unbelievable

15

00:02:05,920 --> 00:02:00,600

this has got to be one of the most broad

16

00:02:19,790 --> 00:02:17,050

[Music]

17

00:02:20,930 --> 00:02:19,800

completed his first exploration of the

18

00:02:23,750 --> 00:02:20,940

Moon

19

00:02:25,790 --> 00:02:23,760

December 1972

20

00:02:28,790 --> 00:02:25,800

A.D

21

00:02:31,190 --> 00:02:28,800

May the spirit of peace

22

00:02:34,670 --> 00:02:31,200

in which we came

23

00:02:39,830 --> 00:02:34,680

and reflected in the lives of all

24

00:02:43,910 --> 00:02:41,690

when we look back at the Apollo program

25

00:02:46,250 --> 00:02:43,920

I don't think anyone can probably

26

00:02:48,830 --> 00:02:46,260

themselves or publicly say that this

27

00:02:52,009 --> 00:02:48,840

truly indeed has really been a beginning

28

00:02:54,410 --> 00:02:52,019

a beginning of man really first venture

29

00:02:56,750 --> 00:02:54,420

out into deep space and once there's the

30

00:02:58,970 --> 00:02:56,760

beginning there's a continuation a trip

31

00:03:00,949 --> 00:02:58,980

to Mars may not be for 10 years a decade

32

00:03:01,410 --> 00:03:00,959

it may not be until the end of the

33

00:03:16,330 --> 00:03:01,420

century
