

1

00:00:00,000 --> 00:00:07,000

Alaska, a vast remote wilderness twice the size of Texas.

2

00:00:07,000 --> 00:00:10,000

You could walk for a year without seeing another person.

3

00:00:10,000 --> 00:00:14,000

In one of the most mysterious corners of the globe.

4

00:00:14,000 --> 00:00:17,000

Everything in your being is telling you to get the hell out of there.

5

00:00:17,000 --> 00:00:22,000

This is a place hundreds of times more deadly than the Bermuda Triangle.

6

00:00:22,000 --> 00:00:24,000

Oh my God!

7

00:00:24,000 --> 00:00:27,000

Stories of alien abductions.

8

00:00:27,000 --> 00:00:29,000

That was definitely something not from this world.

9

00:00:29,000 --> 00:00:33,000

The paranormal, vanishing airplanes and strange beasts.

10

00:00:33,000 --> 00:00:36,000

Bigfoot could be anywhere in Alaska hiding out.

11

00:00:36,000 --> 00:00:39,000

Have hunted those who dare set foot here.

12

00:00:39,000 --> 00:00:43,000

Who's that? Now I feel like something's after me.

13

00:00:46,000 --> 00:00:51,000

In the last 30 years, 16,000 people have disappeared without a trace.

14

00:00:51,000 --> 00:00:55,000

In the vastness of this country, it's easy to be swallowed up in it.

15

00:00:56,000 --> 00:00:59,000

Witnesses tell us their shocking stories.

16

00:00:59,000 --> 00:01:00,000

I was horrified.

17

00:01:00,000 --> 00:01:04,000

And we've gathered some of the world's leading experts in their field.

18

00:01:04,000 --> 00:01:10,000

I wanted to go out and get the evidence myself and say, this is real. This stuff exists.

19

00:01:10,000 --> 00:01:15,000

To try and unlock the mystery of the Alaska Triangle.

20

00:01:26,000 --> 00:01:30,000

Strange forces are at play in the Alaska Triangle.

21

00:01:30,000 --> 00:01:35,000

Amidst sounds from the skies are being reported by locals.

22

00:01:35,000 --> 00:01:40,000

I'm outside. There are trumpets or something blowing.

23

00:01:40,000 --> 00:01:43,000

What is it?

24

00:01:43,000 --> 00:01:46,000

Perhaps they foretell something sinister.

25

00:01:46,000 --> 00:01:50,000

I believe it's going to be a catastrophic event.

26

00:01:50,000 --> 00:01:54,000

And I actually, like, cried.

27

00:01:54,000 --> 00:01:56,000

I felt it so strong.

28

00:01:56,000 --> 00:02:02,000

Travelers who dare enter the Triangle have reported becoming strangely disoriented.

29

00:02:02,000 --> 00:02:08,000

Could it be that the electromagnetic forces of the Triangle are to blame?

30

00:02:08,000 --> 00:02:12,000

These forces can do strange things to the mind,

31

00:02:12,000 --> 00:02:17,000

confusing people, causing them to sleepwalk to their own deaths.

32

00:02:24,000 --> 00:02:29,000

Alaska is infamous for its mystifying forces.

33

00:02:29,000 --> 00:02:35,000

Strange electromagnetic fields have seemingly driven ships off course.

34

00:02:37,000 --> 00:02:41,000

Or played havoc with airplane navigational equipment.

35

00:02:41,000 --> 00:02:48,000

But perhaps most unsettling of all, Alaskans have reported unexplained ominous sounds.

36

00:02:55,000 --> 00:02:57,000

Oh, f\*\*\*!

37

00:03:02,000 --> 00:03:06,000

Researcher Johnny Enoch has been investigating them.

38

00:03:06,000 --> 00:03:11,000

Strange sounds have been heard coming from the skies of Alaska.

39

00:03:11,000 --> 00:03:14,000

Could these be linked to the Alaska Triangle?

40

00:03:15,000 --> 00:03:20,000

Perhaps the answer lies where most reports of these sinister noises have come from.

41

00:03:20,000 --> 00:03:23,000

Anchorage in the south of the Triangle.

42

00:03:24,000 --> 00:03:27,000

I think it is a little bit more than a short period of time.

43

00:03:27,000 --> 00:03:30,000

It is a little bit more than a short period of time.

44

00:03:32,000 --> 00:03:37,000

On March 20, 2020, Josie Plant was at home here.

45

00:03:37,000 --> 00:03:40,000

I was waking up my son, getting him out of bed.

46

00:03:40,000 --> 00:03:45,000

When I was doing that, I heard a loud noise.

47

00:03:47,000 --> 00:03:50,000

Josie rushed upstairs to investigate.

48

00:03:50,000 --> 00:03:53,000

It was like a low rumbling.

49

00:03:53,000 --> 00:03:55,640

It gave me goosebumps.

50

00:03:55,640 --> 00:03:59,280

This is the unsettling sound she captured on her smartphone.

51

00:04:05,000 --> 00:04:07,920

And the sound just keeps getting louder and louder

52

00:04:07,920 --> 00:04:10,760

until it seems like it's right above the house.

53

00:04:15,400 --> 00:04:17,720

I've never heard anything that sounded like that.

