

1

00:00:00,000 --> 00:00:07,000

Alaska, a vast remote wilderness twice the size of Texas.

2

00:00:07,000 --> 00:00:10,000

You could walk for a year without seeing another person.

3

00:00:10,000 --> 00:00:14,000

In one of the most mysterious corners of the globe.

4

00:00:14,000 --> 00:00:17,000

Everything in your being is telling you to get the hell out of there.

5

00:00:17,000 --> 00:00:22,000

This is a place hundreds of times more deadly than the Bermuda Triangle.

6

00:00:22,000 --> 00:00:24,000

Oh my God!

7

00:00:24,000 --> 00:00:27,000

Stories of alien abductions.

8

00:00:27,000 --> 00:00:29,000

That was definitely something not from this world.

9

00:00:29,000 --> 00:00:33,000

The paranormal, vanishing airplanes and strange beasts.

10

00:00:33,000 --> 00:00:36,000

Bigfoot could be anywhere in Alaska hiding out.

11

00:00:36,000 --> 00:00:39,000

Have hunted those who dare set foot here.

12

00:00:39,000 --> 00:00:43,000

Who's that? Now I feel like something's after me.

13

00:00:46,000 --> 00:00:51,000

In the last 30 years, 16,000 people have disappeared without a trace.

14

00:00:51,000 --> 00:00:55,000

In the vastness of this country, it's easy to be swallowed up in it.

15

00:00:56,000 --> 00:00:59,000

Witnesses tell us their shocking stories.

16

00:00:59,000 --> 00:01:00,000

It's horrified.

17

00:01:00,000 --> 00:01:04,000

And we've gathered some of the world's leading experts in their field.

18

00:01:04,000 --> 00:01:10,000

I wanted to go out and get the evidence myself and say, this is real. This stuff exists.

19

00:01:10,000 --> 00:01:15,000

To try and unlock the mystery of the Alaska Triangle.

20

00:01:26,000 --> 00:01:31,000

The Alaska Triangle is home to all manner of paranormal activity.

21

00:01:34,000 --> 00:01:39,000

But some of the strangest sites have been up above in the night sky.

22

00:01:40,000 --> 00:01:46,000

The interior of Alaska has become renowned for its sightings of UFOs.

23

00:01:46,000 --> 00:01:51,000

There's a huge number of UFO sightings in the Alaska Triangle.

24

00:01:51,000 --> 00:01:54,000

Clearly, there's something going on here.

25

00:01:54,000 --> 00:01:59,000

It's Alaska. Weird things just happen here all the time.

26

00:01:59,000 --> 00:02:03,000

I think it's a way bigger thing than anybody has let on.

27

00:02:04,000 --> 00:02:12,000

In fact, incredible evidence has now come to light that UFOs are not only in the skies here, but have landed.

28

00:02:13,000 --> 00:02:17,000

Are these the footprints of an alien?

29

00:02:25,000 --> 00:02:29,000

There's a long history of UFO sightings in Alaska.

30

00:02:31,000 --> 00:02:36,000

Across the state, strange, unidentified objects are seen in the sky,

31

00:02:36,000 --> 00:02:40,000

and increasingly, residents want to know what's going on.

32

00:02:42,000 --> 00:02:48,000

In April 2020, there were suddenly official UFO videos for everyone to see.

33

00:02:48,000 --> 00:02:54,000

When, under intense pressure, the Pentagon released previously top-secret footage,

34

00:02:54,000 --> 00:02:57,000

filmed by Navy pilots.

35

00:02:57,000 --> 00:03:03,000

Including this one of a mysterious craft flying at unbelievable speed over the ocean.

36

00:03:11,000 --> 00:03:17,000

There was also this video from 2014 of an extraordinary saucer-shaped object in the sky.

37

00:03:19,000 --> 00:03:21,000

My gosh!

38

00:03:22,000 --> 00:03:24,000

Oh, thank you!

39

00:03:24,000 --> 00:03:28,000

But if there's a good thing, it's rotating.

40

00:03:31,000 --> 00:03:35,000

But in the Alaska Triangle, such sightings are nothing new.

41

00:03:37,000 --> 00:03:43,000

As far back as 1950, a U.S. Navy pilot based in the southwest of the triangle

42

00:03:43,000 --> 00:03:47,000

recorded a UFO going over 1,800 miles per hour.

43

00:03:49,000 --> 00:03:57,000

In fact, per head of population, there have been more UFOs reported in the skies of Alaska than of any other state.

44

00:04:01,000 --> 00:04:07,000

In 2020, late one November evening, an extraordinary video was taken.

45

00:04:08,000 --> 00:04:13,000

It was shot by a local man traveling along the main highway of the small town of Wasilla.

46

00:04:16,000 --> 00:04:23,000

Wes Smith was on his way to the convenience store with his wife, when something in the sky caught their eye.

47

00:04:24,000 --> 00:04:33,000

We saw two pairs of lights. Each of them were in triangular formation, with three lights apiece on the points.

48

00:04:34,000 --> 00:04:40,000

The lights were low to the road, but still the couple presumed they were planes.

49

00:04:40,000 --> 00:04:44,000

But the closer they got, the less sure they were.

