democracy and Discovery are the core

56
00:03:06,949 --> 00:03:02,780
cornerstones

57
00:03:09,830 --> 00:03:06,959
of the U.S Japan Alliance

58
00:03:11,089 --> 00:03:09,840
our nations are both space-faring

59
00:03:16,070 --> 00:03:11,099
Nations

60
00:03:17,290 --> 00:03:16,080
poised to unlock the secrets of the

61
00:03:20,509 --> 00:03:17,300
universe

62
00:03:24,070 --> 00:03:20,519
and today we are once again reaffirming

63
00:03:26,990 --> 00:03:24,080

that Japan and the U.S explore openly

64

00:03:30,589 --> 00:03:27,000

explore peacefully

65

00:03:34,190 --> 00:03:30,599

and explore together

66

00:03:36,470 --> 00:03:34,200

and this framework that will be signed

67

00:03:37,670 --> 00:03:36,480

by the Secretary of State and the

68

00:03:41,869 --> 00:03:37,680

69

00:03:45,289 --> 00:03:41,879

this framework deepens our partnership

70

00:03:48,649 --> 00:03:45,299

space unites us

71

00:03:51,470 --> 00:03:48,659

in this era of space exploration every

72

00:03:55,430 --> 00:03:51,480

announcement and advancement

73

00:03:58,910 --> 00:03:55,440

is not an achievement for just a single

74

00:04:00,350 --> 00:03:58,920

country it is a victory for all of

75

00:04:04,070 --> 00:04:00,360

humanity

76
00:04:06,949 --> 00:04:04,080
and that is how the U.S chooses to lead

77
00:04:08,570 --> 00:04:06,959
in this effort with Japan and others in

78
00:04:10,309 --> 00:04:08,580
the 21st century

79
00:04:12,910 --> 00:04:10,319
on Earth

80
00:04:15,830 --> 00:04:12,920
and in the heavens

81
00:04:18,590 --> 00:04:15,840
Deputy Administrator melroy and I are

82
00:04:19,670 --> 00:04:18,600

83
00:04:22,670 --> 00:04:19,680
month

84
00:04:26,870 --> 00:04:22,680
and we are going to be there to grow the

85
00:04:29,870 --> 00:04:26,880
bond between NASA and jaxa

86
00:04:32,810 --> 00:04:29,880
our space programs have storied

87
00:04:36,890 --> 00:04:32,820
histories of barriers overcome

88
00:04:41,390 --> 00:04:36,900

and new worlds understood

89

00:04:42,610 --> 00:04:41,400

and so today we chart a new chapter in a

90

00:04:46,310 --> 00:04:42,620

continuing

91

00:04:47,629 --> 00:04:46,320

adventure together as allies and

92

00:04:50,090 --> 00:04:47,639

partners

foreign

104
00:06:28,610 --> 00:06:25,850
space cooperation has entered a new era

105
00:06:31,010 --> 00:06:28,620
with the Artemis a project and many

106
00:06:33,230 --> 00:06:31,020
projects including lunar activities that

107
00:06:36,050 --> 00:06:33,240
are already in the works by a Japanese

108
00:06:38,210 --> 00:06:36,060
and U.S astronauts but I strongly hope

109
00:06:40,850 --> 00:06:38,220
that this agreement will robustly

110
00:06:43,010 --> 00:06:40,860
promote our space cooperation even

111
00:06:45,469 --> 00:06:43,020

00:08:06,890 --> 00:08:03,900

137

00:08:08,629 --> 00:08:06,900

that I have the honor of working in

00:08:20,029 --> 00:08:18,479

friends from Jackson

144

00:08:22,309 --> 00:08:20,039

um and I realize that I'm actually

145

00:08:25,070 --> 00:08:22,319

sharing this Podium with three people

146

00:08:27,469 --> 00:08:25,080

who've been uh to space the

147

00:08:29,809 --> 00:08:27,479

Hayashi and with our ambassadors as well

151

00:08:40,550 --> 00:08:38,099

this week our governments have been

152

00:08:42,889 --> 00:08:40,560

holding incredibly productive and

153

00:08:44,570 --> 00:08:42,899

wide-ranging meetings that underscore

154

00:08:46,250 --> 00:08:44,580

that on virtually every issue of

155

00:08:48,350 --> 00:08:46,260

consequence to our people in Japan and

156

00:08:49,910 --> 00:08:48,360

the United States alike we are stronger

157

00:08:52,490 --> 00:08:49,920

together

158

00:08:55,130 --> 00:08:52,500

um our bilateral partnership

159

00:08:57,769 --> 00:08:55,140

is among the strongest in the world in

160