54

00:04:17,720 --> 00:04:20,000

It was intense.

55

00:04:20,000 --> 00:04:23,800

Josie could see no planes above her home.

56

00:04:23,800 --> 00:04:27,280

Usually planes get loud and then it just goes away.

57

00:04:27,280 --> 00:04:28,640

But this kept coming back.

58

00:04:31,400 --> 00:04:36,040

The sinister sound continued for 10 minutes.

59

00:04:36,040 --> 00:04:39,000

It got to a point where the floor was vibrating.

60

00:04:41,840 --> 00:04:43,480

That was scary.

61

00:04:43,480 --> 00:04:47,120

And then just not knowing what it was was the weirdest thing.

62

00:04:51,000 --> 00:04:56,000

Soon after her experience, Josie discovered she wasn't alone.

63

00:04:56,000 --> 00:05:00,000

Many Anchorage residents had heard similarly strange sounds.

64

00:05:00,000 --> 00:05:04,000

They even created a social media group to share their encounters.

65

00:05:06,000 --> 00:05:09,000

There's just too many people telling the same story.

66

00:05:09,000 --> 00:05:13,000

It really just makes you think like there must be something out there.

67

00:05:13,000 --> 00:05:20,000

Victoria and Derek Peterson also posted to the group.

68

00:05:20,000 --> 00:05:23,000

It seems something sinister is at work above their home,

69

00:05:23,000 --> 00:05:25,000

north of Anchorage, in Wasilla.

70

00:05:28,000 --> 00:05:33,000

In the early hours of July 3rd, 2020, they recorded this.

71

00:05:39,000 --> 00:05:41,000

I was out of the house.

72

00:05:42,000 --> 00:05:46,000

I was out there and just kind of, you know, looking at the sky.

73

00:05:46,000 --> 00:05:49,000

And I heard these trumpets.

74

00:05:52,000 --> 00:05:56,000

So I ran inside the house and I grabbed my wife, Victoria.

75

00:06:02,000 --> 00:06:07,000

My husband came inside and he sounded a bit panicked.

76

00:06:07,000 --> 00:06:11,000

And he was like, come outside right now. There's trumpets.

77

00:06:11,000 --> 00:06:14,000

I was like, what? Trumpets?

78

00:06:15,000 --> 00:06:23,000

I went outside and sure enough, there was a sound in the wind.

79

00:06:28,000 --> 00:06:31,000

Victoria was so surprised that she grabbed her smartphone

80

00:06:31,000 --> 00:06:33,000

to capture this strange occurrence.

81

00:06:34,000 --> 00:06:40,000

Okay, I'm outside. There are trumpets or something blowing.

82

00:06:40,000 --> 00:06:43,000

It's like almost one in the morning in Alaska.

83

00:06:46,000 --> 00:06:48,000

Let's see if you can hear.

84

00:06:56,000 --> 00:06:59,000

I was nervous when I heard this sound.

85

00:06:59,000 --> 00:07:01,000

Like, what is this signaling?

86

00:07:01,000 --> 00:07:06,000

I really just wanted to have the video so that I could listen to it

87

00:07:06,000 --> 00:07:09,000

and try to figure out for myself what it was.

88

00:07:12,000 --> 00:07:17,000

The Petersons tried to pinpoint where these bizarre sounds above their yard were coming from.

89

00:07:17,000 --> 00:07:19,000

But it seemed impossible.

90

00:07:20,000 --> 00:07:25,000

It was just coming from the whole sky, but it was coming all direction.

91

00:07:25,000 --> 00:07:27,000

What is that, your eyes?

92

00:07:27,000 --> 00:07:30,000

It was just kind of all around.

93

00:07:30,000 --> 00:07:33,000

I felt like it was just kind of swirling all around us.

94

00:07:34,000 --> 00:07:41,000

You can hear cars, but you can also hear trumpets in the sky somewhere.

95

00:07:43,000 --> 00:07:45,000

What is it?

96

00:07:46,000 --> 00:07:48,000

What is it?

97

00:07:49,000 --> 00:07:51,000

What is it?

98

00:07:54,000 --> 00:08:00,000

Whatever the answer was, the Petersons were convinced no human was behind this.

99

00:08:00,000 --> 00:08:04,000

It was like a distinct musical note almost.

100

00:08:07,000 --> 00:08:10,000

And the notes would go up and come down.

101

00:08:10,000 --> 00:08:13,000

So I just know that it wasn't man-made.

102

00:08:14,000 --> 00:08:18,000

It was pretty constant for about an hour.

103

00:08:19,000 --> 00:08:24,000

And then all of a sudden, it just wasn't there anymore.

104

00:08:25,000 --> 00:08:31,000

I've lived in Alaska my whole life, and I've never heard anything like this.

105

00:08:32,000 --> 00:08:35,000

Derrick has never forgotten that day either.

106

00:08:36,000 --> 00:08:41,000

In the Bible's Book of Revelations, the sounding of seven trumpets by angels

107

00:08:41,000 --> 00:08:44,000

forewarns the end of the world.

108

00:08:45,000 --> 00:08:50,000

I believe that it's God's kingdom sounding an alarm.

