

1

00:00:00,000 --> 00:00:04,000

Crossing dimensions of time and space.

2

00:00:04,000 --> 00:00:09,000

Technology beyond comprehension.

3

00:00:09,000 --> 00:00:12,000

They are watching.

4

00:00:12,000 --> 00:00:14,000

They are waiting.

5

00:00:17,000 --> 00:00:20,000

They are already here.

6

00:00:24,000 --> 00:00:27,000

I know what I saw is not from this Earth.

7

00:00:27,000 --> 00:00:29,000

It is just amazing.

8

00:00:30,000 --> 00:00:33,000

The Earth is a space.

9

00:00:44,000 --> 00:00:46,000

Deep in the heart of Texas,

10

00:00:46,000 --> 00:00:48,000

the small town of Stephenville

11

00:00:48,000 --> 00:00:50,000

is surrounded by wide open prairie,

12

00:00:50,000 --> 00:00:53,000

longhorn cattle and big skies.

13

00:00:56,000 --> 00:00:59,000

On January 8th, 2008,

14

00:00:59,000 --> 00:01:01,000

local resident Steve Allen

15

00:01:01,000 --> 00:01:03,000

gets together with friends Mike Odom

16

00:01:03,000 --> 00:01:07,000

and Lance Jones to enjoy a clear, mild night.

17

00:01:07,000 --> 00:01:11,000

It's been a very harsh, cold winter.

18

00:01:11,000 --> 00:01:14,000

I talked to my friend Mike on the phone earlier

19

00:01:14,000 --> 00:01:17,000

and he says, come on over and we'll build a little campfire outside

20

00:01:17,000 --> 00:01:20,000

and sit out and enjoy the sky.

21

00:01:20,000 --> 00:01:23,000

Being a pilot, I look up at the skies quite a bit.

22

00:01:23,000 --> 00:01:26,000

I'm going to take a look at the sky.

23

00:01:28,000 --> 00:01:30,000

Now that's strange.

24

00:01:37,000 --> 00:01:39,000

What the hell?

25

00:01:47,000 --> 00:01:48,000

Steve?

26

00:01:48,000 --> 00:01:50,000

I was the one to first see it.

27

00:01:50,000 --> 00:01:52,000

I'll check that out.

28

00:01:53,000 --> 00:01:56,000

I look towards the east and I see some lights coming at us

29

00:01:56,000 --> 00:01:59,000

at a very high rate of speed.

30

00:02:01,000 --> 00:02:04,000

Some very bright, intense lights.

31

00:02:04,000 --> 00:02:06,000

It looked like a magnesium flare.

32

00:02:06,000 --> 00:02:09,000

It's unlike anything that I had ever seen.

33

00:02:12,000 --> 00:02:14,000

What in the hell?

34

00:02:20,000 --> 00:02:22,000

Nobody wanted to say anything

35

00:02:22,000 --> 00:02:25,000

but we was at kind of an awestruck on it.

36

00:02:28,000 --> 00:02:32,000

One, two, three, four, five, six, seven.

37

00:02:33,000 --> 00:02:35,000

Being a pilot, first thing I thought of

38

00:02:35,000 --> 00:02:38,000

is what kind of airplane was it.

39

00:02:38,000 --> 00:02:40,000

I fly that area quite a bit

40

00:02:40,000 --> 00:02:43,000

and I'm familiar with how long it takes to get from point A to B.

41

00:02:43,000 --> 00:02:48,000

I estimated the speed to be in the several thousand miles an hour area.

42

00:02:48,000 --> 00:02:50,000

How something could move that fast

43

00:02:50,000 --> 00:02:54,000

and not even produce air noise going across the surface.

44

00:02:54,000 --> 00:02:56,000

No sound whatsoever.

45

00:02:58,000 --> 00:03:02,000

The lights come to a near dead stop over Stephenville.

46

00:03:02,000 --> 00:03:06,000

I didn't know if it was a war of the worlds or what.

47

00:03:09,000 --> 00:03:13,000

And then the seven lights reconfigured to a vertical shape.

48

00:03:16,000 --> 00:03:19,000

The light configuration in the rear was different.

49

00:03:19,000 --> 00:03:24,000

It had seven lights in the rear blinking at no particular time.

50

00:03:27,000 --> 00:03:29,000

They sat there for a moment or two

51

00:03:29,000 --> 00:03:32,000

and then all of a sudden they burst into a flame.

52

00:03:37,000 --> 00:03:42,000

The flame looked like it was like a quiet kind of a dirty oxygen flame

53

00:03:42,000 --> 00:03:45,000

and then it just simply disappeared.

54

00:03:46,000 --> 00:03:49,000

It didn't streak off or anything, it just disappeared.

55

00:03:50,000 --> 00:03:52,000

What the hell?

56

00:03:55,000 --> 00:03:58,000

I had never witnessed anything like this.

57

00:03:58,000 --> 00:04:01,000

Lance Jones jumped in his car and took off.

58

00:04:06,000 --> 00:04:09,000

He was alarmed and scared.

59

00:04:09,000 --> 00:04:12,000

He didn't say goodbye, see you later.

60

00:04:12,000 --> 00:04:16,000

It's been real or anything, he just got the heck out of dodge.

61

00:04:17,000 --> 00:04:21,000

Mike and I looked at each other and we said what in the world happened

62

00:04:21,000 --> 00:04:23,000

it just made no sense to me.

63

00:04:23,000 --> 00:04:26,000

We had to tell somebody so we went into his house

64

00:04:26,000 --> 00:04:30,000

to tell his wife Claudette about what had happened.

65

00:04:37,000 --> 00:04:39,000

Claudette's reaction at first was disbelief

66

00:04:39,000 --> 00:04:42,000

and that's when she says, oh you guys I want to call Lance

67

00:04:42,000 --> 00:04:47,000

and we invited her to go ahead and call Lance, you know, to verify our story.

68

00:04:47,000 --> 00:04:52,000

Why Lance has more credibility than Mike and I do, I don't know.

69

00:05:06,000 --> 00:05:08,000

Hello? Lance is gone.

70

00:05:08,000 --> 00:05:12,000

And before anything was said, I think Lance told Claudette

71

00:05:12,000 --> 00:05:15,000

hurry up and run back outside, it's coming again.

72

00:05:19,000 --> 00:05:20,000

It's better be good.

73

00:05:20,000 --> 00:05:25,000

It came by closer than the original time and lower as well.

74

00:05:27,000 --> 00:05:32,000

This thing was up close and personal, it wasn't something streaking out across the universe, it was close to us.

75

00:05:33,000 --> 00:05:39,000

And then all of a sudden two F-16s came by.