00:08:59,329 --> 00:08:57,779

part because we're always adapting it to

161

00:09:01,490 --> 00:08:59,339

meet the evolving challenges of our time

162

00:09:03,410 --> 00:09:01,500

and that's the case on everything from

163

00:09:04,550 --> 00:09:03,420

advancing security and stability in the

164

00:09:06,290 --> 00:09:04,560

indo-pacific

165

00:09:09,110 --> 00:09:06,300

to bolstering our economic and energy

166

00:09:11,449 --> 00:09:09,120

security to defending the rights at the

167

00:09:13,550 --> 00:09:11,459

core of the United Nations Charter

168

00:09:15,230 --> 00:09:13,560

we're also expanding the horizons of our

169

00:09:18,230 --> 00:09:15,240

partnership in a very literal way

170

00:09:19,670 --> 00:09:18,240

through space cooperation and here I

171

00:09:22,070 --> 00:09:19,680

also want to thank vice president Harris

172

00:09:23,810 --> 00:09:22,080

for her leadership as chair of the

173

00:09:26,449 --> 00:09:23,820

National Space Council

174

00:09:29,090 --> 00:09:26,459

for decades now Japan and the United

175

00:09:30,949 --> 00:09:29,100

States have worked together to extend

176

00:09:32,690 --> 00:09:30,959

Humanity's reach in space

177

00:09:34,070 --> 00:09:32,700

we've long collaborated to support the

178

00:09:36,290 --> 00:09:34,080

International Space Station

179

00:09:37,730 --> 00:09:36,300

we were two of the first signatories of

180

00:09:39,769 --> 00:09:37,740

the Artemis Accord the Prime Minister

181

00:09:42,470 --> 00:09:39,779

referred to were Partners in the Artemis

182

00:09:45,170 --> 00:09:42,480

program which will return astronauts to

183

00:09:47,829 --> 00:09:45,180

the lunar surface including the first

184

00:09:50,930 --> 00:09:47,839

woman and the first person of color

185

00:09:52,430 --> 00:09:50,940

we've just signed a new arrangement to

186

00:09:54,790 --> 00:09:52,440

support the lunar Gateway which will

187

00:09:57,410 --> 00:09:54,800

prepare for future emissions to Mars

188

00:10:00,290 --> 00:09:57,420

the framework agreement that we're about

189

00:10:02,329 --> 00:10:00,300

to sign will take our cooperation to new

190

00:10:03,889 --> 00:10:02,339

heights it'll strengthen our partnership

191

00:10:06,650 --> 00:10:03,899

in areas like research on Space

192

00:10:08,750 --> 00:10:06,660

technology and transportation robotic

193

00:10:11,509 --> 00:10:08,760

lunar surface missions climate related

194

00:10:13,490 --> 00:10:11,519

missions and our shared ambition to see

195

00:10:14,750 --> 00:10:13,500

a Japanese astronaut on the lunar

196

00:10:16,550 --> 00:10:14,760

surface

197

00:10:18,730 --> 00:10:16,560

in the last century

198

00:10:20,990 --> 00:10:18,740

the Space Race electrified the world

199

00:10:23,449 --> 00:10:21,000

seizing the imaginations of millions of

200

00:10:25,009 --> 00:10:23,459

people awed by the men and women who

201

00:10:27,190 --> 00:10:25,019

dare to go into the unknown

202

00:10:30,050 --> 00:10:27,200

it inspired generations of scientists

203

00:10:32,030 --> 00:10:30,060

researchers innovators dreamers

204

00:10:34,009 --> 00:10:32,040

and it paved the way for countless

205

00:10:36,590 --> 00:10:34,019

technological advances in computers

206

00:10:38,870 --> 00:10:36,600

satellites GPS camera lenses medical

207

00:10:40,670 --> 00:10:38,880

equipment and so much more

208

00:10:43,490 --> 00:10:40,680

and these advances have improved the

209

00:10:45,710 --> 00:10:43,500

daily lives of people across the planet

210

00:10:48,410 --> 00:10:45,720

now we're entering a new chapter of

211

00:10:49,670 --> 00:10:48,420

space exploration and our Ambitions are

212

00:10:51,290 --> 00:10:49,680

no less soaring than in President

213

00:10:53,210 --> 00:10:51,300

Kennedy's time when he declared his

214