109

00:08:50,000 --> 00:08:53,000

I believe it's going to be a catastrophic event.

110

00:08:54,000 --> 00:08:57,000

And I actually, like, cried.

111

00:08:58,000 --> 00:09:00,000

I felt it so strong.

112

00:09:01,000 --> 00:09:05,000

From the moment I wake up to the moment I go to sleep, that's all I can think about.

113

00:09:06,000 --> 00:09:11,000

What these noises are and what they signify is not known.

114

00:09:12,000 --> 00:09:18,000

But a forensic investigator would soon strip these sounds down to try and reveal their meaning.

115

00:09:21,000 --> 00:09:24,000

He unearths something incredibly sinister.

116

00:09:25,000 --> 00:09:28,000

There's a tone called the Devil's Interval.

117

00:09:36,000 --> 00:09:40,000

In Alaska's largest city, Anchorage, in the south of the Triangle,

118

00:09:41,000 --> 00:09:44,000

residents have reported strange sounds emanating from the skies.

119

00:09:52,000 --> 00:09:56,000

Journalist Andrew Goff has been investigating the forces behind them.

120

00:09:59,000 --> 00:10:02,000

Where are they coming from? Nobody knows.

121

00:10:02,000 --> 00:10:08,000

What we can be sure of is that the Alaska Triangle is certainly involved.

122

00:10:09,000 --> 00:10:17,000

On February 8th, 2020, this strange sound was recorded by a resident living in Anchorage's suburbs.

123

00:10:22,000 --> 00:10:24,000

That is so creepy.

124

00:10:26,000 --> 00:10:27,000

Oh, gosh.

125

00:10:28,000 --> 00:10:34,000

Audio forensic specialist Kurt Riemann has analyzed this recording of the sound.

126

00:10:35,000 --> 00:10:39,000

He's an Anchorage-based engineer who helps with police investigations,

127

00:10:40,000 --> 00:10:43,000

and he's looking into this mysterious noise.

128

00:10:44,000 --> 00:10:48,000

So this is the original recording that I heard.

129

00:10:51,000 --> 00:10:53,000

Right here it comes again.

130

00:10:57,000 --> 00:11:01,000

It's amazing. What is this sound? It's so massive and so big.

131

00:11:04,000 --> 00:11:07,000

And this sound just echoes across the entire town.

132

00:11:09,000 --> 00:11:13,000

In this particular clip, Kurt's found something intriguing.

133

00:11:15,000 --> 00:11:17,000

So those two notes right here.

134

00:11:19,000 --> 00:11:23,000

So the first note starts off with a G right here.

135

00:11:24,000 --> 00:11:29,000

So G on the scale. The next note it goes down to is a C sharp,

136

00:11:32,000 --> 00:11:34,000

which is the tritone.

137

00:11:37,000 --> 00:11:41,000

There's a tone called a tritone, which is also called the devil's interval.

138

00:11:42,000 --> 00:11:46,000

Kurt demonstrates the devil's interval on his theremin.

139

00:11:47,000 --> 00:11:50,000

That's the devil's interval there.

140

00:11:51,000 --> 00:11:57,000

This unsettling tone is used in many horror films, including classics such as Night of the Living Dead.

141

00:12:04,000 --> 00:12:07,000

But it's also used by many rock and classical composers.

142

00:12:08,000 --> 00:12:10,000

It shows up in Pearl Jam songs.

143

00:12:10,000 --> 00:12:15,000

It shows up in almost everything John Williams writes.

144

00:12:17,000 --> 00:12:20,000

It's an interval, and you want that interval to resolve.

145

00:12:21,000 --> 00:12:25,000

And because the interval doesn't resolve when you're hearing it coming from the sky,

146

00:12:26,000 --> 00:12:29,000

it makes it almost that much more disturbing.

147

00:12:32,000 --> 00:12:35,000

And those strange sounds sort of unlock this other thing in our psyche.

148

00:12:36,000 --> 00:12:39,000

There's a particular darkness that they evoke.

149

00:12:40,000 --> 00:12:42,000

Sounds mean something.

150

00:12:44,000 --> 00:12:50,000

By using this devil's interval, could the forces of the triangle be trying to unsettle its inhabitants?

151

00:12:51,000 --> 00:12:53,000

Perhaps even drive them away.

152

00:12:54,000 --> 00:12:56,000

Something big is making those sounds.

153

00:12:57,000 --> 00:13:01,000

And something is making them change notes too, which I have no idea what that is.

154

00:13:03,000 --> 00:13:06,000

The mystery is just us not knowing.

155

00:13:07,000 --> 00:13:11,000

If the forces of the triangle are creating these sounds for a malevolent purpose,

156

00:13:12,000 --> 00:13:15,000

they could be targeting a human population in other ways.

157

00:13:18,000 --> 00:13:23,000

Every year, hundreds inexplicably go missing and lose their lives here.

158

00:13:26,000 --> 00:13:29,000

One such case became world famous.

159

00:13:30,000 --> 00:13:39,000

On April 28, 1992, a 24-year-old hitchhiked from Fairbanks to an old mining road, 25 miles west of Healy.