50

00:04:45,000 --> 00:04:49,000

You've seen planes and they'll bank. You know, and my mom was a pilot for 20 years.

51

00:04:49,000 --> 00:04:56,000

This thing came to a dead stand still, and without changing orientation or moving, it just started left.

52

00:04:56,000 --> 00:05:00,000

There was no banking. I mean, it was just boom, boom.

53

00:05:00,000 --> 00:05:04,000

Boom. Just kept moving. It was very strange.

54

00:05:04,000 --> 00:05:10,000

Other still was the fact that these low flying craft were totally silent.

55

00:05:10,000 --> 00:05:13,000

Even drones make some noise.

56

00:05:13,000 --> 00:05:19,000

It's like everything you've ever been taught is kind of going out the window, because how is that possible?

57

00:05:19,000 --> 00:05:23,000

How is it not making noise? How did it just move sideways?

58

00:05:23,000 --> 00:05:28,000

It was pretty stunning. It was spectacular. I've never seen anything like it.

59

00:05:29,000 --> 00:05:37,000

But perhaps the most striking video from 2020 comes from Palmer, just 11 miles from Wasilla.

60

00:05:38,000 --> 00:05:47,000

Lifelong resident Michael Dillon was filming the beautiful Alaskan night sky when a strange light suddenly appeared.

61

00:05:48,000 --> 00:05:55,000

All of a sudden, there it was, and it just appeared right there in the center of the frame.

62

00:05:55,000 --> 00:05:59,000

And I saw it with my naked eye as well.

63

00:05:59,000 --> 00:06:05,000

It was moving from west to east, and then just shot straight up.

64

00:06:06,000 --> 00:06:10,000

This video has never been shown on TV before.

65

00:06:10,000 --> 00:06:18,000

At first I was thinking, no, there's no way. There's no way. And I rolled the camera back and I watched it, and there it was right there.

66

00:06:18,000 --> 00:06:23,000

The light of an aircraft wouldn't suddenly appear in the middle of the frame.

67

00:06:23,000 --> 00:06:28,000

And the subsequent movement is very unusual.

68

00:06:28,000 --> 00:06:34,000

So it was very obvious to me at that point that we were not witnessing a natural phenomenon.

69

00:06:35,000 --> 00:06:44,000

For something to change direction that fast, at that far away, and at that speed, a human body would be liquefied.

70

00:06:44,000 --> 00:06:48,000

And there's no way it would be able to withstand the G-forces of that.

71

00:06:49,000 --> 00:06:54,000

I honestly don't know what it was, but I want to find out.

72

00:06:56,000 --> 00:07:04,000

In Vancouver, Canada, Johnny Enoch is a clinical hypnotherapist and extraterrestrial investigator.

73

00:07:06,000 --> 00:07:13,000

He's been researching the phenomenon of UFOs in the Alaska Triangle and has been collating some of the more recent videos.

74

00:07:14,000 --> 00:07:21,000

He's just been sent one from Skagway in the east of the triangle, filmed in October 2020.

75

00:07:23,000 --> 00:07:32,000

This video is astonishing. This is not a star, it's not a satellite, and it's certainly no aircraft.

76

00:07:32,000 --> 00:07:37,000

Look at how fast it's moving in the unnatural zigzag movement.

77

00:07:38,000 --> 00:07:46,000

The only option would be a bug up close to the camera, but that's impossible. This is a cold nighttime in Alaska.

78

00:07:50,000 --> 00:07:57,000

There's clearly something going on with UFOs in the Alaska Triangle, but what could be drawing them there?

79

00:07:58,000 --> 00:08:03,000

It's that crucial question for which Johnny is determined to find an answer.

80

00:08:03,000 --> 00:08:08,000

Perhaps the very remoteness of Alaska is itself a factor.

81

00:08:11,000 --> 00:08:16,000

In St. Louis, Missouri, another investigation is underway.

82

00:08:18,000 --> 00:08:23,000

Debbie Ziegelmeier is an investigator with MUFON, the mutual UFO network.

83

00:08:24,000 --> 00:08:27,000

She thinks the remoteness of Alaska is key.

84

00:08:28,000 --> 00:08:37,000

The reason that Alaska is attracting UFOs is because of the vast wilderness of the area, the low population.

85

00:08:38,000 --> 00:08:41,000

They can pretty well just pick where they want to go.

86

00:08:42,000 --> 00:08:47,000

There's people over here, let's just move over here. I think that's the attraction of Alaska.

87

00:08:48,000 --> 00:08:53,000

It's true that few people live outside of the main towns.

88

00:08:54,000 --> 00:09:00,000

In fact, in Central Alaska, less than 100,000 people live in an area the size of Texas.

89

00:09:03,000 --> 00:09:11,000

So the remoteness could be an attraction for the UFOs, but that doesn't explain why they're here or what they're up to.

90

00:09:12,000 --> 00:09:20,000

It's the remarkable testimony of one witness deep in the interior of Alaska that could provide an important clue.

91

00:09:21,000 --> 00:09:27,000

100 miles southeast of Fairbanks is the small town of Delta Junction.

92

00:09:28,000 --> 00:09:32,000

It's where 41-year-old Rance Lenz has lived his whole life.