00:10:56,030 --> 00:10:53,220

commitment to Landing a man on the moon

215

00:10:56,990 --> 00:10:56,040

and returning him safely to Earth within

216

00:10:59,449 --> 00:10:57,000

the decade

217

00:11:02,210 --> 00:10:59,459

and our achievements I believe will be

218

00:11:03,650 --> 00:11:02,220

no less impressive or important for the

219

00:11:06,530 --> 00:11:03,660

benefit of humankind

220

00:11:07,970 --> 00:11:06,540

but even more than in the past we will

221

00:11:09,610 --> 00:11:07,980

reach New Frontiers through an approach

222

00:11:11,690 --> 00:11:09,620

that is fundamentally collaborative

223

00:11:13,430 --> 00:11:11,700

we've seen what international space

224

00:11:15,829 --> 00:11:13,440

collaboration can achieve

225

00:11:17,569 --> 00:11:15,839

just in the last two years it put a

226

00:11:19,610 --> 00:11:17,579

Rover on Mars and launched the most

227

00:11:21,410 --> 00:11:19,620

powerful Space Telescope ever the James

228

00:11:24,350 --> 00:11:21,420

Webb Space Telescope

229

00:11:26,690 --> 00:11:24,360

just this week that telescope confirmed

230

00:11:29,150 --> 00:11:26,700

the existence of an exoplanet for the

231

00:11:32,090 --> 00:11:29,160

first time an earth-sized Planet located

232

00:11:34,670 --> 00:11:32,100

41 light years away from us

233

00:11:36,769 --> 00:11:34,680

with Japan our countries will soon make

234

00:11:38,569 --> 00:11:36,779

similar incredible discoveries as we

235

00:11:41,150 --> 00:11:38,579

prepare to send a probe to Mars moons

236

00:11:42,470 --> 00:11:41,160

explore the South Pole of our moon and

237

00:11:44,030 --> 00:11:42,480

more

238

00:11:46,490 --> 00:11:44,040

agreements like the one that we're

239

00:11:48,110 --> 00:11:46,500

signing today help create and strengthen

240

00:11:50,030 --> 00:11:48,120

the Partnerships that aren't the heart

241

00:11:51,470 --> 00:11:50,040

of this extraordinary progress

242

00:11:53,509 --> 00:11:51,480

we need to harness the world's

243

00:11:55,750 --> 00:11:53,519

Collective vision and all of our

244

00:11:58,069 --> 00:11:55,760

strengths to reach these New Horizons

245

00:12:00,590 --> 00:11:58,079

Major General Bill Anders a member of

246

00:12:03,410 --> 00:12:00,600

Apollo 8 the first human spaceflight to

247

00:12:06,410 --> 00:12:03,420

reach the moon said and I quote we came

248

00:12:08,150 --> 00:12:06,420

all this way to explore the moon and the

249

00:12:10,069 --> 00:12:08,160

most important thing is that we

250

00:12:11,870 --> 00:12:10,079

discovered the Earth

251
00:12:13,730 --> 00:12:11,880
he understood that one of space

252
00:12:16,130 --> 00:12:13,740
exploration's greatest Powers may be one

253
00:12:19,130 --> 00:12:16,140
of its greatest gifts is to bind people

254
00:12:22,310 --> 00:12:19,140
together across continents across oceans

255
00:12:25,190 --> 00:12:22,320
in pursuit of knowledge in pursuit of

256
00:12:27,230 --> 00:12:25,200
understanding it's in that spirit that

257
00:12:32,870 --> 00:12:27,240
the United States and Japan take this

258
00:12:36,110 --> 00:12:34,770
foreign

259
00:12:38,090 --> 00:12:36,120
[Applause]

260
00:12:40,310 --> 00:12:38,100
and now for the main event secretary

261
00:12:43,310 --> 00:12:40,320
blanken and Japan's Minister of Foreign

262
00:12:44,629 --> 00:12:43,320
Affairs Hayashi yoshimasa will sign the

263
00:12:46,550 --> 00:12:44,639

framework agreement for the United

264

00:12:48,650 --> 00:12:46,560

States and Japan

265

00:12:50,629 --> 00:12:48,660

for our participants on stage please

266

00:13:10,750 --> 00:12:50,639

rise to join secretary blanken and

267

00:13:10,760 --> 00:13:35,750

thank you

268

00:13:35,760 --> 00:14:39,650

all right

269

00:14:39,660 --> 00:14:42,550

foreign

270

00:14:57,350 --> 00:14:55,550

[Applause]