160

00:13:43,000 --> 00:13:50,000

Chris McCannless was on a journey to find peace in the natural world, according to author Paxton Welber.

161

00:13:52,000 --> 00:13:56,000

Chris McCannless sold most of his possessions, gave away a lot of money to charity

162

00:13:56,000 --> 00:14:00,000

before coming to have this big, grand adventure in the Alaska outdoors.

163

00:14:02,000 --> 00:14:06,000

He planned a hike through the Alaskan wilderness all the way to the coast.

164

00:14:09,000 --> 00:14:12,000

But a ways in, he ran into an abandoned bus.

165

00:14:18,000 --> 00:14:23,000

Looks like he just decided to live in the bus as long as he could in an attempt to live off of the land.

166

00:14:27,000 --> 00:14:33,000

He made it through the spring and it seems like he made it through the summer fairly well.

167

00:14:38,000 --> 00:14:46,000

He spent most of his time wandering around, exploring, hunting, doing the things that one would need to do to stay alive in the wilderness.

168

00:14:48,000 --> 00:14:52,000

After ten weeks in the wild, he decided to return to civilization.

169

00:14:53,000 --> 00:15:00,000

But the Teclanica River that he had walked through on his way in was now impossible to cross.

170

00:15:04,000 --> 00:15:07,000

He found it had become an absolute torrent.

171

00:15:09,000 --> 00:15:12,000

Chris McCannless had now become trapped.

172

00:15:14,000 --> 00:15:20,000

He decided to return to the bus, but in the days that followed, he became strangely disoriented.

173

00:15:22,000 --> 00:15:28,000

According to his diary, he starts having strange dreams. He's hallucinating.

174

00:15:30,000 --> 00:15:33,000

His diary blamed this on eating wild potato seeds.

175

00:15:35,000 --> 00:15:38,000

Within a few days, he was seriously ill.

176

00:15:42,000 --> 00:15:48,000

By now, Chris McCannless was too ill to hunt food, which he needed to survive.

177

00:15:49,000 --> 00:15:51,000

He's starving.

178

00:15:52,000 --> 00:15:54,000

He's too weak to escape.

179

00:15:55,000 --> 00:15:57,000

And no one even knows that he's there.

180

00:16:06,000 --> 00:16:08,000

He essentially starved to death.

181

00:16:10,000 --> 00:16:15,000

It's really sad and it's a really strange story and it's very mysterious.

182

00:16:16,000 --> 00:16:22,000

And there have been other mystifying tragedies in the region.

183

00:16:25,000 --> 00:16:32,000

Experts believe Alaska's close proximity to the North Pole causes strange electromagnetic forces here.

184

00:16:33,000 --> 00:16:38,000

Some who've entered the Triangle have suddenly become incapacitated.

185

00:16:39,000 --> 00:16:47,000

It's likely that they have been disoriented by the bizarre electromagnetic forces around the Triangle.

186

00:16:48,000 --> 00:16:55,000

These forces can do strange things to the mind, confusing people, even causing them to sleepwalk to their own deaths.

187

00:16:57,000 --> 00:17:07,000

These strange electromagnetic forces cause planes to fall out of the sky when their instruments just inexplicably fail.

188

00:17:08,000 --> 00:17:19,000

What if there was an equivalent form of disorientation happening to humans that was causing them to get lost and ultimately to lose their lives?

189

00:17:21,000 --> 00:17:26,000

Could a human hand be playing a part in these powerful disorienting forces?

190

00:17:29,000 --> 00:17:37,000

In the center of the Triangle lies a mysterious research lab pumping high-voltage energy into the atmosphere.

191

00:17:38,000 --> 00:17:42,000

It's rumored to play havoc with the weather and also the mind.

192

00:17:43,000 --> 00:17:49,000

The idea that mind and emotions can be manipulated is a fact. This is the beginning of the end.

193

00:17:52,000 --> 00:17:59,000

On November 30th, 2018, a major earthquake with a magnitude of seven hit Alaska just north of Anchorage.

194

00:18:00,000 --> 00:18:06,000

It's one of the worst ever to strike the region. A state of emergency is declared.

195

00:18:07,000 --> 00:18:11,000

But researcher Johnny Enoch doubts this was a freak force of nature.

196

00:18:12,000 --> 00:18:19,000

The Alaska Triangle seems to attract strange weather events, none more catastrophic than earthquakes.

197

00:18:21,000 --> 00:18:30,000

Over a hundred Alaskans were injured and nearly \$30 million worth of damage was caused when the 2018 earthquake hit Alaska.

198

00:18:30,000 --> 00:18:38,000

Some scientists have linked earthquakes to extreme weather and changes in the atmosphere.

199

00:18:41,000 --> 00:18:47,000

And on average, a serious earthquake has occurred here every year since 1993.

200

00:18:49,000 --> 00:18:55,000

This was also the year its mysterious meteorological research facility was built, HARP.

201

00:18:55,000 --> 00:19:07,000

A lot of people think that because Alaska is home to HARP, that this could be the reason for all the strange anomalous weather patterns we find there.

202

00:19:09,000 --> 00:19:16,000

The High Frequency Active Aurora Research Program, or HARP, is based near Gokona in the southern end of the Triangle.