93

00:09:33,000 --> 00:09:42,000

30 years ago, early one morning, Rance was setting off for school. It was still dark and very cold.

94

00:09:43,000 --> 00:09:47,000

Every day he walked to the nearest bus stop for the journey into town.

95

00:09:48,000 --> 00:09:55,000

As I'm walking up to the bus stop, I just noticed this light through the trees just over the

horizon.

96

00:09:55,000 --> 00:10:08,000

I was staring at it. It was a green, yellow and red light, three different little lights, and there was a yellow glowing in the middle.

97

00:10:09,000 --> 00:10:11,000

And I'm like, this is pretty crazy.

98

00:10:12,000 --> 00:10:19,000

And I'm watching it and the lights are turning around and it started coming closer and closer and closer.

99

00:10:20,000 --> 00:10:25,000

And then that's when I started getting pretty nervous because I started feeling a buzz around me.

100

00:10:26,000 --> 00:10:28,000

And the only way to describe it was static electricity.

101

00:10:29,000 --> 00:10:32,000

At that point, I started getting real nervous.

102

00:10:33,000 --> 00:10:38,000

And that's when it started moving left and right, up and down really fast.

103

00:10:39,000 --> 00:10:46,000

You see a plane go over to the left or to the right. It goes through the air. This was one spot and it was to the next.

104

00:10:46,000 --> 00:10:48,000

And then it was up super fast.

105

00:10:49,000 --> 00:10:59,000

At that point, I'm really freaked out and it blasted off just out of sight and it was over.

106

00:11:00,000 --> 00:11:05,000

It would never occurred to me keep an eye out for aliens or for UFOs.

107

00:11:06,000 --> 00:11:12,000

But after that, that definitely made me a believer that was not a human thing.

108

00:11:12,000 --> 00:11:16,000

That was definitely something not from this world.

109

00:11:18,000 --> 00:11:22,000

This shocking childhood experience led to a fascination with technology.

110

00:11:23,000 --> 00:11:28,000

And Rantz went on to become a specialist engineer working at the neighboring military base.

111

00:11:29,000 --> 00:11:33,000

It's called Fort Greeley and it's home to top secret military testing.

112

00:11:34,000 --> 00:11:42,000

It was there that he found out he wasn't the only one to see a UFO in the area and the military testing could be the reason.

113

00:11:43,000 --> 00:11:46,000

There's definitely more sightings when there's heavy, heavy testing.

114

00:11:49,000 --> 00:11:54,000

Folks on the tests see different lights and different things off the horizon.

115

00:11:55,000 --> 00:12:01,000

Weapons testing seems to attract the UFOs. Some believe the military knows they're here.

116

00:12:01,000 --> 00:12:04,000

For Johnny Enoch, one question jumps out.

117

00:12:05,000 --> 00:12:11,000

Could this suggest that there is a tie between the military and the UFOs?

118

00:12:12,000 --> 00:12:16,000

There is definitely UFOs and the military is aware of them.

119

00:12:17,000 --> 00:12:22,000

A UFO presence in Alaska that the military is aware of.

120

00:12:23,000 --> 00:12:29,000

If this is true, then one other staggering secrets may be waiting to be disclosed.

121

00:12:31,000 --> 00:12:37,000

To date, there have been over 6,500 reported sightings of UFOs in Alaska.

122

00:12:39,000 --> 00:12:41,000

More than in any other state.

123

00:12:44,000 --> 00:12:50,000

Every year there are reports of innumerable UFO sightings in the Alaska Triangle.

124

00:12:52,000 --> 00:12:55,000

Something is drawing them there.

125

00:12:56,000 --> 00:13:06,000

When you bring up the subject of UFOs down south, I'd say about 75% of the time there's a scoff and a rolling of the eyes and you're one of those people.

126

00:13:07,000 --> 00:13:13,000

You start talking about that in Alaska, hardly anybody scoffs at you because it's just so prevalent up here.

127

00:13:14,000 --> 00:13:22,000

And one of the most active areas for UFOs is right in the middle of the Triangle, around Delta Junction and Fort Greeley.

128

00:13:23,000 --> 00:13:27,000

Home to the US military's cold weather testing operations.

129

00:13:28,000 --> 00:13:32,000

It's the Arctic testing facility for the military of the United States.

130

00:13:34,000 --> 00:13:43,000

For nine years, Rance Lenz worked at Fort Greeley as a highly skilled engineer, involved in the testing of the most up-to-date military technology.

131

00:13:44,000 --> 00:13:56,000

As a boy, he had a close encounter with a UFO and he now believes there are those in the military who are aware of their presence.

132

00:13:57,000 --> 00:14:06,000

The test commanders, you would ask them questions and it was, yeah, you could tell they wanted to say something but they didn't.

133

00:14:07,000 --> 00:14:12,000

It was pretty much, don't talk about it, let's not talk about that.

134

00:14:13,000 --> 00:14:20,000

It seemed like a topic that was not wanting to be talked about, so I just left it at that and didn't want to jeopardize my job there.

135

00:14:21,000 --> 00:14:26,000

One theory is that the UFOs are checking out the latest weapons technology.

136

00:14:28,000 --> 00:14:31,000

Perhaps, even with the cooperation of the military.

