the spacecraft

6
00:00:20,570 --> 00:00:17,880
reach weightlessness Snoopy is about to

7
00:00:23,330 --> 00:00:20,580
take his first trip around the moon the

8
00:00:26,029 --> 00:00:23,340
relationship with NASA and Snoopy goes

9
00:00:28,250 --> 00:00:26,039
back about 50 years since the Apollo

10
00:00:31,970 --> 00:00:28,260
days he was the face of the safety

11
00:00:34,610 --> 00:00:31,980
campaign the icon for NASA's culture of

12
00:00:37,190 --> 00:00:34,620
safety and Mission success so NASA and

13
00:00:40,910 --> 00:00:37,200

peanuts have a space act agreement and

14

00:00:44,090 --> 00:00:40,920

we collaborate together on stem content

15

00:00:46,250 --> 00:00:44,100

and we really were excited when it was

16

00:00:48,830 --> 00:00:46,260

decided that Snoopy would be the zero

17

00:00:51,290 --> 00:00:48,840

gravity indicator on Artemis one we

18

00:00:53,810 --> 00:00:51,300

wanted to go all out so we created a

19

00:00:56,029 --> 00:00:53,820

custom Snoopy and the spacesuit is

20

00:00:59,090 --> 00:00:56,039

actually made out of material worn by

21

00:01:03,049 --> 00:00:59,100

the NASA astronauts everything was done

22

00:01:07,250 --> 00:01:03,059

with extreme tail they cut patterns for

23

00:01:11,990 --> 00:01:07,260

his suit even how his collar worked and

24

00:01:17,570 --> 00:01:14,270

we're very excited I'm personally very

25

00:01:20,210 --> 00:01:17,580

excited I can't contain the excitement I

26

00:01:22,609 --> 00:01:20,220

am feeling about this day Snoopy is

27

00:01:24,890 --> 00:01:22,619

going farther in space than he's ever

28

00:01:27,610 --> 00:01:24,900

been before this is a day that we've all