76

00:05:39,000 --> 00:05:46,000

Full after Burner had the flames hanging out the back of the jets in pursuit of it.

77

00:05:50,000 --> 00:05:54,000

We live in the close proximity of three different Air Force bases,

78

00:05:54,000 --> 00:06:00,000

we never get any F-16s in the area at that altitude much less in pursuit of another aircraft.

79

00:06:01,000 --> 00:06:04,000

It seemed like it was kind of keeping them in bay,

80

00:06:04,000 --> 00:06:07,000

like it could control at speed far greater than they could.

81

00:06:12,000 --> 00:06:16,000

We watched it go off into the east until it just went out of sight.

82

00:06:18,000 --> 00:06:21,000

I had never witnessed anything like this,

83

00:06:21,000 --> 00:06:25,000

not in the remote possibility of anything like this.

84

00:06:25,000 --> 00:06:30,000

Why would our military be chasing something of our own product?

85

00:06:30,000 --> 00:06:35,000

Obviously they wouldn't, so questions was what's it doing here?

86

00:06:35,000 --> 00:06:37,000

Why is it here and what do they want?

87

00:06:38,000 --> 00:06:40,000

Is it of danger to us?

88

00:06:41,000 --> 00:06:44,000

I had many questions that I needed answers for.

89

00:06:48,000 --> 00:06:52,000

I told Mike and Claudette when I left that night we're going to get to the bottom of it,

90

00:06:52,000 --> 00:06:55,000

but I had an urgency to go home.

91

00:06:57,000 --> 00:07:04,000

My first feeling was if it's the end of times I'd like to be at home and protect my house and my

wife and be with loved ones.

92

00:07:07,000 --> 00:07:12,000

I was still trying to process all we had seen and get it straight in my mind.

93

00:07:12,000 --> 00:07:14,000

What's going on?

94

00:07:18,000 --> 00:07:20,000

What's going on?

95

00:07:28,000 --> 00:07:29,000

What's that?

96

00:07:30,000 --> 00:07:33,000

Me and the guys tonight we saw some pretty strange lights in the sky.

97

00:07:34,000 --> 00:07:37,000

They were doing things I'd never seen anything do.

98

00:07:38,000 --> 00:07:41,000

A couple of jets went after them but they couldn't catch them.

99

00:07:41,000 --> 00:07:46,000

My wife could see that I was visibly shaken and knew I had actually seen something.

100

00:07:47,000 --> 00:07:48,000

UFO?

101

00:07:53,000 --> 00:07:56,000

She begged and pleaded with me to not tell anybody about it.

102

00:07:57,000 --> 00:08:00,000

Honey look you can't go around talking about UFOs okay?

103

00:08:01,000 --> 00:08:04,000

What we saw was real and I'm going to find out exactly what it was.

104

00:08:05,000 --> 00:08:06,000

Well...

105

00:08:06,000 --> 00:08:10,000

She didn't want me to speak about it because she'd think people would think we was crazy.

106

00:08:11,000 --> 00:08:17,000

Of course being a typical male you got to talk about it you know and do exactly what your wife tells you not to do.

107

00:08:19,000 --> 00:08:25,000

If I saw it by myself I might have not said anything but since there was three of us I thought well I've got to talk about it.

108

00:08:26,000 --> 00:08:28,000

With the hopes that other people had seen it.

109

00:08:29,000 --> 00:08:31,000

I got probably 30 minutes of sleep that night.

110

00:08:32,000 --> 00:08:38,000

I didn't sleep very much at all trying to figure out what had happened to us.

111

00:08:42,000 --> 00:08:47,000

My first phone call the next morning was to the airport here in Stephenville, Texas.

112

00:08:49,000 --> 00:08:52,000

I'm a pilot and those guys at the airport they know who I am.

113

00:08:53,000 --> 00:08:56,000

They know I may be a lot of things but I'm not a liar and don't make things up.

114

00:08:57,000 --> 00:09:00,000

So they took interest to what I might have seen.

115

00:09:01,000 --> 00:09:07,000

They called Fort Worth Tower where the radar is actually located at to see if there was anything unusual in the area.

116

00:09:07,000 --> 00:09:11,000

They did try to find out and get me some answers but they found none.

117

00:09:12,000 --> 00:09:14,000

That seemed terribly strange to me.

118

00:09:23,000 --> 00:09:30,000

My next phone call was to the newspaper to see if they had anybody that might have witnessed it or reported it.

119

00:09:30,000 --> 00:09:36,000

When I told the reporter what I saw she had not heard or seen anything of what we had seen.

120

00:09:37,000 --> 00:09:42,000

She found some credibility to my story and that's when she decided she would take it and run with it.

121

00:09:46,000 --> 00:09:48,000

A lot of people saw what we saw.

122

00:09:51,000 --> 00:09:56,000

But quite a few people here don't like the line light or be out in public.

123

00:09:57,000 --> 00:09:59,000

Didn't want their names mentioned.

124

00:10:00,000 --> 00:10:03,000

Several of them I persuaded to go ahead and come forward.

125

00:10:04,000 --> 00:10:07,000

Since I'm here by myself you guys helped me out.

126

00:10:08,000 --> 00:10:10,000

Sure enough one came to my aid. Thank goodness.

127

00:10:26,000 --> 00:10:33,000

I called the newspaper here in town and I talked to the editor and I told her the story and she asked me if they could print an article.

128

00:10:34,000 --> 00:10:39,000

And I said make sure you put my phone number in here just in case somebody else might have saw it. They can call me.

129

00:10:40,000 --> 00:10:43,000

I probably talked to at least 60 people the first day.

130

00:10:44,000 --> 00:10:47,000

I got all their names, their addresses, what they saw, when they saw it.

131

00:10:48,000 --> 00:10:50,000

Tried to get as many people as possible.

132

00:10:50,000 --> 00:10:52,000

Also I asked them would you be willing to come forward.

133

00:10:53,000 --> 00:10:58,000

Most are reluctant to go public but local county constable Leroy Gaten steps up.

134

00:10:59,000 --> 00:11:02,000

I've been in law enforcement for 20 years now.

135

00:11:03,000 --> 00:11:06,000

I am a constable and I'm elected by the people. I have a lot of credibility online here.

136

00:11:07,000 --> 00:11:08,000

I'm not a constable.

137

00:11:09,000 --> 00:11:11,000

I'm a constable and I'm elected by the people.

138

00:11:12,000 --> 00:11:14,000

I have a lot of credibility online here.

139

00:11:15,000 --> 00:11:16,000

I'm not a constable.

140

00:11:17,000 --> 00:11:18,000

I'm not a constable.

141

00:11:18,000 --> 00:11:19,000

I'm a constable.

142

00:11:25,000 --> 00:11:27,000

Was the mother enjoying her birthday?