203

00:19:19,000 --> 00:19:23,000

It's stated mission to study the Earth's upper atmosphere.

204

00:19:26,000 --> 00:19:30,000

180 giant antennas are used for this research.

205

00:19:31,000 --> 00:19:38,000

But some investigators like Jerry Glover believe its real purpose could be to manipulate the weather.

206

00:19:39,000 --> 00:19:48,000

Maybe the HARP program has harmonized with or activated something to do with the weather in the Triangle.

207

00:19:49,000 --> 00:19:57,000

Maybe this has whipped up forces that has caused people and aircraft to disappear. There's always this possibility.

208

00:20:00,000 --> 00:20:05,000

Anchorage base Dr. Nick Begich has been following the work of HARP since it began.

209

00:20:08,000 --> 00:20:12,000

He's concerned that this technology could be used as a means of warfare.

210

00:20:13,000 --> 00:20:20,000

The idea of changing the weather or altering jet streams is one of the primary concerns that I've had from the beginning of the project.

211

00:20:21,000 --> 00:20:26,000

Learning how to manipulate weather for weapons applications is one of the uses of HARP.

212

00:20:30,000 --> 00:20:38,000

Although Nick's views are disputed by HARP, he believes their giant antennas are pumping huge amounts of electrical energy into the skies.

213

00:20:39,000 --> 00:20:50,000

As a means of controlling the ionosphere, the thin layer of atmosphere that stretches from 50 miles above the Earth's surface right up to the edge of space.

214

00:20:54,000 --> 00:21:02,000

These antennas fire radiofrequency energy in a very unique way. Instead of spreading out very rapidly from the source, it does the opposite.

215

00:21:03,000 --> 00:21:06,000

It concentrates the energy. The energy is powerful and strong.

216

00:21:07,000 --> 00:21:14,000

Nick and other researchers believe these antennas are heating the atmosphere above, and this can destabilize the weather.

217

00:21:15,000 --> 00:21:21,000

It alters pressure systems, alters the flow of jet streams and changes the weather in that relative area.

218

00:21:23,000 --> 00:21:29,000

And some believe heating the Earth's atmosphere could whip up extreme weather events, such as a tornado.

219

00:21:30,000 --> 00:21:36,000

You have a warm front coming into a cold front. They run into each other. You get a shearing action. You get a tornado.

220

00:21:37,000 --> 00:21:44,000

If you could heat up the cold front sufficiently when these two collided, you wouldn't get that tornado formation.

221

00:21:45,000 --> 00:21:49,000

Or conversely, if you fed the heated front, you might get a more intense tornado.

222

00:21:50,000 --> 00:21:56,000

But there are even more sinister claims about Alaska's controversial research station.

223

00:21:57,000 --> 00:22:05,000

Not only may it be able to alter the weather, but some claim Harp's electromagnetic waves could be used to manipulate our minds.

224

00:22:06,000 --> 00:22:17,000

I think it's very plausible that Harp and similar psychotronic weapons could be used to disorient people and cause strange weather patterns.

225

00:22:20,000 --> 00:22:31,000

Dr. Begich has been investigating how the use of ELF, extremely low-frequency electromagnetic energy, could be used by Harp as a means of controlling the population.

226

00:22:33,000 --> 00:22:44,000

What Harp has the ability to do is affect emotional states over huge geographic areas, utilizing electromagnetic signals, such as what Harp produces, within a certain range.

227

00:22:44,000 --> 00:22:53,000

That would create a general sense of dis-ease, for instance, in a population, and then you could move a population a certain direction.

228

00:22:55,000 --> 00:22:59,000

The U.S. government has a history of state-sponsored mind control.

229

00:23:00,000 --> 00:23:14,000

Its top-secret MK-ALTRA program that started in 1953 used a web of hospitals, prisons, colleges, and universities to carry out experiments on unwitting human subjects.

230

00:23:17,000 --> 00:23:23,000

MK-ALTRA was a project initiated by the Central Intelligence Agency back in the 1950s and 60s.

231

00:23:24,000 --> 00:23:36,000

This was mind control. Fundamentally, it was testing LSD, electromagnetics, everything under the sun to see if you could modify people's behavior, and they succeeded in many, many ways.

232

00:23:37,000 --> 00:23:43,000

We don't know for certain, but maybe the Harp Research Project has that aspect to it as well.

233

00:23:43,000 --> 00:23:54,000

Some kind of experiment to influence people, or maybe tap into forces that we don't yet understand that are at work in the Alaska Triangle.

234

00:23:56,000 --> 00:24:01,000

But in 2015, Harp was taken over by the University of Alaska.

235

00:24:02,000 --> 00:24:08,000

It opened its doors to the public, declaring it's not capable of mind control or weather control.

236

00:24:09,000 --> 00:24:19,000

In fact, Harp says the frequency range of the radio waves it transmits cannot even interact with the levels of the atmosphere that produce Earth's weather.

237

00:24:21,000 --> 00:24:27,000

Nick Begich, however, is not convinced, believing Harp remains a threat to fellow Alaskans.

238

00:24:28,000 --> 00:24:37,000

This is the beginning of the end for me. The idea of interfering with human consciousness is a violation of the essence of who we are as human beings.