137

00:14:32,000 --> 00:14:43,000

But Johnny Enoch has unearthed a newspaper article from the 70s that suggests the UFOs visiting Fort Greeley have an interest that goes beyond humankind.

138

00:14:45,000 --> 00:14:49,000

Look at this, this is a shocking newspaper article.

139

00:14:50,000 --> 00:15:00,000

It's from 1972, in a clearing, 53 mutilated dead caribou were discovered arranged in a circle, 50 to 75 yards in diameter.

140

00:15:01,000 --> 00:15:06,000

This gruesome discovery took place just a few miles from Fort Greeley.

141

00:15:07,000 --> 00:15:11,000

At the time, many believed it was a sign of alien activity.

142

00:15:14,000 --> 00:15:19,000

Now, Johnny's investigations have led him to the report of another mutilated animal circle.

143

00:15:21,000 --> 00:15:29,000

This time, it's out on the eastern edge of the Alaska Triangle, hundreds of miles from any known military activity.

144

00:15:30,000 --> 00:15:36,000

In 1978, another circle of dead animals was found and these weren't just caribou.

145

00:15:37,000 --> 00:15:39,000

This is an extraordinary story.

146

00:15:40,000 --> 00:15:44,000

A couple of hikers broke camping in the middle of the wilderness.

147

00:15:45,000 --> 00:15:51,000

Early in the morning, one was up before the other, he saw something and it stopped him in his tracks.

148

00:15:51,000 --> 00:16:00,000

He said he had a glimpse of what looked like a typical flying saucer and had landed in a clearing just walking distance from where they were.

149

00:16:01,000 --> 00:16:07,000

The young hiker was a trained pilot and wouldn't have mistaken any known aircraft for a flying saucer.

150

00:16:08,000 --> 00:16:15,000

He estimated the mysterious craft was 20 to 30 feet in diameter and it landed about a half a mile away.

151

00:16:16,000 --> 00:16:22,000

With some trepidation, they set off hiking down to the spot where they thought the craft had landed.

152

00:16:25,000 --> 00:16:30,000

Eventually, when they got to the landing spot, whatever it was had gone.

153

00:16:34,000 --> 00:16:40,000

But it was obvious that something had been there. It had left the mark of a perfect circle.

154

00:16:40,000 --> 00:16:45,000

But most unusual of all, there were dead animals.

155

00:16:46,000 --> 00:16:51,000

Dead animals that were mutilated and scattered in the circumference of the circle.

156

00:16:53,000 --> 00:17:00,000

These animals were precisely placed there and cut open and they were still warm to the touch.

157

00:17:03,000 --> 00:17:05,000

There was moose, bear and caribou.

158

00:17:05,000 --> 00:17:12,000

In bizarrelly, there was a killer whale that was hundreds of miles from the ocean.

159

00:17:13,000 --> 00:17:19,000

A killer whale in the middle of the Alaskan wilderness and with no sign of how it got there.

160

00:17:22,000 --> 00:17:30,000

It's strange enough for the other animals to be laid out in this circular pattern, but how on earth does a killer whale end up out there?

161

00:17:31,000 --> 00:17:40,000

Something must have carried it out there and put it there, but there was no tracks of anything to be found there, not even the tracks of the animals themselves.

162

00:17:41,000 --> 00:17:49,000

It's as if a circular alien craft has carried animals to this deserted spot to conduct biological experiments.

163

00:17:50,000 --> 00:18:08,000

Debbie Ziegelmeier of the Mutual UFO Network has been investigating other gruesome examples of this bizarre phenomenon from across the U.S. where mutilations of cattle are not uncommon.

164

00:18:09,000 --> 00:18:23,000

I've investigated cattle mutilations since 2011 and the thing about cattle mutilations is the way that the cuts are made, how the animal is left.

165

00:18:24,000 --> 00:18:30,000

The incisions tend to be incredibly precise and often not a drop of blood is spilled.

166

00:18:31,000 --> 00:18:36,000

One of the ones that I investigated was a cow that was found on ice.

167

00:18:36,000 --> 00:18:45,000

We had an ice storm and the cow was laying on the ice with the whole side of the face cut out, the udder cut out, and there wasn't a drop of blood on the ice.

168

00:18:46,000 --> 00:18:47,000

The blood was gone.

169

00:18:50,000 --> 00:18:58,000

So is this something that could be caused by alien beings? Most likely so.

170

00:19:00,000 --> 00:19:12,000

There have been federal investigations into these mysterious cattle mutilations which have confirmed that the blood has been totally drained with no trace of blood left on the ground and no footprints.

171

00:19:16,000 --> 00:19:24,000

But it's only in the Alaska Triangle where the animals have been laid out in a precise circle as if carried by a circular craft.

172

00:19:25,000 --> 00:19:32,000

And now further evidence has come to light of something round and mysterious landing in the Triangle.

173

00:19:35,000 --> 00:19:47,000

In January 2019 in Haynes, on the eastern edge of the Gulf of Alaska, another strange circle was found, this time made up of marks in the snow.

174

00:19:48,000 --> 00:19:58,000

It was found by local hunter Tim Ackerman and he's convinced the marks are of an unknown craft.