143

00:11:28,000 --> 00:11:30,000

Yeah, her face was huge on that one.

144

00:11:31,000 --> 00:11:32,000

It was my wife's birthday.

145

00:11:33,000 --> 00:11:34,000

I had bought a cake. We'd cut for my wife.

146

00:11:38,000 --> 00:11:39,000

What was that?

147

00:11:40,000 --> 00:11:44,000

It was then when my boy pointed up to the sky and he said,

148

00:11:45,000 --> 00:11:47,000

Dad, look at those lights.

149

00:11:48,000 --> 00:12:03,760

I got a pair of binoculars and trying to get a better look of what it was that we were

150

00:12:03,760 --> 00:12:09,640

seeing and I couldn't make anything out other than these bright, bluish, fluorescent looking

151

00:12:09,640 --> 00:12:11,520

lights.

152

00:12:11,520 --> 00:12:15,560

During this whole time I'm trying to watch him and my boy's, you know, he's a 10 year

153

00:12:15,560 --> 00:12:18,440

old, he's asking me questions, Dad is that a flying saucer?

154

00:12:18,440 --> 00:12:19,440

What is that Dad?

155

00:12:19,440 --> 00:12:20,440

You know, what do they do?

156

00:12:20,440 --> 00:12:29,440

I know they're jets because I see them at the house all the time.

157

00:12:29,440 --> 00:12:30,440

I hear them.

158

00:12:30,440 --> 00:12:31,440

Who's that?

159

00:12:31,440 --> 00:12:35,960

I just thought to myself, is it a part of an experiment?

160

00:12:35,960 --> 00:12:36,960

What is this?

161

00:12:36,960 --> 00:12:41,600

I mean everything's happening so quickly and I'm thinking to myself, 9 million things.

162

00:12:41,600 --> 00:12:48,600

Is it something out of this world?

163

00:12:48,600 --> 00:12:50,200

Is it military?

164

00:12:50,200 --> 00:12:58,120

The local newspaper follows up on the story and contacts the Air Force.

165

00:12:58,120 --> 00:13:03,640

They reported that they did not have any aircraft in the area and nothing was going on.

166

00:13:03,640 --> 00:13:05,440

I found it quite alarming.

167

00:13:05,440 --> 00:13:11,120

You know, I know what an F-16 looks like.

168

00:13:11,120 --> 00:13:16,920

They flat out denied that they had military planes at night and I knew for a fact that

169

00:13:16,920 --> 00:13:25,200

there was at least two at night because I saw them.

170

00:13:25,200 --> 00:13:27,440

That obviously sends up a red flag to me.

171

00:13:27,440 --> 00:13:33,720

What are they trying to hide?

172

00:13:33,720 --> 00:13:36,680

I was in a quest for the truth.

173

00:13:36,680 --> 00:13:41,640

Whatever it took, whether it was to make a commotion with the media or the public or

174

00:13:41,640 --> 00:13:47,200

whatever, we was willing to do it.

175

00:13:47,200 --> 00:13:52,800

Steve contacts the Mutual UFO Network, one of the oldest and largest UFO investigative

176

00:13:52,800 --> 00:13:55,960

organizations in the United States.

177

00:13:55,960 --> 00:14:02,840

MUFON sends director of research Robert Powell to Stephenville to investigate the case.

178

00:14:02,840 --> 00:14:07,640

The first thing we tried to do was determine was this an airplane, was this someone with

179

00:14:07,640 --> 00:14:12,520

his running lights on, was this a star, which has nothing to do with whether we're talking

180

00:14:12,520 --> 00:14:15,280

about little green men or little gray guys.

181

00:14:15,280 --> 00:14:21,520

We're talking about an event, an unidentified flying object that no one knows what it is,

182

00:14:21,520 --> 00:14:25,440

but as a scientist, you must investigate it.

183

00:14:25,440 --> 00:14:32,600

Within days, the investigation turns up 17 witnesses to corroborate Steve Allen's story.

184

00:14:32,600 --> 00:14:38,240

Detective officials, other businessmen, law enforcement officers, a lot of different

185

00:14:38,240 --> 00:14:39,960

witnesses.

186

00:14:39,960 --> 00:14:47,240

What really made Stephenville such a unique UFO event was that not only did you have 17

187

00:14:47,240 --> 00:14:53,960

witnesses, you had witnesses who saw at different times over a three and a half hour period

188

00:14:53,960 --> 00:14:56,120

in over varied locations.

189

00:14:56,120 --> 00:15:00,920

This wasn't a case of a one single instance.

190

00:15:00,920 --> 00:15:08,440

That was extraordinary.

191

00:15:08,440 --> 00:15:15,800

Then another credible witness comes forward to challenge the military's claim that nothing

192

00:15:15,800 --> 00:15:26,200

unusual was flying in the Stephenville skies on the night of January 8th, 2008.

193

00:15:26,200 --> 00:15:32,480

The U.S. military denies dispatching F-16s over Stephenville, Texas on the night of January

194

00:15:32,480 --> 00:15:36,520

8th, 2008.

195

00:15:36,520 --> 00:15:41,760

But Constable Leroy Gaten and local pilot Steve Allen witnessed fighter jets chasing

196

00:15:41,760 --> 00:15:45,920

an unknown object, and they're not alone.

197

00:15:45,920 --> 00:15:54,840

We had 17 witnesses who came to tell us about what happened.

198

00:15:54,840 --> 00:16:00,720

A few people did come forward as unlike anything this town or this area had ever seen.

199

00:16:00,720 --> 00:16:07,760

And one reliable witness account stands above the rest.

200

00:16:07,760 --> 00:16:13,640

The night of January 8th, one of my officers was in the downtown area near the E.R.A.

201

00:16:13,640 --> 00:16:16,640

County Courthouse here in Stephenville.

202

00:16:16,640 --> 00:16:20,840

And he said to me that he saw a large object.

203

00:16:20,840 --> 00:16:26,200

The quote him, he thought it was an airplane that was going to crash.

204

00:16:26,200 --> 00:16:30,000

He said he could see, they outlined the silhouette, and then he saw some lights.

205

00:16:30,000 --> 00:16:33,960

It didn't take long to know it wasn't an airplane because he said it was horizontal and then

206

00:16:33,960 --> 00:16:45,920

it stood up vertically close to the courthouse and it slowly moved towards the east sky.

207

00:16:45,920 --> 00:16:51,000

They pointed his radar in that direction.

208

00:16:51,000 --> 00:16:52,000

Wasn't very fast.

209

00:16:52,000 --> 00:17:02,080

It was less than 20 miles an hour.