271

00:15:08,689 --> 00:14:57,360

thank you

272

00:15:08,699 --> 00:15:15,230

next we will hear from Minister Hayashi

273

00:15:17,210 --> 00:15:16,129

thank you

274

00:15:20,269 --> 00:15:17,220

um

275

00:15:22,490 --> 00:15:20,279

it's my own a design this historic

276

00:15:24,769 --> 00:15:22,500

agreement for Japan U.S space

277

00:15:26,150 --> 00:15:24,779

Corporation with my dear friend Tony

278

00:15:29,090 --> 00:15:26,160

here

279

00:15:33,650 --> 00:15:29,100

with exploration and the use of outer

280

00:15:35,389 --> 00:15:33,660

space growing increasingly active the

281

00:15:38,870 --> 00:15:35,399

signing of this agreement

282

00:15:41,750 --> 00:15:38,880

is of extreme significance

283

00:15:45,110 --> 00:15:41,760

I understand that as part of our chemist

284

00:15:47,689 --> 00:15:45,120

program Japan and the US are planning

285

00:15:51,430 --> 00:15:47,699

development of lunar exploration

286

00:15:53,350 --> 00:15:51,440

Vehicles lunar activities by Japanese

287

00:15:56,870 --> 00:15:53,360

and American

288

00:15:59,110 --> 00:15:56,880

astronauts and so on

289

00:16:02,269 --> 00:15:59,120

always the conclusion of this agreement

290

00:16:05,329 --> 00:16:02,279

between our two countries numerous

291

00:16:08,269 --> 00:16:05,339

Cooperative projects including the above

292

00:16:11,210 --> 00:16:08,279

mentioned plans will be conducted

293

00:16:14,030 --> 00:16:11,220

efficiently under this agreement

294

00:16:15,230 --> 00:16:14,040

a sincere hope that Japan U.S space

295

00:16:17,389 --> 00:16:15,240

Corporation

296

00:16:18,829 --> 00:16:17,399

we further deepen based on this

297

00:16:22,490 --> 00:16:18,839

agreement

298

00:16:24,230 --> 00:16:22,500

and it will benefit the future of all

299

00:16:27,470 --> 00:16:24,240

mankind

300

00:16:30,410 --> 00:16:27,480

I anticipate more activities by both

301
00:16:32,090 --> 00:16:30,420
other countries experts working on space

302
00:16:38,590 --> 00:16:32,100
thank you very much

303
00:16:41,569 --> 00:16:38,600
[Applause]