175

00:19:59,000 --> 00:20:09,000

This is the tracks. Each one of these is the landing legs, four feet across and there's 12 of them the same as a clock.

176

00:20:10,000 --> 00:20:12,000

Fresh snow doesn't lie.

177

00:20:17,000 --> 00:20:25,000

We discovered the tracks in the snow, it was probably 30, 35 minutes after sunrise.

178

00:20:28,000 --> 00:20:34,000

And the hair went up on the back of my neck and I knew this was not an ordinary find.

179

00:20:36,000 --> 00:20:39,000

I knew we were dealing with something different.

180

00:20:40,000 --> 00:20:48,000

The tracks were in a perfect circle. Tim deduced that they could only have been left by some kind of a craft that had landed.

181

00:20:49,000 --> 00:20:56,000

The legs of this thing touched down and you could see the melt patterns on the snow, on the ice.

182

00:20:57,000 --> 00:21:03,000

I think that they thought all the tracks would be melted before somebody found them.

183

00:21:04,000 --> 00:21:15,000

Tim rushed to spray the marks with red paint. He wanted to get accurate measurements and for all the marks to show on his photos, but it was a race before the snow melted.

184

00:21:16,000 --> 00:21:28,000

We measured it, it was 32 feet across. It is not anything that I had ever come across and it was pretty obvious that it was not of this world.

185

00:21:29,000 --> 00:21:39,000

These photos are truly astonishing. They appear to show indentations in the snow, maybe where the feet of the craft landed.

186

00:21:40,000 --> 00:21:48,000

They're in a circle, but what else could have caused them? A drone landing maybe? But I would say they're too big for a drone.

187

00:21:49,000 --> 00:21:55,000

It's not an aircraft, I can tell you that. I can't think of what else could have made them.

188

00:21:58,000 --> 00:22:05,000

Like many others who live along this stretch of the Alaskan coast, Tim has seen strange flying objects in the sky.

189

00:22:09,000 --> 00:22:17,000

And now here, at last, seem to be physical evidence. But the most incredible find was still to come.

190

00:22:19,000 --> 00:22:22,000

Tim believes that this is the footprint of an alien.

191

00:22:23,000 --> 00:22:29,000

We could actually see vague prints in the snow.

192

00:22:30,000 --> 00:22:38,000

For Tim, as an experienced hunter, these tracks were highly distinctive and unique, and not just because of their shape.

193

00:22:40,000 --> 00:22:48,000

Everything that walks in the snow, they drag their feet. There's always that forward motion with their feet.

194

00:22:49,000 --> 00:23:03,000

But the interesting thing about these tracks was the being or animal, whatever it may be, pulled its feet out identically as they went in.

195

00:23:04,000 --> 00:23:07,000

They reversed their foot out and made the next step.

196

00:23:08,000 --> 00:23:17,000

There was no snow that was kicked forward or backwards, because I've never seen any tracks like that before anywhere in Alaska.

197

00:23:19,000 --> 00:23:31,000

For Tim, these photos are evidence not just of a UFO landing in Alaska, but of an alien walking on the Earth, captured here because of his quick thinking.

198

00:23:32,000 --> 00:23:39,000

But these photos need to be put to the test. We're sending them for expert analysis.

199

00:23:40,000 --> 00:23:49,000

Meanwhile, having captured on his phone what he thinks is a UFO, Michael Dillon is keen to find more evidence of his own.

200

00:23:50,000 --> 00:24:00,000

He's venturing up Lazy Mountain, which overlooks his hometown of Palmer for a nighttime stakeout, and this time with a high quality camera.

201

00:24:00,000 --> 00:24:10,000

So now we are all set up, we're seeing Palmer down below, the lights are starting to turn on in town. Now we just sit back and wait for it to get dark.

202

00:24:11,000 --> 00:24:17,000

And in the Alaska Triangle, the wait to see something extraordinary is never long.

203

00:24:19,000 --> 00:24:25,000

In the Alaska Triangle, reports and videos of UFOs are becoming increasingly common.

204

00:24:25,000 --> 00:24:31,000

UFO witness Michael Dillon is just one Alaskan resident who suspects something is afoot.

205

00:24:35,000 --> 00:24:45,000

Having already witnessed what he's convinced is a UFO, Michael's now determined to find more evidence and is on a nighttime stakeout above his hometown of Palmer.

206

00:24:48,000 --> 00:24:51,000

It's not long before something catches his eye.

207

00:24:52,000 --> 00:24:57,000

Here we go, we got something moving. I just caught it in the eyepiece.

208

00:25:00,000 --> 00:25:04,000

Over the course of the night, Michael had several curious sightings.

209

00:25:06,000 --> 00:25:12,000

But it's only on reviewing his photos afterwards that the full extent of these sightings is revealed.

210

00:25:13,000 --> 00:25:18,000

We're actually able to catch three at the exact same time in multiple frames.

211

00:25:20,000 --> 00:25:26,000

Two of them are moving in the same direction and one is moving perpendicular and they pretty much cross each other.

212

00:25:27,000 --> 00:25:33,000

On the screen, these look like meteors, but they can't be. They're not moving anywhere near fast enough.

213

00:25:34,000 --> 00:25:41,000

The two moving in the same direction about the same light level, but the one that goes across is much brighter.