210

00:17:02,080 --> 00:17:08,480

From my experience of flying, I keep up with the latest technology in the aircraft industry,

211

00:17:08,480 --> 00:17:10,000

what their capabilities are.

212

00:17:10,000 --> 00:17:16,760

Of course the government has the best of everything and it's pretty well known what's produced

213

00:17:16,760 --> 00:17:19,040

and what they have.

214

00:17:19,040 --> 00:17:25,320

They may have a secret, I don't think they have one of these though.

215

00:17:25,320 --> 00:17:31,360

Aerospace engineer Dr. Wallace Fowler studies spacecraft design and flight testing.

216

00:17:31,360 --> 00:17:36,280

I have in the past held security clearances and I'm not about to say things that I shouldn't

217

00:17:36,280 --> 00:17:41,040

be saying about things that I knew about back then, but I'm sure that there are things

218

00:17:41,040 --> 00:17:48,360

out there that the military is doing that they're not telling us about.

219

00:17:48,360 --> 00:17:52,480

The SR-71 for example was an unknown thing for years.

220

00:17:52,480 --> 00:17:54,480

The F-117 was unknown for years.

221

00:17:54,480 --> 00:17:59,480

There were these strange sightings at this strange airplane out in the Nevada desert.

222

00:17:59,480 --> 00:18:03,480

Most probably somebody thought that was an alien spaceship, the way that thing looked.

223

00:18:04,200 --> 00:18:09,480

I knew it was some events that we'd never witnessed before.

224

00:18:09,480 --> 00:18:10,880

You didn't have to be a pilot.

225

00:18:10,880 --> 00:18:14,600

The first grader could have told you what they saw with good accuracy.

226

00:18:14,600 --> 00:18:20,120

Dozens of people in the North Texas town claim to have seen the UFO and now it's getting

227

00:18:20,120 --> 00:18:22,440

more wide attention.

228

00:18:22,440 --> 00:18:26,520

More and more witnesses continue to go public.

229

00:18:26,520 --> 00:18:32,480

We're approaching 100 people probably that have seen something in regard to this UFO.

230

00:18:33,480 --> 00:18:39,720

Many credible witnesses and sightings, they're all reporting it in the same area.

231

00:18:39,720 --> 00:18:43,480

The multiple reports set off a media frenzy.

232

00:18:43,480 --> 00:18:47,960

New York people witnessed what they say were the mysterious lights in the sky in the E-Rab

233

00:18:47,960 --> 00:18:50,480

County town of Stephenville.

234

00:18:50,480 --> 00:18:57,240

And under the glare of the media, the military releases some new information.

235

00:18:57,240 --> 00:19:03,480

And the military finally released a report saying that they did in fact have 10 F-16s

236

00:19:03,480 --> 00:19:04,480

in the area.

237

00:19:09,480 --> 00:19:13,160

And I found that to be quite disturbing.

238

00:19:13,160 --> 00:19:15,960

I just kind of felt betrayed.

239

00:19:15,960 --> 00:19:18,800

Why did they wait so long to come out?

240

00:19:18,800 --> 00:19:22,240

Obviously they were trying to hide something or cover something up.

241

00:19:22,240 --> 00:19:26,360

If it's something that they're working for a national defense, certainly they don't

242

00:19:26,480 --> 00:19:29,080

need to tell me or anyone else.

243

00:19:29,080 --> 00:19:33,960

All they would have to do is say it's one of ours goodbye into the story.

244

00:19:33,960 --> 00:19:38,720

But the official response to UFO evidence has been consistent across the U.S. government

245

00:19:38,720 --> 00:19:39,720

for decades.

246

00:19:39,720 --> 00:19:45,560

Investigative journalist Leslie Kane has spent the last 10 years documenting UFO sightings

247

00:19:45,560 --> 00:19:46,960

around the world.

248

00:19:46,960 --> 00:19:51,800

In the early 1950s, the Air Force set up a program called Project Blue Book.

249

00:19:51,800 --> 00:19:58,920

And the purpose of that program was to receive reports on UFO sightings from the public.

250

00:19:58,920 --> 00:20:05,080

Project Blue Book was very good at ridiculing people, or at least of issuing explanations

251

00:20:05,080 --> 00:20:07,880

for cases that were ludicrous.

252

00:20:07,880 --> 00:20:14,400

They were basically a public relations operation for the Air Force to minimize the mysterious

253

00:20:14,400 --> 00:20:19,280

aspect of UFOs.

254

00:20:19,280 --> 00:20:24,360

The military shut down Project Blue Book in 1970.

255

00:20:24,360 --> 00:20:29,440

In the case of Steventville, the Air Force claims witnesses were tricked by an optical

256

00:20:29,440 --> 00:20:33,240

illusion.

257

00:20:33,240 --> 00:20:37,320

They said it was a reflection off of a high altitude jet airliner.

258

00:20:37,320 --> 00:20:40,800

Very well could have been a reflection off of my shiny white ass is what it might have

259

00:20:40,800 --> 00:20:42,280

been.

260

00:20:42,280 --> 00:20:46,480

Another military explanation is lenticular clouds.

261

00:20:46,480 --> 00:20:50,960

Military lens shaped clouds that form at high altitude.

262

00:20:50,960 --> 00:20:56,600

These don't travel with two F-16s chasing them, so that was just totally absurd.

263

00:20:56,600 --> 00:21:01,840

Mufon investigator Robert Powell presses the Air Force for answers.

264

00:21:01,840 --> 00:21:07,680

No longer denying the presence of the F-16s, what else does the military know?

265

00:21:07,680 --> 00:21:11,240

My first reaction was I need to get radar information.

266

00:21:11,240 --> 00:21:17,000

So I sent freedom of information requests to every military base within 70 miles of

267

00:21:17,000 --> 00:21:20,280

Stevenville.

268

00:21:20,280 --> 00:21:27,280

In every case with military, the response was we have no information responsive to your

269

00:21:27,280 --> 00:21:29,000

request.

270

00:21:29,000 --> 00:21:30,960

Now what does that mean?

271

00:21:30,960 --> 00:21:33,320

It's not even a yes or a no.

272

00:21:33,320 --> 00:21:39,880

My immediate thought was I wonder can I get radar information from the FAA and try to

273

00:21:39,880 --> 00:21:44,160

verify what these witnesses have seen?

274

00:21:44,160 --> 00:21:49,160

The civilian federal aviation administration releases full radar reports for the night of

275

00:21:49,160 --> 00:21:53,520

January 8th, 2008 from an airport near Steventville.

276

00:21:53,520 --> 00:21:58,440

I don't think they knew what they were giving it for, so I think we snuck in and got it

277

00:21:58,440 --> 00:22:03,080

without them knowing what we were doing.

278

00:22:03,080 --> 00:22:08,760

The radar data is a play by play of the activity in the sky on the night of the mass sighting.