239

00:24:40,000 --> 00:24:45,000

Harp's purpose is still open to debate, and it remains controversial.

240

00:24:46,000 --> 00:24:56,000

In a place that's as infamous for paranormal activity as the Alaska Triangle, even the roads running through it are said to be haunted.

241

00:24:59,000 --> 00:25:04,000

I felt so in danger, and I just floored it.

242

00:25:05,000 --> 00:25:13,000

From unexplained phantom headlights to spirits stalking its bridges, she sees a man right in front of her.

243

00:25:15,000 --> 00:25:18,000

Scares the living daylights out of her.

244

00:25:18,000 --> 00:25:21,000

Investigators have now found compelling evidence.

245

00:25:21,000 --> 00:25:25,000

I just caught something right there. That was crazy.

246

00:25:25,000 --> 00:25:28,000

Of entities that haunt the roadside.

247

00:25:29,000 --> 00:25:31,000

I've never seen anything like this before.

248

00:25:32,000 --> 00:25:49,000

Over 36,000 miles of road stretches across Alaska, connecting the most sparsely populated areas of the Triangle.

249

00:25:51,000 --> 00:25:57,000

The remoteness of Alaska's freeways therefore makes them an ideal draw for spiritual activity.

250

00:25:58,000 --> 00:26:03,000

Paranormal investigator Jeff Richards has been studying these haunted highways.

251

00:26:05,000 --> 00:26:10,000

Haunted roads are all over the state of Alaska.

252

00:26:10,000 --> 00:26:15,000

Perhaps a tragedy maybe occurred and it's left a mark on that highway.

253

00:26:15,000 --> 00:26:24,000

Or are they more likely to be drawing in spirit because they are these very commonly used transitional spaces for the living.

254

00:26:24,000 --> 00:26:31,000

We travel highways so it's nothing out of the ordinary to imagine that spirits travel those same highways.

255

00:26:31,000 --> 00:26:33,000

They travel alongside us.

256

00:26:35,000 --> 00:26:41,000

Drivers across this remote region have told of strange incidents on Alaska's roads.

257

00:26:42,000 --> 00:26:47,000

One such case was recently reported in Glen Allen in the south of the Triangle.

258

00:26:48,000 --> 00:26:55,000

Ellen Viterra was driving on a remote highway near her home in 2017.

259

00:26:58,000 --> 00:27:03,000

It was between 11 and 12 and I was driving home. It was pitch black.

260

00:27:08,000 --> 00:27:12,000

As I was driving headlights had come over the hill.

261

00:27:13,000 --> 00:27:21,000

The vehicle was approaching me and I just I felt this sensation of slowing down.

262

00:27:23,000 --> 00:27:32,000

My foot stopped compressing the gas and I just kind of stared into the light and it just got closer and closer.

263

00:27:33,000 --> 00:27:36,000

They were the oranges headlights I had ever seen.

264

00:27:37,000 --> 00:27:39,000

The hair on the back of my neck stood up.

265

00:27:40,000 --> 00:27:49,000

I got really scared and it was like in that moment time slowed down.

266

00:27:52,000 --> 00:28:01,000

As it drove by I realized that I could see the headlights at the same time as the brake lights as if there was no car in between it.

267

00:28:02,000 --> 00:28:09,000

All of a sudden this massive influx of fire flight kicked in and my mind screamed run.

268

00:28:10,000 --> 00:28:16,000

And I just floored it just trying to get away and I kept looking back to see if it was following me.

269

00:28:17,000 --> 00:28:23,000

I was so scared in that moment. I felt in so in danger.

270

00:28:24,000 --> 00:28:32,000

Whatever this entity was as I drove away from it it turned left and disappeared onto a road that doesn't exist.

271

00:28:34,000 --> 00:28:43,000

Luckily Ellen escaped unscathed but trying to work out what she witnessed that night is a mystery that still troubles her.

272

00:28:44,000 --> 00:28:50,000

Many accidents happen on this road so it could be just a specter.

273

00:28:51,000 --> 00:28:53,000

You know a ghost we call them ghost cars.

274

00:28:55,000 --> 00:29:04,000

It was too much honestly even thinking back is kind of hard.

275

00:29:08,000 --> 00:29:11,000

Phantom headlights have been reported by many locals.

276

00:29:14,000 --> 00:29:18,000

One case occurred recently in Fairbanks in the middle of the triangle.

277

00:29:21,000 --> 00:29:25,000

Christina Gumm had an unexplained sighting on a road on her way home from work.

278

00:29:28,000 --> 00:29:37,000

It was about six seven o'clock-ish. I just got some gas because I was low on gas and I was heading towards home and I was kind of daydreaming kind of you know.

279

00:29:38,000 --> 00:29:55,000

And I noticed out of the corner of my eye some lights up in the hill. I kind of watched it for a second but I noticed pretty quickly they flashed and disappeared which I thought was kind of strange.

280

00:29:56,000 --> 00:30:07,000

These Phantom headlights had appeared by the local cemetery but the road there was impassable due to heavy snow.

281

00:30:10,000 --> 00:30:12,000

So how could a vehicle have got there?