214

00:25:43,000 --> 00:25:52,000

A long exposure on the photos means that the direction of travel of the unidentified objects can easily be seen, especially on the brightest object.

215

00:25:54,000 --> 00:25:59,000

You can see the movement through the photos all the way up.

216

00:26:00,000 --> 00:26:08,000

We didn't see any blinking, we didn't see any marker lights, nothing of different colors, which we usually would indicate an aircraft.

217

00:26:09,000 --> 00:26:15,000

There's a lot of stuff flying over Alaska right now. This is pretty crazy.

218

00:26:17,000 --> 00:26:21,000

But it's not just in the skies that there have been mysterious sightings.

219

00:26:22,000 --> 00:26:34,000

We have reports that UFOs have been visiting the Alaska Triangle, but what's even more exciting to me as a researcher is that we also have reports of them landing here.

220

00:26:35,000 --> 00:26:43,000

Surprisingly, the claim that this photo shows the markings of a UFO landing may have some ancient evidence to support it.

221

00:26:44,000 --> 00:26:51,000

The photo was taken on the eastern coast of the Triangle by local hunter Tim Ackerman.

222

00:26:55,000 --> 00:27:04,000

And Tim's now keen to revisit a hidden site in the mountains above the town, one that has special significance to the native community.

223

00:27:05,000 --> 00:27:16,000

He knows that on the rock face here are age-old paintings that he thinks could relate to the mysterious marks he found in the snow.

224

00:27:20,000 --> 00:27:21,000

There they are right there.

225

00:27:22,000 --> 00:27:34,000

These rock paintings are in red ochre. They're thought to depict objects of significance as seen by the tribal shaman.

226

00:27:35,000 --> 00:27:37,000

It's definitely a fish right there.

227

00:27:38,000 --> 00:27:45,000

A fish, no doubt a salmon, the staple food of the area and of central importance to tribal culture.

228

00:27:46,000 --> 00:27:56,000

The stick figure right here, you can see the, looks like the eyebrows and the two eyes and the face and then the two arms and legs coming down.

229

00:27:57,000 --> 00:28:01,000

This is what we would call the spirit helper for the shaman.

230

00:28:05,000 --> 00:28:08,000

But it's this that Tim has come to see.

231

00:28:09,000 --> 00:28:14,000

It looks like a wheel, but the native people of the Americas didn't have wheeled transport.

232

00:28:15,000 --> 00:28:22,000

Tim believes it's the view from below of a UFO, similar to the one that he says landed in the snow.

233

00:28:23,000 --> 00:28:34,000

I do believe that that spoke wheel was what the shaman saw and it's the 12 landing gear that came down in that circle.

234

00:28:35,000 --> 00:28:40,000

Matches what the traction, the snow is, the 12 points.

235

00:28:41,000 --> 00:28:47,000

And it's on the ceiling, not on the wall, so it was something that he saw up above.

236

00:28:48,000 --> 00:28:52,000

Beside the circle is what Tim calls the flying wing.

237

00:28:53,000 --> 00:28:57,000

Another mysterious flying craft that has been seen in the skies here.

238

00:28:58,000 --> 00:29:08,000

I guess you could say the parts of the story come together and what he was depicting on the rock art.

239

00:29:10,000 --> 00:29:15,000

For Tim, this is an ancient depiction of a super advanced alien craft,

240

00:29:18,000 --> 00:29:22,000

perhaps piloted by the same beings that made these footprints.

241

00:29:23,000 --> 00:29:30,000

We've sent Tim's photos to internationally renowned hunter and tracker, Chuk Rowley.

242

00:29:31,000 --> 00:29:34,000

Chuk grew up in the Alaskan wilderness.

243

00:29:35,000 --> 00:29:40,000

If these footprints are of this world, then he will be able to identify them.

244

00:29:42,000 --> 00:29:50,000

First of all, you have a 32 foot diameter circle with these marks that is made in the snow.

245

00:29:51,000 --> 00:29:57,000

And there is no known animal that I'm aware of that would make a circle like this.

246

00:29:58,000 --> 00:30:05,000

In addition to this circular indentation pattern, there are these tracks we found.

247

00:30:06,000 --> 00:30:11,000

Now these tracks are very interesting. I've never seen a track like this in Alaska.

248

00:30:12,000 --> 00:30:15,000

I do a lot of hunting and tracking of animals, identifying tracks.

249

00:30:16,000 --> 00:30:18,000

I can't explain this.

250

00:30:21,000 --> 00:30:29,000

This is a strange track. It's almost star shaped. It's from a flat footed creature.

251

00:30:30,000 --> 00:30:36,000

And to me it looks like some kind of weird reptilian. I don't know what.

252

00:30:38,000 --> 00:30:43,000

An unknown bipedal reptilian with a stride of one and a half feet.

253

00:30:44,000 --> 00:30:53,000

So I can't explain it and the fact that it's next to the circular indentation to me is very interesting.

254

00:30:54,000 --> 00:30:56,000

I've never seen prints like this before.

255

00:31:00,000 --> 00:31:07,000

Back in Vancouver, Johnny Enoch is convinced the UFOs are with us here and now, and they're watching us.