279

00:22:08,760 --> 00:22:18,200

This is a great chance to see if I can corroborate what these witnesses saw.

280

00:22:18,200 --> 00:22:21,960

A person might lie to you with the radar data won't.

281

00:22:21,960 --> 00:22:24,400

Powell begins by identifying the obvious.

282

00:22:24,400 --> 00:22:28,880

You can see commercial craft on the radar returns.

283

00:22:28,880 --> 00:22:30,280

Most of them were at high altitude.

284

00:22:30,280 --> 00:22:35,720

They were either descending or ascending out of the DFW at Fort Worth airspace.

285

00:22:36,280 --> 00:22:39,960

Next the data confirms the military's recent admission.

286

00:22:39,960 --> 00:22:45,520

The radar data did in fact show that there was 10 F-16s in the area.

287

00:22:45,520 --> 00:22:50,720

Then the radar reveals something more.

288

00:22:50,720 --> 00:22:58,440

During the time period of 6 p.m. to 9 30 p.m. we picked up a total of three unusual objects

289

00:22:58,440 --> 00:23:04,360

that moved through the Steenville area without transponders.

290

00:23:04,360 --> 00:23:10,400

Powell knows the U.S. government requires all aircraft to use transponders.

291

00:23:10,400 --> 00:23:15,840

The transponder is very similar to a GPS system and it's basically just a radio signal going

292

00:23:15,840 --> 00:23:18,400

back to the radar station.

293

00:23:18,400 --> 00:23:24,200

All three of those objects did not have a transponder and all three were objects in the

294

00:23:24,200 --> 00:23:29,280

same area as the witnesses.

295

00:23:29,280 --> 00:23:34,320

Then the data uncovers a possible target.

296

00:23:34,320 --> 00:23:49,040

Commander I think you should look at this.

297

00:23:49,040 --> 00:23:55,960

We have an unidentified aircraft approaching prohibited area P-49 or Crawford, Texas.

298

00:23:55,960 --> 00:24:00,520

One craft without a transponder was headed straight into one of North America's most

299

00:24:00,520 --> 00:24:03,760

heavily guarded no-fly zones.

300

00:24:03,760 --> 00:24:09,520

One of the items that we saw on the radar was traveling directly towards Crawford Ranch.

301

00:24:09,520 --> 00:24:11,040

It was traveling the straight line.

302

00:24:11,040 --> 00:24:15,400

We had over 140 radar hits on that object.

303

00:24:15,400 --> 00:24:20,280

Crawford Ranch is referred to as the Western White House.

304

00:24:20,280 --> 00:24:31,120

In the name of the President of the United States, George W. Bush.

305

00:24:31,120 --> 00:24:38,680

On the same night witnesses report seeing a UFO fly over Stevenville, Texas, radar data

306

00:24:38,680 --> 00:24:45,600

reveals 10 F-16 fighter jets and a mysterious craft bearing down on the no-fly zone over

307

00:24:45,600 --> 00:24:48,920

Crawford Ranch.

308

00:24:49,080 --> 00:24:53,360

Crawford Ranch is where George W. Bush, our ex-president, lives.

309

00:24:53,360 --> 00:24:57,200

It's east of here about 60 miles.

310

00:24:57,200 --> 00:25:01,960

There's a no-fly zone of three miles in every direction around it, even if the President

311

00:25:01,960 --> 00:25:04,320

is not there.

312

00:25:04,320 --> 00:25:10,520

To break that no-fly zone is a series of events.

313

00:25:10,520 --> 00:25:14,640

This would be the ultimate national security compromise.

314

00:25:14,760 --> 00:25:20,360

If a pilot flies through that area, they'll either force you down or they'll shoot you down.

315

00:25:20,360 --> 00:25:26,880

This object that's moving towards the Western White House, and we have F-16s within 30,

316

00:25:26,880 --> 00:25:32,920

35 miles of where this unknown object is, but on radar you can see that none of the

317

00:25:32,920 --> 00:25:34,840

F-16s react.

318

00:25:34,840 --> 00:25:40,160

And as this object descends, suddenly it just moves perpendicular to high-rated speed and

319

00:25:40,160 --> 00:25:43,280

in one to two seconds it's gone.

320

00:25:43,280 --> 00:25:48,440

If the F-16s weren't chasing the strange object, was the Air Force escorting one of

321

00:25:48,440 --> 00:25:51,200

its own top-secret aircraft?

322

00:25:51,200 --> 00:25:57,040

In an instant populated area, why would they have it out?

323

00:25:57,040 --> 00:26:02,280

It could be in the desert where it wouldn't be seen, you know, why have it in this area?

324

00:26:02,280 --> 00:26:07,000

If this was a military aircraft and they'd flown it over civilian space, that would

325

00:26:07,000 --> 00:26:11,080

be a huge military blunder.

326

00:26:11,080 --> 00:26:16,200

Hoping to learn more about this strange object, Steve Allen and Robert Powell return to the

327

00:26:16,200 --> 00:26:19,120

radar evidence.

328

00:26:19,120 --> 00:26:23,200

To me the speed was a very critical thing.

329

00:26:23,200 --> 00:26:25,480

Radar sweeps every 10 seconds.

330

00:26:25,480 --> 00:26:30,600

So once I know where this object is here, where it's at 10 seconds later, 10 seconds

331

00:26:30,600 --> 00:26:36,240

later it's just a question of doing some quick math to calculate how far did it move over

332

00:26:36,240 --> 00:26:39,000

the course of 10 to 20 seconds.

333

00:26:39,000 --> 00:26:45,880

What I concluded was the object accelerated to close to 1900 miles per hour and continued

334

00:26:45,880 --> 00:26:47,880

on its way.

335

00:26:47,880 --> 00:26:52,960

Next, Powell works to determine the object's size.

336

00:26:52,960 --> 00:26:58,960

I wasn't able to do it with the radar information because what the FAA collects does not tell

337

00:26:58,960 --> 00:27:01,560

you anything about size.

338

00:27:01,560 --> 00:27:08,960

But there was one witness who claimed to have some evidence that we could utilize.

339

00:27:08,960 --> 00:27:15,320

After my story went public, I had another officer that works with us that I've known

340

00:27:15,320 --> 00:27:18,640

on my life.

341

00:27:18,640 --> 00:27:26,720

And he told me that the night of January the 8th, he saw, I guess we need to say, a

342

00:27:26,720 --> 00:27:27,720

craft.

343

00:27:27,720 --> 00:27:34,840

He said it was floating near the ground.

344

00:27:34,840 --> 00:27:40,400

He said it was very long, very thin, and it had a hub, a bubble.