304
00:16:43,670 --> 00:16:41,579
thank you Minister and last but not

305
00:16:46,310 --> 00:16:43,680
least Ambassador Rahm Emanuel the floor

306
00:16:49,189 --> 00:16:46,320
is yours I think

307
00:16:50,749 --> 00:16:49,199
there's a I got this

308
00:16:52,910 --> 00:16:50,759
you know when you're the fifth and final

309
00:16:54,470 --> 00:16:52,920
speaker

310
00:16:56,810 --> 00:16:54,480
you're reminded of what Lyndon Johnson

311
00:16:58,490 --> 00:16:56,820
once said which is that everything that

312
00:17:00,110 --> 00:16:58,500
needs to be said has been said it just

313
00:17:04,569 --> 00:17:00,120

hasn't been said by everybody that needs

314

00:17:09,470 --> 00:17:07,730

Mr Prime Minister thank you for your

315

00:17:11,809 --> 00:17:09,480

visit here

316

00:17:14,329 --> 00:17:11,819

my good friend I was he's a minister

317

00:17:17,390 --> 00:17:14,339

Nelson but I have to call him Senator

318

00:17:20,809 --> 00:17:17,400

Nelson uh he's always was a center as we

319

00:17:23,569 --> 00:17:20,819

work together and to Tony and uh she's

320

00:17:25,970 --> 00:17:23,579

on it's a pleasure to see you here it's

321

00:17:28,130 --> 00:17:25,980

been this is a historic week in the

322

00:17:29,810 --> 00:17:28,140

United States and Japan relationship

323

00:17:31,970 --> 00:17:29,820

and I cannot think of a more fitting way

324

00:17:34,430 --> 00:17:31,980

to conclude the prime minister's visit

325

00:17:36,770 --> 00:17:34,440

for his heroic leadership but to have

326

00:17:38,690 --> 00:17:36,780

this signing of the symbolizes

327

00:17:39,830 --> 00:17:38,700

not just the exploration of space but

328

00:17:42,289 --> 00:17:39,840

the partnership and the friendship

329

00:17:44,690 --> 00:17:42,299

between the United States and Japan

330

00:17:46,190 --> 00:17:44,700

doing something in a peaceful way when I

331

00:17:48,890 --> 00:17:46,200

think about back in May when the

332

00:17:51,529 --> 00:17:48,900

president uh was in Japan

333

00:17:53,690 --> 00:17:51,539

and launched the idea that we would have

334

00:17:56,690 --> 00:17:53,700

an incredible space partnership

335

00:17:59,390 --> 00:17:56,700

between Japan and the United States they

336

00:18:01,549 --> 00:17:59,400

did it at the Conte pledged that there

337

00:18:04,490 --> 00:18:01,559

would be a Japanese astronaut as part of

338

00:18:06,110 --> 00:18:04,500

Artemis to go to the Moon

339

00:18:07,070 --> 00:18:06,120

a few months later we signed the Gateway

340

00:18:08,810 --> 00:18:07,080

agreement

341

00:18:11,210 --> 00:18:08,820

a few months later we signed this

342

00:18:13,010 --> 00:18:11,220

agreement the framework agreement that

343

00:18:15,230 --> 00:18:13,020

initiates and lays out the road map for

344

00:18:18,409 --> 00:18:15,240

the next 10 years and then in a couple

345

00:18:21,289 --> 00:18:18,419

weeks we'll have administrator Nelson in

346

00:18:24,289 --> 00:18:21,299

Japan it's been quite a busy and active

347

00:18:26,150 --> 00:18:24,299

but productive uh nine months in the

348

00:18:28,430 --> 00:18:26,160

relationship

349

00:18:29,870 --> 00:18:28,440

and I don't know about the rest of you I

350

00:18:32,390 --> 00:18:29,880

mean I'm a little cynical

351
00:18:33,230 --> 00:18:32,400
but when you see the pictures from the

352
00:18:34,850 --> 00:18:33,240
web

353
00:18:36,529 --> 00:18:34,860
program

354
00:18:38,630 --> 00:18:36,539
if you had to close your mind die and

355
00:18:40,669 --> 00:18:38,640
think what does the heavens look like

356
00:18:42,590 --> 00:18:40,679
those are the photos

357
00:18:44,150 --> 00:18:42,600
it's the barrier of what this the

358
00:18:46,970 --> 00:18:44,160
sublime

359
00:18:48,049 --> 00:18:46,980
and the beginnings of what science looks

360
00:18:49,970 --> 00:18:48,059
like

361
00:18:52,010 --> 00:18:49,980
and it captures the imagination so

362
00:18:53,150 --> 00:18:52,020
whether it's a child from Tokyo or

363
00:18:56,930 --> 00:18:53,160

Topeka

364

00:18:59,090 --> 00:18:56,940

a child from Chicago or Chiba or a child

365

00:19:02,510 --> 00:18:59,100

from New Orleans or Nagoya I just wanted

366

00:19:04,250 --> 00:19:02,520

to prove that I knew the cities of Japan

367

00:19:05,690 --> 00:19:04,260

and the United States I'm sure a lot of

368

00:19:07,990 --> 00:19:05,700

you didn't think I knew a city outside

369

00:19:10,430 --> 00:19:08,000

of Chicago

370

00:19:14,450 --> 00:19:10,440

yeah yeah but I left everything out of

371

00:19:18,830 --> 00:19:16,610

you want them to feel a part of what

372

00:19:20,630 --> 00:19:18,840

we're exploring rather than apart from

373

00:19:23,390 --> 00:19:20,640

what we're exploring

374

00:19:25,909 --> 00:19:23,400

today is the beginning of Another Day a

375

00:19:28,370 --> 00:19:25,919

different future one of Peace one of

376

00:19:32,190 --> 00:19:28,380

prosperity and one a partnership

377

00:19:40,010 --> 00:19:32,200

this is a new beginning thank you

378

00:19:42,350 --> 00:19:40,020

[Applause]

379

00:19:43,970 --> 00:19:42,360

sir today you've witnessed a bit of

380

00:19:46,850 --> 00:19:43,980

history with the signing of this latest

381

00:19:48,529 --> 00:19:46,860

agreement between our two Nations thank

382

00:19:49,909 --> 00:19:48,539

you and congratulations to all those who

383

00:19:52,370 --> 00:19:49,919