256

00:31:08,000 --> 00:31:14,000

I think we are a great zoological experiment to them. They're highly fascinated by us.

257

00:31:15,000 --> 00:31:23,000

They're checking on us just like you would check on your pet, seeing how our environment is doing, what we're getting up to.

258

00:31:24,000 --> 00:31:32,000

In my opinion, they're doing nothing more than taking samples, exploring the biodiversity and maybe checking on the floor and fauna.

259

00:31:33,000 --> 00:31:37,000

If so, the Alaska Triangle would be the perfect place.

260

00:31:38,000 --> 00:31:41,000

But for Michael Dillon, there's more to it than that.

261

00:31:42,000 --> 00:31:51,000

He believes that the military's release of the UFO videos in 2020 is a sign not only that the military is in contact with the UFOs,

262

00:31:52,000 --> 00:31:58,000

but that something big is being planned and releasing the videos is one step in preparing us.

263

00:32:03,000 --> 00:32:09,000

The fact that they're doing this leads me to believe that they're getting us ready for something,

264

00:32:10,000 --> 00:32:17,000

which would mean they would have to have had some type of intelligence and the easiest way to get that intelligence would have been by contact.

265

00:32:18,000 --> 00:32:27,000

So I think that they're just getting further and further and further to the point where we're going to have something really big happen here in Alaska.

266

00:32:28,000 --> 00:32:35,000

Whatever the truth, the evidence is building that there is a UFO presence in the Alaska Triangle.

267

00:32:36,000 --> 00:32:42,000

And if they're now visiting us on the ground, then the consequences for all of us could be staggering.

268

00:32:44,000 --> 00:32:47,000

But the evidence doesn't end at creatures from outer space.

269

00:32:48,000 --> 00:32:55,000

Incredibly, it now seems that Alaska could be home to terrifying creatures from the long distant past.

270

00:32:56,000 --> 00:32:58,000

Even dinosaurs.

271

00:32:59,000 --> 00:33:03,000

The Alaska Triangle is one of the most biodiverse regions on Earth.

272

00:33:04,000 --> 00:33:12,000

It's estimated that there are thousands of species currently unknown to science, but the story doesn't end there.

273

00:33:13,000 --> 00:33:19,000

Some believe there are monstrous creatures previously thought long extinct, alive in Alaska,

274

00:33:19,000 --> 00:33:24,000

such as giant prehistoric bears and even species of dinosaur.

275

00:33:26,000 --> 00:33:36,000

Could the Alaska Triangle be some kind of lost world where dinosaurs, other types of giant beasts still exist?

276

00:33:36,000 --> 00:33:42,000

If this is going to be anywhere where these are found, surely it must be the Alaska Triangle.

277

00:33:43,000 --> 00:33:51,000

I think what we have here are the last remnants of a relic population, and here we have physical evidence of it.

278

00:33:54,000 --> 00:33:57,000

It was a dinosaur ran across the highway.

279

00:34:04,000 --> 00:34:11,000

The wild animals of Alaska present many known risks, but this is also a land of secret dangers.

280

00:34:13,000 --> 00:34:20,000

Bear attacks are a constant cause for concern, and we think of these beasts as apex predators.

281

00:34:22,000 --> 00:34:30,000

But some bears of the prehistoric age were almost twice as big, twice as powerful and capable of doing twice as much damage.

282

00:34:31,000 --> 00:34:36,000

The worry for Alaskans is that monsters like this may still be out there.

283

00:34:37,000 --> 00:34:46,000

Cliff Berwickman is a cryptozoologist who's been investigating the discovery of a huge bear skull, bigger than any known bear.

284

00:34:47,000 --> 00:34:57,000

What we have here is a photograph of a bear skull uncovered in Alaska in 2014, and immediately upon digging it out of the ground, they knew they had something special.

285

00:34:57,000 --> 00:35:01,000

This thing made news because it is massive.

286

00:35:07,000 --> 00:35:16,000

This monstrous skull was unearthed during an archaeological dig on the outskirts of Utkyagvik at the northern tip of the Alaska Triangle.

287

00:35:17,000 --> 00:35:24,000

The skull was an astonishing 16 inches long and an unusually slender and elongated shape.

288

00:35:24,000 --> 00:35:40,000

Some of the native groups in this part of Alaska report or describe massive bears, 6-8 feet at the shoulder, standing 12-14-15 feet tall sometimes.

289

00:35:42,000 --> 00:35:52,000

Maybe this skull belongs to one of those bears, one of these truly massive bears that the Inuit tell stories of, and they still might be around.

290

00:35:54,000 --> 00:36:02,000

As well as giant bears, native tradition tells of all manner of strange animals in the Alaskan wilderness.

291

00:36:03,000 --> 00:36:11,000

Bruce Wright is a former professor from the University of Alaska who has a keen interest in undiscovered species.

292

00:36:12,000 --> 00:36:23,000

There's all these observations from people out there that go back, as far as we know, thousands of years of other strange animals out there.

293

00:36:25,000 --> 00:36:32,000

So as a scientist it would be really interesting to find a species that's brand new to science, right?

294

00:36:32,000 --> 00:36:43,000

I mean there's still a lot of wild habitat out there, so who knows if we've got some prehistoric animal out there, you know, that would be super exciting.