345

00:27:40,400 --> 00:27:47,120

He said it was very large.

346

00:27:47,120 --> 00:27:51,920

He described an object, almost a city block in size.

347

00:27:51,920 --> 00:27:54,280

He said it was something that was very big.

348

00:27:54,280 --> 00:27:57,640

It was something that was doing very strange things and was traveling at a high rate of

349

00:27:57,640 --> 00:27:58,640

speed.

350

00:27:58,640 --> 00:27:59,640

I trust him with my life.

351

00:27:59,640 --> 00:28:02,200

He has no reason to lie.

352

00:28:02,200 --> 00:28:06,000

I tried to analyze the size of this craft through multiple witnesses.

353

00:28:06,000 --> 00:28:12,640

And I would take the witness's visual description, and then I would look at where the object

354

00:28:12,640 --> 00:28:16,040

was based on the radar information.

355

00:28:16,040 --> 00:28:21,560

Based on that, I could estimate a size of the object using trigonometry.

356

00:28:21,560 --> 00:28:26,600

The minimum size of this object was at least an eighth of a mile to a quarter of a mile

357

00:28:26,600 --> 00:28:28,200

in size.

358

00:28:28,200 --> 00:28:32,920

Think about something with a radius of two football fields.

359

00:28:32,920 --> 00:28:36,920

You take a football field and spin it around one goal post, and then you've got something

360

00:28:36,920 --> 00:28:41,240

about that size.

361

00:28:41,240 --> 00:28:48,200

The question is, are there man-made aircraft with such amazing characteristics?

362

00:28:48,200 --> 00:28:52,760

The SR-71 flew 2100 miles an hour.

363

00:28:52,760 --> 00:28:57,960

The SR-71 is totally capable of reaching that kind of speeds.

364

00:28:57,960 --> 00:29:01,840

The X-15 flew 6000 miles an hour.

365

00:29:01,840 --> 00:29:06,920

The space shuttle flew 17,500 miles an hour or faster.

366

00:29:06,920 --> 00:29:12,040

So there are vehicles that we have built that can fly a lot faster than that.

367

00:29:12,040 --> 00:29:17,400

But in order to do what has been reported, a vehicle would have to have, number one,

368

00:29:17,400 --> 00:29:19,360

a lot of power.

369

00:29:19,360 --> 00:29:20,840

Thrust is the huge thing.

370

00:29:20,840 --> 00:29:26,520

You'd have to be able to have a lot of thrust for a vehicle that's 600 feet long or wide

371

00:29:26,520 --> 00:29:29,880

to go 1900 miles an hour.

372

00:29:29,880 --> 00:29:35,000

Also the total silence is what was very intriguing, to have something could move that fast and

373

00:29:35,000 --> 00:29:38,680

not even produce air noise going across the surface.

374

00:29:38,680 --> 00:29:42,440

It was just totally silent where we was at.

375

00:29:42,440 --> 00:29:48,760

When a vehicle gets up to the speed of sound, Mach 1, what happens is a shock wave forms

376

00:29:48,760 --> 00:29:49,760

at the bow of the vehicle.

377

00:29:49,760 --> 00:29:57,320

And this shock wave is perceived by us humans as a sonic boom.

378

00:29:57,320 --> 00:30:02,200

Anything traveling at faster than speed of sound, especially at a low level, you would

379

00:30:02,200 --> 00:30:03,520

hear it.

380

00:30:03,520 --> 00:30:06,520

Someone would have heard the sonic booms.

381

00:30:06,520 --> 00:30:10,520

But the vehicle itself is reported to be totally silent.

382

00:30:20,760 --> 00:30:28,360

Professor of physics and astronomy, John Willis studies the vast distances of outer space.

383

00:30:28,360 --> 00:30:33,320

If you had this imaginary spaceship that could travel close to the speed of light, it would

384

00:30:33,320 --> 00:30:37,080

take you four years to get to the nearest stars.

385

00:30:37,080 --> 00:30:42,200

If you were traveling at the much lower speeds that we can achieve with rockets on Earth,

386

00:30:42,200 --> 00:30:45,640

you would be looking at many thousands of years.

387

00:30:45,640 --> 00:30:51,960

It's possible, but it would take many times longer than a single human generation.

388

00:30:51,960 --> 00:30:57,400

As a human race, we haven't yet thought about the challenge of taking that amount of time

389

00:30:57,400 --> 00:31:04,960

to transport humans across that kind of distance.

390

00:31:04,960 --> 00:31:10,000

We can make some guesses about how many planets might host life.

391

00:31:10,000 --> 00:31:15,240

But to actually predict when will we make contact with an alien civilization, most scientists

392

00:31:15,240 --> 00:31:19,480

aren't willing to make that speculation.

393

00:31:19,480 --> 00:31:27,440

I feel like whatever we saw is not from this Earth due to the fact of its flight capability

394

00:31:27,440 --> 00:31:33,640

is the speed it was traveling, it being able to fly silently.

395

00:31:33,640 --> 00:31:39,480

The unknown is very intriguing and leaves a lot of questions.

396

00:31:39,480 --> 00:31:46,240

I checked the internet and a newspaper article shows that in like 1890 or 1891, in fact there

397

00:31:46,240 --> 00:31:57,680

had been some sightings previously.

398

00:31:57,680 --> 00:32:02,540

There was a gentleman near the cotton compress over there that had witnessed a flying object

399

00:32:02,540 --> 00:32:09,080

of some sort.

400

00:32:09,080 --> 00:32:17,680

And it burst into flames and he could describe it as a bale of cotton on fire.

401

00:32:17,680 --> 00:32:22,360

Now I've seen cotton burning, it's the same color of what I did witness so his description

402

00:32:22,360 --> 00:32:27,200

was just dead on as far as the color of the flame.

403

00:32:27,200 --> 00:32:32,320

What it tells me is there has been multiple sightings around here, that's not the only

404

00:32:32,320 --> 00:32:39,640

sighting, so whatever it is I feel like it comes and goes from this area.

405

00:32:39,640 --> 00:32:45,240

Two weeks after the sighting, Constable Leroy Gaten routinely patrols the streets of Stephen

406

00:32:45,240 --> 00:32:50,240

ville.

407

00:32:50,240 --> 00:33:00,080

The witness count continues to rise and over 100 people report seeing an unidentified flying

408

00:33:00,080 --> 00:33:04,840

object in the Stephenville skies on January 8th, 2008.

409

00:33:04,840 --> 00:33:11,280

FAA radar confirms the presence of 10 F-16 jets and a massive object in the area that

410

00:33:11,280 --> 00:33:12,840

night.

411

00:33:12,840 --> 00:33:18,520

But the military denies any knowledge of the mysterious craft.