282

00:30:14,000 --> 00:30:16,000

Christina went to investigate.

283

00:30:17,000 --> 00:30:24,000

I stopped and kind of looked around a little kind of stuck my head out the door but I didn't hear anything.

284

00:30:25,000 --> 00:30:31,000

So I was like maybe I'll come a little closer in the cemetery but there was like no tracks.

285

00:30:32,000 --> 00:30:36,000

There was no signs of anyone really that's been up here for a good couple of weeks.

286

00:30:37,000 --> 00:30:40,000

So it was like okay I'm officially spooked.

287

00:30:41,000 --> 00:30:44,000

Christina came to one unsettling conclusion.

288

00:30:46,000 --> 00:30:53,000

I automatically assumed that this was like a ghost or something. It kind of scared me a little.

289

00:30:54,000 --> 00:31:01,000

There is a couple of people that have been killed up here by vehicles. So it was like well what if it was one of their people reliving their past.

290

00:31:02,000 --> 00:31:08,000

And Christina is not the only Fairbanks resident to experience these ghostly phenomena on local roads.

291

00:31:11,000 --> 00:31:18,000

Just north of the city in January 2016 one woman recorded this on the street outside her home.

292

00:31:18,000 --> 00:31:22,000

Jeff Richards has been analyzing this extraordinary roadside evidence.

293

00:31:24,000 --> 00:31:31,000

We see these streaks of light moving through the video at various points at high velocity.

294

00:31:33,000 --> 00:31:39,000

A lot of orb videos can be debunked as simply being a video of a person walking on the road.

295

00:31:39,000 --> 00:31:43,000

And I've never seen anything like this before. It's a remarkable video.

296

00:31:46,000 --> 00:31:50,000

The remoteness of Alaska's freeways makes them an icon of the world.

297

00:31:51,000 --> 00:31:55,000

And I think that's the most important thing that we see in the world.

298

00:31:56,000 --> 00:32:00,000

And I think that's the most important thing that we see in the world.

299

00:32:01,000 --> 00:32:05,000

And I think that's the most important thing that we see in the world.

300

00:32:06,000 --> 00:32:11,000

The remoteness of Alaska's freeways makes them an ideal draw for spiritual activity.

301

00:32:12,000 --> 00:32:20,000

The state has a rich history of gold prospectors passing through it to seek their fortune, but ending their days here penniless.

302

00:32:22,000 --> 00:32:28,000

Paranormal investigator Mike Cook has been researching roadside ghost sightings connected to the region's past.

303

00:32:29,000 --> 00:32:41,000

There's been a lot of gold mine collapses or copper mines or, you know, a lot of the miners went out and they just weren't adequately dressed.

304

00:32:42,000 --> 00:32:46,000

They would catch pneumonia, they would die and they were just stuck in that place.

305

00:32:47,000 --> 00:32:54,000

One woman recently reported a gold rush ghost sighting just outside of Anchorage in the south of the triangle.

306

00:32:55,000 --> 00:33:03,000

It was 3 a.m. on a cold winter's night as she crossed Briggs Bridge over Eagle River.

307

00:33:04,000 --> 00:33:07,000

She was touring Alaska, she was in her RV.

308

00:33:10,000 --> 00:33:13,000

She comes around the corner on this bridge.

309

00:33:14,000 --> 00:33:18,000

She looks up and sees a man right in front of her.

310

00:33:19,000 --> 00:33:21,000

Scares the living daylights out of her.

311

00:33:25,000 --> 00:33:37,000

So she puts on the brakes and then right in front of her eyes, he disappears. Just gone. She gets out.

312

00:33:39,000 --> 00:33:46,000

And she's looking for his footprints in this freshly laid snow. And there's no footprints.

313

00:33:47,000 --> 00:33:52,000

But it was the apparitions appearance that most spooked the driver.

314

00:33:53,000 --> 00:33:59,000

According to the report, he had this very old look to him. Maybe a gold paner.

315

00:34:01,000 --> 00:34:11,000

You could have died in Eagle River right around this bridge. A lot of the miners were moving north and so they could have easily stayed somewhere along this area.

316

00:34:12,000 --> 00:34:17,000

So her story of it looked like an old miner could be very plausible.

317

00:34:20,000 --> 00:34:26,000

Today, Mike's made his way to Briggs Bridge where he plans to carry out an overnight investigation.

318

00:34:28,000 --> 00:34:39,000

I'm going to take a look around. I want to see this road. I want to see where I can possibly put my cameras, at what angles are going to be good to possibly catch whatever spirit or entity that was seen by this lady.

319

00:34:42,000 --> 00:34:58,000

Mike begins setting up his CCTV in the cold sub-zero Alaskan temperatures.

320

00:34:59,000 --> 00:35:05,000

This one actually has a mic on it. So hopefully spirit will say something. We'll pick it up.

321

00:35:06,000 --> 00:35:14,000

Nearby, Mike's based his mobile command center. Here, he can record and monitor any paranormal activity.

322

00:35:15,000 --> 00:35:19,000

I'm hoping that I can catch an entity walking across this bridge up here.