295

00:36:44,000 --> 00:36:55,000

Stories of strange creatures in the Alaskan wilderness are age-old, and there's now evidence that some of the creatures themselves may be prehistoric.

296

00:36:59,000 --> 00:37:03,000

Brian Stoker is a driver and tour guide based in Anchorage.

297

00:37:04,000 --> 00:37:10,000

One summer in the late 90s he was driving some cruise line passengers to their waiting ship.

298

00:37:10,000 --> 00:37:14,000

He's never going to forget what he saw that day.

299

00:37:14,000 --> 00:37:20,000

For my job, sometimes I'm doing ship transfers from Anchorage to Seward and back.

300

00:37:20,000 --> 00:37:27,000

And on this particular day I was driving a cruise line passengers from Anchorage to Seward.

301

00:37:28,000 --> 00:37:33,000

And I see something down in the ditch.

302

00:37:35,000 --> 00:37:37,000

Brian stopped to have a better look.

303

00:37:37,000 --> 00:37:43,000

It appeared to be some sort of bizarre creature, something totally out of the ordinary.

304

00:37:45,000 --> 00:37:49,000

Then, as he was watching, it moved right out in front of him.

305

00:37:49,000 --> 00:37:52,000

For a moment, their eyes locked.

306

00:37:53,000 --> 00:37:57,000

Brian couldn't believe what he was seeing.

307

00:38:00,000 --> 00:38:02,000

His eyes get real wide.

308

00:38:02,000 --> 00:38:09,000

As it's looking at me, I'm looking at him, and it bolts across the Seward Highway onto the other side.

309

00:38:10,000 --> 00:38:14,000

Brian was transfixed, trying to take in what he had just seen.

310

00:38:17,000 --> 00:38:21,000

He knew that he had never witnessed anything like this before.

311

00:38:22,000 --> 00:38:27,000

And yet it dawned on him that he did recognize the creature.

312

00:38:28,000 --> 00:38:32,000

I said to my passengers, did anybody see that?

313

00:38:32,000 --> 00:38:34,000

And they said, what?

314

00:38:34,000 --> 00:38:38,000

And I said, I think it was a dinosaur.

315

00:38:38,000 --> 00:38:44,000

And they said, what? Yeah, it was a dinosaur ran across the highway.

316

00:38:44,000 --> 00:38:50,000

The creature wasn't large, but Brian was sure that it was something prehistoric.

317

00:38:51,000 --> 00:39:02,000

It was about three feet tall, tapered face, big eyes, little arms, kind of slenderish runner legs, tail, green.

318

00:39:03,000 --> 00:39:07,000

I think it was a velociraptor.

319

00:39:07,000 --> 00:39:11,000

A velociraptor is a vicious bipedal carnivore.

320

00:39:12,000 --> 00:39:19,000

Hunting in packs, it used its claws to take down and tear into creatures many times bigger.

321

00:39:19,000 --> 00:39:23,000

A human wouldn't stand the chance.

322

00:39:23,000 --> 00:39:29,000

According to science, it went extinct over 70 million years ago.

323

00:39:30,000 --> 00:39:37,000

Much to his surprise, it wasn't long before Brian found out he wasn't the only person to have seen one.

324

00:39:38,000 --> 00:39:41,000

A year or two later, I'm given that tour to a bunch of fifth graders.

325

00:39:41,000 --> 00:39:47,000

The teacher says to me, my last time here in Seward, I saw the strangest animal.

326

00:39:47,000 --> 00:39:51,000

And I said, was it a dinosaur?

327

00:39:51,000 --> 00:39:53,000

And she said, kind of?

328

00:39:53,000 --> 00:39:57,000

And she and I mutually described this thing.

329

00:39:58,000 --> 00:40:02,000

And the velociraptors may not be alone.

330

00:40:03,000 --> 00:40:14,000

In 2008, just a few miles from Brian's encounter, a giant flying creature was reported that matched the description of a prehistoric pterodactyl.

331

00:40:15,000 --> 00:40:22,000

And off the coast of Alaska, there have been reports of a monstrous sea creature resembling a Plesiosaur.

332

00:40:23,000 --> 00:40:33,000

If anywhere was to be the real lost world, then explorer Hugh Newman believes that surely it would be the Alaska Triangle.

333

00:40:34,000 --> 00:40:49,000

So prehistoric beasts were going to be anywhere it would be in Alaska because there's so few people, such a vast area of unexplored territory, the Alaska Triangle could still be holding on to some of the world's greatest mysteries.

334

00:40:50,000 --> 00:40:55,000

Alaska in general is a mysterious place.

335

00:40:56,000 --> 00:40:59,000

People take that next level and say a magical place.

336

00:41:00,000 --> 00:41:07,000

So could there be a pocket of population of something somewhere in Alaska?

337

00:41:08,000 --> 00:41:09,000

Why not?

338

00:41:10,000 --> 00:41:14,000

The mysteries of the Alaska Triangle know no bounds.

339

00:41:15,000 --> 00:41:18,000

They're not limited by time or space.

340

00:41:19,000 --> 00:41:29,000

The strange sightings continue and in the meantime we can only wonder at what extraordinary events are yet to unfold.