412

00:33:18,520 --> 00:33:24,640

Then two weeks after the mass sighting, Constable Leroy Gaten responds to a suspicious call in

413

00:33:24,640 --> 00:33:31,920

downtown Stephenville.

414

00:33:31,920 --> 00:33:37,160

It was late, probably three o'clock in the morning, when over the radio I hear an alarm

415

00:33:37,160 --> 00:33:39,880

call come in.

416

00:33:39,880 --> 00:33:44,960

There was a business where an alarm was going off after hours.

417

00:33:44,960 --> 00:33:48,520

And being that I was close by I thought hey I'll just stop and wait for the backup to

418

00:33:48,520 --> 00:33:56,680

come and we'll check out the building.

419

00:33:56,680 --> 00:33:59,640

Something caught my attention up in the sky.

420

00:33:59,640 --> 00:34:05,480

It was changing color from red, blue, possibly green.

421

00:34:05,480 --> 00:34:13,800

This time Gaten goes after hard evidence of the UFO.

422

00:34:13,800 --> 00:34:16,520

The cameras are not made for pointing up in the sky.

423

00:34:16,520 --> 00:34:19,800

They're made of pointing at cars, license plates.

424

00:34:19,800 --> 00:34:23,920

I was able to focus on this object and started recording.

425

00:34:23,920 --> 00:34:26,920

I could see it on a monitor in my car.

426

00:34:26,920 --> 00:34:35,560

And it was a large orb that seemed to be floating, not like your typical star, much larger.

427

00:34:35,560 --> 00:34:40,000

It was moving from east to west slowly.

428

00:34:40,000 --> 00:34:41,680

And I just didn't know what it was.

429

00:34:41,680 --> 00:34:46,800

It looked to be somewhat pulsating.

430

00:34:46,800 --> 00:34:52,400

It appeared to be almost hollow.

431

00:34:52,400 --> 00:35:02,040

But I sat there and I videotaped it for 15, 20 minutes.

432

00:35:02,040 --> 00:35:07,120

The lights didn't leave a tail because they took off so fast.

433

00:35:07,120 --> 00:35:10,840

I went home and looked at the video.

434

00:35:10,840 --> 00:35:15,800

And what was really strange, it had a lot of static interference.

435

00:35:15,800 --> 00:35:20,400

For some strange reason, I just wasn't a clear video.

436

00:35:20,400 --> 00:35:25,080

That did also make front page headlines in the area.

437

00:35:25,080 --> 00:35:30,880

In spite of the hazy image, the latest sighting brings a new sense of purpose to the investigation.

438

00:35:30,880 --> 00:35:32,920

We was making progress.

439

00:35:32,920 --> 00:35:34,880

Everybody knew what they saw.

440

00:35:34,880 --> 00:35:39,200

During the time, everybody had their own assignment.

441

00:35:39,200 --> 00:35:42,760

Robert was doing his radar analysis.

442

00:35:42,760 --> 00:35:46,720

I was still taking a lot of testimony, a lot of what people saw.

443

00:35:46,720 --> 00:35:50,520

So we was busy just trying to figure out what happened.

444

00:35:50,520 --> 00:35:55,840

But the military simply tried to explain it away.

445

00:35:55,840 --> 00:36:01,920

They've got a smear campaign, a cover-up campaign to discredit whatever was seen.

446

00:36:01,920 --> 00:36:06,560

The UFO phenomena is something that the U.S. government cannot explain.

447

00:36:06,560 --> 00:36:10,080

I believe they know it exists, but they can't explain it.

448

00:36:10,080 --> 00:36:13,120

And it's a monkey they don't want on their back.

449

00:36:13,120 --> 00:36:16,880

We were just almost ridiculed to death about what happened.

450

00:36:16,880 --> 00:36:18,320

They never asked what we saw.

451

00:36:18,320 --> 00:36:22,760

They was just too busy trying to explain it away.

452

00:36:22,760 --> 00:36:29,280

The question of a UFO cover-up by the U.S. government is a very tricky and difficult question to deal with.

453

00:36:29,280 --> 00:36:33,360

If there's an event that happens that's widely reported and there are numerous witnesses,

454

00:36:33,360 --> 00:36:38,560

and we're very clear about what happened, the U.S. government will not want to be involved.

455

00:36:38,560 --> 00:36:44,600

It's almost like they want to hide something that everybody knows could happen.

456

00:36:44,600 --> 00:36:50,240

There are probably classified documents still being withheld that deal with the UFO subject.

457

00:36:50,240 --> 00:36:56,160

So the bottom line is the U.S. government does not reveal everything it knows.

458

00:36:56,240 --> 00:37:00,640

Steve Allen refuses to give up his quest for the truth.

459

00:37:00,640 --> 00:37:05,440

His perseverance pays off when he receives a startling phone call.

460

00:37:05,440 --> 00:37:11,040

The person on the other end of the line is none other than NASA astronaut Edgar Dean Mitchell.

461

00:37:11,040 --> 00:37:15,040

We talked for quite some time, probably an hour, hour and a half on the phone.

462

00:37:15,040 --> 00:37:20,240

I told him what all I had seen. He actually knew what I was talking about.

463

00:37:20,240 --> 00:37:24,720

Apollo 14 astronaut Edgar Mitchell is an American hero.

464

00:37:24,720 --> 00:37:27,360

He was the sixth man to walk on the moon.

465

00:37:27,360 --> 00:37:31,440

And for many years he has been very outspoken about the UFO subject.

466

00:37:31,440 --> 00:37:37,200

He's interested in it, has done internal investigations, private investigations with people at high levels.

467

00:37:39,760 --> 00:37:46,400

He had quite a few interesting stories to tell me about what NASA wants them to say

468

00:37:46,400 --> 00:37:51,920

and what they don't want them to say. He relayed some facts about Buzz Aldrin being the first people

469

00:37:51,920 --> 00:37:57,520

on the moon that something had landed within a mile of Buzz.

470

00:37:57,520 --> 00:38:04,320

He told Houston about it. Houston instructed them, said, don't look at it, don't look that way,

471

00:38:04,320 --> 00:38:09,520

have no contact with it, carry on with your mission. Disregard whatever was over there.

472

00:38:10,960 --> 00:38:15,120

And what about Mitchell's own Apollo mission in 1971?

473

00:38:16,000 --> 00:38:19,360

He has seen craft while he was out in space.

474

00:38:19,360 --> 00:38:24,240

He saw different things that definitely wasn't stars or anything. He saw a UFO.

475

00:38:25,440 --> 00:38:30,960

Dr. Mitchell is very credible. NASA doesn't control him anymore or the government, you know,

476

00:38:30,960 --> 00:38:34,880

so he really doesn't give a darn. He'll just tell you what he saw, you know.