323

00:35:22,000 --> 00:35:28,000

All set, Mike heads out onto the haunted bridge armed with his ghost hunting equipment.

324

00:35:29,000 --> 00:35:41,000

This is the spirit box. It scans multiple radio frequencies and it said that spirits can talk through the white noise of these radios.

325

00:35:42,000 --> 00:35:49,000

And then the REM pod hopefully will detect some energy here. We'll do a quick reading here. Set it up right here.

326

00:35:50,000 --> 00:35:57,000

If electromagnetic energy increases, the device lights up, suggesting a spirit is present.

327

00:35:58,000 --> 00:36:03,000

Is there any spirits on this bridge or underneath? Is there a man out here, an old man?

328

00:36:08,000 --> 00:36:17,000

Oh, did you see that? The lights are flickering. Is that you? Oh, look at that. That's even

stronger.

329

00:36:18,000 --> 00:36:23,000

Perhaps this is the old miner. Mike reaches out with his spirit box.

330

00:36:31,000 --> 00:36:36,000

I did hear something right there. It was very, very faint. Were you trying to communicate?

331

00:36:37,000 --> 00:36:44,000

I couldn't really hear what it said, but I did record it, so I'm going to go back to the command center, try and replay it, see if I can grasp anything out of it.

332

00:36:45,000 --> 00:36:51,000

Mike heads back to process the electronic voice phenomenon, or EVP, he's just captured.

333

00:36:53,000 --> 00:36:56,000

So this is recorded at the very end of the bridge.

334

00:36:56,000 --> 00:37:05,000

I definitely hear a buh at the end, but I can't make out what the beginning is. At first I thought it said you could see us.

335

00:37:08,000 --> 00:37:12,000

It's pretty interesting. Sounds like a male figure.

336

00:37:14,000 --> 00:37:19,000

To find out who this is, I'm going to go back to the command center.

337

00:37:19,000 --> 00:37:23,000

It's pretty interesting. Sounds like a male figure.

338

00:37:25,000 --> 00:37:31,000

To find out who this spirit could be, Mike heads back out for clues underneath the haunted bridge.

339

00:37:34,000 --> 00:37:46,000

I want to see if there's anything going on underneath. There have been reports of some graffiti, satanic symbols, and then there was a death that happened on this road just two months ago.

340

00:37:46,000 --> 00:37:51,000

So, hoping that if anything happens it will show up underneath the bridge.

341

00:37:54,000 --> 00:37:59,000

Oh, jeez, what a couple of ravens. They scared the crap out of me.

342

00:38:01,000 --> 00:38:04,000

Once again, Mike starts his spirit box.

343

00:38:05,000 --> 00:38:11,000

Is there anybody under the bridge? Is there any spirits here? Did you die in this area?

344

00:38:12,000 --> 00:38:20,000

For Gold Rush ghosts, nowhere else is more fitting. In summertime, Eagle River could be panned by many seeking riches.

345

00:38:21,000 --> 00:38:28,000

This river is completely frozen, so we're going to cross the river, go to the other side and see if we can't pick up something.

346

00:38:29,000 --> 00:38:33,000

Is there anybody out here? What am I got myself into?

347

00:38:34,000 --> 00:38:36,000

What am I got myself into?

348

00:38:38,000 --> 00:38:40,000

Is there any spirits here? Any entities?

349

00:38:47,000 --> 00:38:56,000

I thought I just saw some movement up there. I saw some kind of light move from right to left over there by that wall.

350

00:38:59,000 --> 00:39:01,000

Are you around here?

351

00:39:04,000 --> 00:39:13,000

I just caught something right there. That was crazy. That sounded like a howl or a growl.

352

00:39:14,000 --> 00:39:16,000

It looks right here at the very end.

353

00:39:19,000 --> 00:39:30,000

Yeah, it's there. It doesn't say anything, it's just a, ooh, but that could be a spirit trying to use the box and come through.

354

00:39:30,000 --> 00:39:37,000

And then, what else is weird, this camera was just charged before I came down here. Fresh battery, and now it's dead.

355

00:39:38,000 --> 00:39:46,000

So, probably drained the camera battery to manifest in some sort and come through my spirit box.

356

00:39:49,000 --> 00:39:55,000

Mike returns to his control center to check out this second electronic voice phenomenon.

357

00:39:56,000 --> 00:40:07,000

There, there, that. That is a howl. That is crazy.

358

00:40:08,000 --> 00:40:16,000

We caught both EVPs from the same side, the north side of the bridge. So, it tells me that there's something there.

359

00:40:20,000 --> 00:40:22,000

Mike's investigation will continue.

360

00:40:23,000 --> 00:40:29,000

The mystery is still open. Still could use some further investigation, definitely for sure. There's something out there.

361

00:40:31,000 --> 00:40:33,000

There's something out there.

362

00:40:37,000 --> 00:40:44,000

The spirits haunting Alaska's roads have not shown themselves tonight, but there's growing evidence that they exist.

363

00:40:45,000 --> 00:40:53,000

The triangle continues to mystify those brave enough to try and unlock its secrets.

364

00:40:55,000 --> 00:41:03,000

But one thing is certain, this place will never stop striking awe and fear amongst those who dare enter it.