477

00:38:34,880 --> 00:38:42,480

I feel like whatever he says is the truth. I knew what my story was. That was the most important thing.

478

00:38:42,480 --> 00:38:50,240

The big surprise was later on is when the report came out and then the other contained.

479

00:38:52,240 --> 00:38:56,960

The radar data did in fact show something, unlike anything that I had ever seen.

480

00:38:57,840 --> 00:38:59,840

Total surprise, a shock, actually.

481

00:39:03,840 --> 00:39:10,400

Since Steve Allen first reported seeing a UFO over Stephenville, Texas on the night of January 8th,

482

00:39:10,400 --> 00:39:17,760

2008, more than 100 witnesses come forward to corroborate his account. But the question remains,

483

00:39:18,400 --> 00:39:26,320

what was in the sky that night? After months of compiling eyewitness testimony and analyzing

484

00:39:26,320 --> 00:39:32,080

radar returns, both the data and the witness accounts reveal a crucial anomaly.

485

00:39:32,240 --> 00:39:41,680

The speed was a very critical thing. Very important that something this large can fly at that speed

486

00:39:42,400 --> 00:39:49,440

and come to a stop, go back the other way, and over accelerate to F-16s. Very unusual.

487

00:39:49,440 --> 00:40:02,400

The object, whatever it was, went from basically standing still to 1900 miles an hour in about two seconds.

488

00:40:05,680 --> 00:40:12,080

Anything that could fly that fast and then come to a complete stop that quick over such a short

489

00:40:12,080 --> 00:40:14,720

area, you know, that's a lot of G-force.

490

00:40:17,760 --> 00:40:25,120

The concept of G-force is part of Newton's law of gravity, a law that here on earth at least can't be broken.

491

00:40:26,800 --> 00:40:34,400

G-force is basically an acceleration phenomenon. If you're in an airplane that pulls, quote,

492

00:40:34,400 --> 00:40:40,000

two Gs, at that point the force on your bottom pushing up on you is twice your weight.

493

00:40:40,720 --> 00:40:46,480

If it's three Gs, it's three times your weight. In an F-16, for example, they can stand nine Gs

494

00:40:46,480 --> 00:40:53,360

fairly easily. They're usually blackout at 10 Gs. Blood comes out of your head and basically you're no

495

00:40:53,360 --> 00:41:01,120

longer in control of the aircraft. I don't know of anything that's 600 feet across that can hover,

496

00:41:01,680 --> 00:41:08,640

that can go 1900 miles an hour in two seconds and then stop again. I know of nothing that we know of

497

00:41:08,640 --> 00:41:16,800

they can do that. If you do the calculations roughly that's about 43 Gs. Within seconds you'd kill any

498

00:41:16,800 --> 00:41:22,160

human being. What I finally concluded when we completed the Steed andville report was that

499

00:41:22,880 --> 00:41:28,960

whatever caused this was not caused by the U.S. Air Force. It doesn't mean that that was an

500

00:41:28,960 --> 00:41:34,800

extraterrestrial object. No one can prove what happened in Steed andville was an extraterrestrial

501

00:41:35,600 --> 00:41:42,160

object. However, what I can say is that it was not anything that we manufactured on Earth.

502

00:41:44,480 --> 00:41:50,480

When the report came out I felt good about it. It did tell exactly what we saw, you know,

503

00:41:52,160 --> 00:41:55,120

exact location, exact times, everything was there.

504

00:41:56,960 --> 00:42:01,840

And I knew that I had seen something strange, but because of some people just maybe not believing

505

00:42:01,920 --> 00:42:05,520

it, I somewhat felt vindicated because the evidence was there.

506

00:42:06,800 --> 00:42:13,680

We ran our analysis by three different FAA air traffic controllers. We asked them,

507

00:42:13,680 --> 00:42:18,160

please look at this, can you find an error in the report? And none of those three could find an

508

00:42:18,160 --> 00:42:26,480

error in our report. As it turns out Powell's report may have been too good. Taking a cue from

509

00:42:26,480 --> 00:42:32,400

the U.S. military, the FAA tightens their policy surrounding access to radar data information.

510

00:42:33,840 --> 00:42:40,400

After our Steed andville report, the next time I requested radar information from the FAA using

511

00:42:40,400 --> 00:42:47,360

the Freedom of Information Act request, they refused to give me the same type of radar information,

512

00:42:47,360 --> 00:42:52,720

stating that they felt it was a threat to the national airspace for me to have that information.

513

00:42:53,280 --> 00:42:58,160

They may have accidentally sent us all that data and we compiled it and sure enough there it was,

514

00:42:58,160 --> 00:43:02,720

it substantiated what we saw. I don't think they want to make that mistake again.

515

00:43:05,600 --> 00:43:11,280

For its part, the military continues to deny that any unknown object ever passed through

516

00:43:11,280 --> 00:43:18,880

Steed andville airspace. 2008, more than nine months after the first UFO sighting,

517

00:43:19,520 --> 00:43:24,400

a crowd of Friday night football fans packed the stands of the local area high school.

518

00:43:28,960 --> 00:43:36,000

They was having a football game and whatever it was, the UFO or the craft pulled up over the

519

00:43:36,000 --> 00:43:43,280

stadium. The craft came directly overhead, completely stopped the football game.

520

00:43:44,160 --> 00:43:52,160

The players stopped first and the refs was busy refing the game and then they watched the players

521

00:43:52,160 --> 00:43:56,800

all looking up. Everybody in the stands saw it, the football players saw it, the referees saw it.

522

00:43:59,840 --> 00:44:05,840

Hundreds if not a thousand people seeing the same thing. This is a real situation. It's not some

523

00:44:05,840 --> 00:44:18,000

kind of hallucination. Since January the 8th in these other events, my life has changed.

524

00:44:19,040 --> 00:44:26,800

My beliefs have changed. Now I'm open to the possibility that there is life beyond our earth

525

00:44:26,800 --> 00:44:33,840

and I hope that before I leave this great earth that I have an answer of what it was that I saw.

526

00:44:34,160 --> 00:44:39,920

I knew it was a life altering experience. I knew it was something that not many people

527

00:44:39,920 --> 00:44:45,840

had the pleasure of witnessing that I was blessed being able to see it.

528

00:44:46,960 --> 00:44:52,320

I believe in life in other universities or galaxies or solar systems. You'd have to be very

529

00:44:52,320 --> 00:44:59,920

narrow-minded to think that we're only people out there. Steve Allen's quest for the truth

530

00:45:00,880 --> 00:45:07,040

isn't over. I sincerely hope I get to see it again. I want to know what it is.

531

00:45:08,000 --> 00:45:19,520

I look up at the skies quite a bit now.
